The Harriaburg Telegraph has the following which may interest some of our reeders. "The liability of the Executive to imposition by the friends of applicants for pardons has induced Gov. Pollock to adopt certain rules in relation to applicants character, which it will be well for the people generally to acquaint themselves with. Hereafter, satisfactory evidence will be required that at least five days previous notice of intended applications for pardons was given to the District Attorney of the city or county in which the conviction took place; and that at least ton days previous notice of the same was given in a newspaper yublished where the conviction took place. These rules, we learn, will be rigidly adhered to unless peouliar circumstances should justify their suspension. This course is absolutely necessary to prevent the abuse of the pardoning power, and to protect the Executive from imposition." When pardons are to be applied for, it is right that the community should know it, in order that there may be such an expression of popular sentiment as will bring out the facts, and masle the Governor to act understandingly and instrict accordance with the principle of justice. The plan originated by Governor Pollock will have this effect, and the principle of justice.
