The Catholics of the Temperance Law.
The Bishop of Dubuque has addressed a letter to the Boston Pilot, from which we get the following passage in reference to the Prohibition Law before the people of this State:

"We request you also, sir, for the interest of our holy religion, and for the temporal and eternal interests of the Catholics for whom you shall have to answer at the bar of the tribunal of God, to use publicly and privately all arguments in your power to persuade them to vote on the 18th Monday of next April, in favor of the Iona liquor Law. This last measure may appear objectionable to some persons, but must be remembered in mind that we are most unjustly accused of being careless of enforcing the practice of the holy virtue of temperance, and that we do not avail ourselves of this favorable opportunity to show our great esteem for anything that may counteract the heinous crime of intemperance, as the liquor law may do, we shall undoubtedly supply our enemies with some pretext to believe us guilty."

BOOKS, MUSIC, & C.
