Hoppper's Parket Plane.—This improvement in an indispensible and valuable tool, is advertised in our columns. We have had an opportunity of examining the patent plane, and the work it performs, and have no hesitation in pronouncing it in our opinion a real and substantial improvement. The opinion, however, in its favor by such experienced men as James W. Woodwell and H. H. Byan & Co., as given in the advertisement, is worth more than any endorsement of ours. Woodwell and H. H. Ryan & Co., as given in the advertisement, is worth more than any endorsement of ours. They are practical men, and know the value of the article. The utility of the improvement is, that it planes a smooth, even surface, as smooth as glass apparently, which cannot be obtained by the ordinary plane alone. It will no doubt supersede the ordinary plane alone now in use altogether, as it can be furnished at about the same rate, or at but a little advance on it.

Dr. Fitch's Opinion of my Braces. | NEW YORK AND CALIFORNIA Dr. Fitch's Opinion of my Braces.

Dr. Grosse H. Kresse-Dear Sir. In reply to yours of the 10th inst. requesting my opinion of your Shoulder Braces, I would say that I consider it one of the best ever derised, and would add that I have myself been long in the habit of employing a somewhat similar Brace with the greatest advantage in cases of contraction of the chest totoping, whether from habit, occupation or debility, more especially where there is weakness or irritation about the lumns, and more or less prediposition to consumption—with the philosophy of its effects to these cases, you are of course arquainted. In some forms of hard desease, or sympathetic excitament of that organ, I have also found the Shoulder Brace of advantage. I do not hesitate to recommend your Brace in all cases where a Brace is required, as one of the mest say and efficient yet in use.
