The captain having asked them whether they had anything to say, one of the blacks requested the examination of certain books which he placed on the desk, which consisted of the Holy Bible, Seneca's Morals, and Life in Earnest. Among the private papers was one in the form of subscription for the purchase of aslave woman named Eliza Howard, the value act on her by, her owner boing \$650.

To the liberating fund, Hon. Gerritt Smith paid \$30, and Hon. W. H. Seward \$5; Hon. J. R. Giddlings was "down" for \$1, but the cash was not paid. Several of our respectable citizons had likewise contributed. There were scraps of poetry in manuscript, including "The Lone Indian's Dream," and the printed constitution of a society called "The Daughters of Jerusalem," similar to the one the "colored folks" have in Richmond, Va., the object of which, as stated in the preamble, is to "relieve the sick and bury the dead."—The contents of a paper box were also examined by the captain, consisting of sets of handsome regalia for the officers of the society.

At the suggestion of an officer the negroes, twenty-four of them in number, were severally scarched, each one in turn going down stairs for that purpose; but nothing tending to implicate them in crime was found on their persons.

According to their own statement they had met for benevolent purposes.

Some of them were released last night, and the other cases were disposed of this morning. The following are the anmes of the persons arrested:

AMERICAN PROVISIONS IN FRANCE.—The Paris correspondent of the Journal of Commerce writes under the date of March 15th:

"Nearly three columns of the Constitutionnel of this morning are conceded to the prices of meat and the value of North American supplies. In another journal a sensible writer had proved that the main dependence of France and Europe must be on the United States, and not on the regions of Lp Plats, of which the beef had excited strong hopes and set many scientific heads on processes of jerking and preservation. According to the Constitutional Putcher's meat has advanced in France 40 per cent. since 1862. The causes are assigned, and they offer but little encouragement for the future. Among the working class the evil is the sprest, next to the dearness of bread, which the provinces suffer, not the privileged metropolis. Our Republic's immense production of snimel food is detailed by the writer. It seems inexhaustible—adequate for the rest of the world; and the Indian corn with which the hogs are fattened. In fine, he observes North America, with its magnificant rivers.

Mns. Cass, the wife of the United States minister at Rome, died in that city, suddenly, on the 3d of March, from congestion of the bring caused by taking a hot bath too soon after eating. She was seired in the bath, and lived birth an hour, unconscious. It was in May last that she was married to Mr. C., at Paris, and she is said to have been a young lady remarkable of represention for the table of the excellent American salaisons.

The General Appropriation bill was then taken up and made the first order of the day for Saturday morning next.

The further supplement to the set providing for the publication of the Colonial Records and for the original papers was taken up and passed finally.

The House then adjourned.

The House then adjourned the first of the then a number of colored people; most of them free, and all of good character, had been detected holding a private meeting, the principal object of which appears to have been to raise money to purchase the free-dome of a young woman whom her owner was willing to all.
