PITTSBURGH: MONDAY MORNING, APRIL 23, 1855.

ors. - Neither the Edito

AS Mr. H. P. MUELLER, late editor of the Stant: Zei fursy and now connected with the Pittaburger Courier, is authorized to sallest subscriptions and avertisaments for the Pittaburgh Gasette, according to our published terms Pittaburgh March 1, 1855.

Removal. THE OFFICE of the Pittsburgh Gazette has been removed to the new building on fifth street, just above Emithfield, and immediately adjoining the listhodist Protestant Onner.

vass of the Nebraska question last fall, it became evident that Missouri would undertake by force of arms to prevent Kanzas from becoming a feee State, we recommended immigrants thither to go well armed with artillery for defence. The beligerent recommendation grated harshly on the ear of some of our cotemporaries, but time has demonstrated that it would have been wisdom to have complied with it. When the Misson rians invaded Kansas lately they took with them two pieces of artillery, for the purpose of shoot-

ing the Free State men in case any resistance was interposed to their unlawful acts; and now we are glad to see that the people of Kansas don't feel like submitting to a repetition of this outrage. They are forming military companies and arming themselves, that they may be preand arming themselves, that they may be prepared when the Vandals next invade their territory, to give them a warm reception. We are told that the immigrants from Massachusetts expect that a brass field piece will be sent them by their old neighbors, to help protect their rights against the white savages from Missouri, and most certainly the Massachusettsmen will be out poor descendants of the men of '76 if they do not furnish their brethren, who are setfor the defence of liberty, with artillery sufficient to hold all Missouri at defiance.

The Chair Gano.—The House of Representatives at Harrisburg has passed the bill to establish a chain gang in this city and send us backwards a few hundred years in our civilization.

We expected nothing better from the House. The fact that the press of the city uttered an almost unanimous voice against the contemplated outrage, and that there was no indication of public contempt it cannot be supposed to have made and passed finally, as follows:—Yeas 30, nays believed the following with that body. Having fallen beneath public contempt it cannot be supposed to have made and a passed finally, as follows:—Yeas 30, nays and passed finally, as follows:—Yeas 30, nays and passed finally, as follows:—Yeas 31, nays and passed finally, as follows:—Yeas 33, nays and passed finally, as follows:—Yeas 33, nays and passed finally, as follows:—Yeas 30, nays and passed finally as follows:—Yeas 30, nays and passed finally as follows:—Yeas 30, nays and passed finally as follows:—Yeas 30, nays and pa pared when the Vandals next invade their terri-

public contempt it cannot be supposed to make much respect for public opinion. We look, however, to the Senate for a defeat of the iniquitous measure, and we ask our Sen-ators to put their ban upon it. No public demand, of any weight, has gone up in its favor, except that of the Councils, and we are charita-

mand, of any weight, has give up in its lavor, except that of the Councils, and we are charitable enough to think that their action in its favor was taken without due consideration, and was prompted by an expectation that the scheme would reduce the city expenses somewhat. The press of the city and the enlightened public sentiment of the community are opposed to it, and humanity cries out against it. It is not worth will now to discuss the matter; it must suffice us to appeal to the Senate in general and our own Senators in particular to defeat the bill and save us from an infliction as disgraceful us as it would be cruel to its victims.

Connellaville Road.—The President of this read, as will be seen by advertisement in our paper, effers to contractors the line between Turtic Creek and West Newton. The contracts will doubtless be taken on favorable terms, and the work will be pushed forward with the energy for which the President is remarkable. As the road is nearly finished from West Newton to Connellaville, and as the Pennsylvania road will be used by the Connellaville Company between this and Turtle Creek, we shall shall soon have a continuous railroad from Pittaburgh to Connellaville, and one of unusual significance to the people of a large section of country who will thus be afforded a speedy connection with this place.

The bill to recei the new county of Baffalo out of parts of Butler, Alleghow, Armstrong and westmoreland, was taken up and passed, yeas 43, anys 41, after being amended so as to leave the continuous railroad from Pittaburgh to Connellaville, and as the Pennsylvania road will be used by the Connellaville Company between this and Turtle Creek, we shall shall soon have a continuous railroad from Pittaburgh to Connellaville, and one of unusual significance to the people of a large section of country who will thus be afforded a speedy connection with this place.
