1. Sec. 1.

It is said that Kinney and Fabens are un-der arrest for getting up an illegal expedition, and that the steamship United States has been attached. From St. Domingo intelligence has been receiv-ed of a compliancy for the purpose of getting up a revolution with a view of securing the receil of the axiled President Bacz. The conspiracy has been put down. Mayor Wood has issued another proclamation on the subject of the liquor law, declaridg his in-tention to assume no doubtful prerogative, but to guide himself entirely by the opinion of the le-gal advisers of the corporation in regard to the period intervening before the law goes into ef-fect. He appeals to the citions, and show that co-ervion is unccessary. Mins Swissners of THE BLACK SWAR.--Mr. Swisshelm went to bear Miss Grienfield sing at one of her recent concerts in this city, but has been so bury planting spring peas that her crit-ical pen has lain tille and her peppery ink been waporating until now. She had something to "ay and ahe says it, if it is a little late in the day. She admires and does not admire the col-ored cantatrice. While her voice "lacks the flute-like clearness of Jenny Lind's in the higher notes," gtill het "never heard tones so indiafute-like clearness of Jenny Lind's in the higher notes," still she "never heard tones so indis-cribably rich foll and mellow." She likes the Ewan, but is disgusted with the "Eminent tai-ent" who thumped harsh discordance out of "wretched looking old kettle-drum"-the pinn.. "Coming through the rye" is, to her, "mean-ingless mummery," and orght to have been re-placed by "Topsy's Song." "People do not travel through rye," she says, or if they do the farmer's dogs are apt to be after them, and they would have no time for love-making. But the forests that the song only supposes the case-"if

Boston, April 27.—Eccning.—On searching the passengers' baggage on board the Africa, in consequence of the robbery yesterday, a trunk was found to contain one thousand letters which were taken to the Custom House. They were valuable, enclosing drafts, &c. on Boston and New York houses. The box belonged to the agent of a well-known European Express Co. The Senate has just voted by 22 to 11 to con-cur with the House in the resolutions for the ro-moral of Judge Loring, and by about the same majority against an amendment permitting him to resign his Commissionership. would have no time for 107-manny. Are case-*if forgets that the song only supposes the case-*if abody." &c. —She is decidedly down upon the "mismanage-ment of her manager." and thus concludes: "By the way, we do not know what she wants with a manager to hawk her around and arhibit her as one might do a kangaroo. I greatly mis-take 'Mario's face if he could not oversee the business department of three concerts. Why does ehe not employ a decent colored man to do basiness for her, and go boldly find the world as one of her own race, clinging is their fate, plead-ing their cause and ready to sink or swim with her people ? This would be felt to be a noble ambition; this would bring her that unbounded success which uncqualed gifts will never do while thus unconsecrated to any noble cause.— why should abe sing like a canary bird when she could sing as an enslaved American womant I never as was such a foolish burying of talents; and when the Lord comes for a reckoning, she will have a poor time getting out her little nap-kin from its earthy hiding place, unless she turn and do works mete for repeatance." vessels are on fird. The wind is very high and the first rages fearfully. The space burned over is about three acres. The less is estimated at from \$500,000 to \$800,-000.
