GAZETTE-CITY DEPARTMENT

PITTSBURGH: TUESDAY MORNING, MAY 29, 1855.

GREERAL STROD OF THE R. P. OHDECH, MIRT-INO IN PRESENTAL SYROD convined on Mon-day morning with prayer. The Basis of Union as prepared by the Con-vention of Beformed Churches and received from the A. R. General Synod, was taken up for dis-cussion.

Bev. Alexander Clark, D. D., belleved that I

Christian man was opposed to Christian Union C This Union of the Church of God is an 'estab-lished point'. She is, ever has been, and will ternally be, one. Yet we know that there are divisions and there are good reasons for them, and before we undertaic to remove the divisions we must be fally satisfied that the reasons have ceased to hold good. Nothing, he said, would be more gratifying to him, more joyful to his soul, than Union, but he did not believe the parties were in a proper state to enter into it. Union has been attempted in Ganads in past years and now the churches are farther apart than ever. He was present when the diarroption took place in the Established Church. Scarcely had that event rampired whan a Union was proposed. He wentured to say they were farther apart now than they were them. He had never known an attempt made to bring the E. P. Church into a minon, but it turned out to be a union of absorb that, they were them. He had never known an attempt made to bring the B. P. Church into a minon, but it turned out to be a union of absorb that, and thal loces its identity. Synod may de-peed upon it they can gain, nothing and may loce something by this Union. Dr. A. W. Elack followed. He said the ques-tion is, are we in faror of Union on the Basis an presented by the A. H. Synod ? That basis does not bear favorable comparison with the basis on which this church has already taken astion. On the plan of this basis, we cannot units with-out producing a division in our on church, be cause there are many in our midst who are not propared to give up our distinctiverprinciples. We have had a better plan than this, vir a plan of Union by Confederation. He regretted that it had not preasiled and been adopted. It is the true method and will eventually units the differ ant depart sents of God's Church, included in the greet Presbyterian family. Dr. Black re-ferred to give up our distinctivery include, in this anto, plike dusting the various element plan is that reported.

Rev. Wm. Calderwood said he was ardenily in favor of Union. In the scope of his observation, he had frequently mot with localities where there were weak A. R. and R. P. congregations, scarcely able to sustain an independent exis-tence. A Union would enable such congrega-tions to join forces and give ample support to a pastor. Ho thought the basis before Synod did not require the church to sacrifice a solitary principle. A union by confederation was better than none, and he hoped Synod would not ad-journ until some step towards Union be made. Rev. S. L. Finney expresses himself in favor of the Union. The infallble word of God teach-se that there is but one church, though there

of the Union. The infaillible word of God texch-es that there is but one church, though there may be different departments of the church. The members of a family are one family, though its members may pass each other without speak-ing. He yavored any plan which would unite all in one fraternal bond of lore. Division is a sin, if this be not sufficient cause. If we see churches walking disorderly, we should not hold fellowship with them. If however, they are not walking disorderly. God teaches us to unite with them in common fellowship. We have now before us an offer of union and if that church be walking orderly, before. God and we do not units with it, we sin, and impliedly stigmatize that church. He referred to a threat that had been made that the church would be divided in

een made that the chu rch would be divided i been made that the entropy would be divided in (case of a Union.' Upon those who make such threats, an awful responsibility rests, and, be-fore Christ, the head of the church, let them another it.' it has been said that by Union we would depart from the principles of truth we have ever maintained. "He knew not one. He of truth we

bring them all under one roof. He further ad-vocated a confederated union. Her. J. McMaster beliered that the Church ought to cultivate the higher and more spiritual union before she looked to an organic union. Her. J. McMillan preferred that the church should go on in her legitimate and appropriato sphere. He could see nothing wrong in her — Her doctrines were all that man could desire and if any desire union let them come into her and not ask us to wander off. He opposed the basis as length. If my brother ask me to a feast, said he, and he put arsenic on the plato, I shall not east with him.

est with him. The Synod continued the discussion until the hour of adjournment.

REFORMED PRESEVTERIAN STROD REFORMED PRESETTERIAN STROD-MERTING IN ALLCOMENT-FJUL Day. After the usual intro-ductory business, J. Al. Willson mored that the committee on Presbyterial reports beinstructed to report a distribution of ministerial supplies among Presbyteries until next meeting of Synod. A. Stevenson drew the attention of members to the fact that Synod had come into a considera-ble amount of property, and that Synod had no tille to held it. He would like Synod to inquire into the propriety of obtaining a right to hold property as Synod. The Chairman of Committee on Discipline in-quired whether Mr. John Rice and stated to any members of this court that he had connected himself with the General Assembly, (O. S.) S. Carlisle said he had so stated to him and Mr. Sloane.

He desired all in the soft ourfederated Union struck him as the most and to eradicate the evils of society. The plan of confederated Union struck him as the most set other under one General Assembly and by et anable them to maintain their distinctiveness as long as they choose. He was prepared now to devise such a union and present it to the other churches. No doubt this was in fields of the day of a framework when he proposed a Union of all the distenting bodies, not of incorporation but of co-peration. This kind of union must come before the day of organic union can arrive. have ever maintained. He knew not one. He would ask that it be pointed out, or not forever held up as a constant barrier to union. He was also in fovor of Union on account of the blessed results which would follow. Bar. Dr. Guthris believed that the great prin-iples of footrins and invision that he state are the second of the blessed next paragraph which contains the oath, and

results which would follow. Ber. Dr. Guthrie believed that the great prim-ciples of dootrine and profession which we hold are the same in the other church, nor could he see any sacrifice of principle in the basis under consideration. He was opposed to a confedera-oy-it would do if we were living at a tangent from all other bolies. The feeling among the Eldership of the church is now more decidedly favorable to Union than ever. As to threats of disunton, they had no influence with him. He had compared the statistical condition of the church twenty-two years ago with its present condition. We have increased but a few thor-
