Extrassion of Firth Street.—Since the location of the Post Office permanently—on Fifth Street it has become one of the principal thoroughfares of the city. It has the rare advantage, in acity of narrow streets, of being wide and capacions; and being on the direct line of communication with the upper wards of the city it is fitted to become a great and attractive promonate. It has the disadvantage, however, of being whot, extending only from Liberty to Ross streets, and has but one outlet—that through Wylie street—to the upper wards and thickly-settled district beyond the city line; and hence, since the Post Office and the central position of the street itself are daily rendering it of more consequence, attention has been directed to the necessity as well as the importance of extending it so as to contribute to the general accommodation of the community.

In the Princeton Seminary 109 students were present during the year, including 52 new ones. Thirty-two graduated.

On the Third Day, the report of the Board of the Board of the committee on Domestic Hardward and control that the open wards of the city it is fitted to become a great and attractive promonate. Two methods have been suggested of extend-file the principal for its monds they of the Board of Education was taken the proper wards and third proper wards and the principal forms the proper wards of the city line; and hence, since the proper wards and third proper wards of the city line and the central position of the same that the proper wards are the proper wards and third proper war

in time, a great central promenade throughout its entire length, as Fifth now is in its present short extent.

The importance of this extension can hardly be over-estimated. It would afford a convenien outlet and inlet to a valuable and thriving part of the city, and besides being a great public accommodation would be one of those grand improvements which add so much to the appearance of a city in the eyes of strangers.

We await the report of the city regulator; and we trust that, when it is forthcoming, the estimated cost will be cheerfully shouldered by those to the will fall, that the work may be undertaken without delay.

The Protestax Cleden of Savannal.—A report in the Baltimore papers of a funeral sormon preached in the Cathedral in Baltimore during the sitting of the Provincial Council in memory of Bishops Barron and Gartland, by Reving the prevalence of the Yellow Pever in Savannah cowardly ran away from the scenes of Ravannah cowardly ran away from the scenes of danger and that Bishops Barron and Gartland "attended at the bedside of dying Protestants whose pastors had field from the plague." These charges against the Protestant clergy have been met with an indignant denial by the Savannah Republican, which asserts that not a single Protestant content of the content of the saven of the saven of the Provincial Council in the same of the complete of the content of the death of Dr. Lindsley, a delegate from New Albany, Ind., had been stricken down by apoplexy. The Assembly immediately joined in the Sixth day's proceedings were somewhat on the similar spirit.

The sixth day's proceedings were somewhat on the sixth of the sixth proceedings were somewhat on the sixth of the sixth proceedings were somewhat on the sixth of the sixth proceedings were somewhat on the situation in the Assembly and acknowledged by the moderator in a similar spirit.

Now it would appear hard for Doctor McCaffrey to say too much of these good Bishops
(Gartland and Barron) both of whom died martyrs to the heroic charities of religion. But if
Dr. McCaffrey has said what the Baltimore Sun

clergy of Savannah during that epidemic, then I
cheerfully add my testimony to yours, that he
was greatly misinformed. It is altogether untrue that they abandoned their posts or left their
flocks to the charity of either Catholic bishop or

assertion is a mistake made by the Baltimore Sun

of which isto show that the fears expressed and
honestly felt by many, of the injurious effects of
the power of the Pope in this country are chimerical. A rapid history is given of the rise
and fall of the Papal Power, and its present

that the mind of the writer is keenly alive to the
errors and follies incorporated into the Church
of Rome. We extract two paragraphs:
