The larsh has nor advanced the number from in the strength of the status is doing terrible damage. I have be-fore me the regort of Corzolino as to the latest changes which have taken place about the cone-just at the base of it a lake of fire has been formed which loose like a red sets in an undit tory state. In the very centre of this has open-ed another crater, which is throwing ont red-hot stones. On the morning of the 7th the crates the monder, and after sending 'forth lighting, for mes on the side of a large of the latest and from these the large point forth light line formeds, and resemble gigantic exhibitions of pyramids, and resemble gigantic exhibitions of forwerks. The whole of the summit is eritably fall in. The thin crust trembles under for the crater is therefore like a sponge and must in a fire some some existen to the summit to the stones of the summit of the tremulons movement; the part immediately round the crater law is tones dance with the tremulons movement. The part is donot of Eirst street, of pyramids, and resemble gigantic exhibitions is going on on the summit. There are reports is going on on the summit. There are reports to the stones of the summit to the stones of the stones of fireworks. The stones dance with the tremulons movement; the part immediately round the crater looks like the sides of a heater of signing to an the summit. There are reports is going on on the summit. There are reports the stones the are of the days, as the danger is now wery great. Bafore I write again I shall make the stienent. This night I went to the scenes of the mostatir-ring interest after an Interral of two days. The is going interest after an Interral of two days. The is call the crater is a callet or the scenes of the scalible to the stiene of the read after and fire a call for-to fire after an Interral of two days. The The lava has now advapced ton miles from its urce and is doing terrible damage. Thave be-re me the report of Correline as to the latest THE KINNEY EXPEDITION .- Though Col. Kin
