HOPPER'S PATENT PLANE.

THE undersigned is prepared to supply CARPENTERS, CABINET-MAKERS, and Workers in Wood generally, with his Patented and valuable Planes. All who have tried it pronounce it the most valuable invention, that must soon come into general use. The following letters from practical workmen are but two among many letters the Patentee has received recommending this Plane above all others in use:

PITTSBURGH STEAM CABINET FACTORY, February 22, 1855.

We hereby certify, that during the last twelve months we have used Hopper's Patent Plane, and do not hesitate to recommend it to Cabinet-Makers and Carpenters as superior to any other Plane in use. We consider it possesses a decided advantage in planing oak, cherry, &c., and in all kinds of hard wood, and for planing veneers, it is far superior to the old mode of several irons, besides having a great saving of time. One man, by using this Plane, will plane more veneers than five men can do by any other method.

J. H. EVAN & CO.

TO MESSRS. P. HATON, Esq.:

Dear Sir—I have examined Hopper's Patent Bench Plane, and believe it to be a most excellent article for the use for which it is intended, as a combination of plane and scraper.

It is particularly adapted to planing veneers, and it does not require one-fourth the time to prepare the old method, as I have doubted, when its properties become generally known, but that it will entirely supersede the former tedious and laborious custom.

I most cheerfully recommend it to all persons engaged in the Cabinet business, as, from my knowledge of it, there is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Bench Plane.
