But for the existence of a secret political order, that party could be inaugurated now. In the meantim the friends of freedom must patiently bide their time, keeping their eyes fixed on the great object in view, and avoiding all entangling alliances -acting with all who will act with them on a platform of resistance to slavery encroachments such as the Republican party in Ohio, and throw-ing their forces always where they will best pronote the cause they serve, until the elements of opposition to slavery aggression shall have settled down into one homogeneous and powerfu political party for the enunciation of free senti-

ments and the promotion of Northern rights. There can be no fusion, strictly speaking, between the Anti-Nebraska men of the Free States, and the Pierce Anti-Nebraska Democracy. El-ements so diverse cannot fuse. There may be a union of action for local objects, or temporary purposes, such as the Mayor's election in the city last winter, where the question at issue was narrowed down to one point, that of whether an open or a secret oath-bound political party should under similar circumstances, and for simil purposes, local in their character, but it can

We are glad to learn that there was a small fusion in this case, and not a union of opposite elements. The Know-Nothings of that region are avowedly pro-slavery, and the Buffalo of Mr. Fillmore, is unrelenting in its opposition to the anti-slavery sentiment of New York and the free States. of Mr. Fillmore, is unrelenting in its opposition to the anti-alavery sentiment of New York and the free States. The Buffalo Democracy says that it is a most significant and hopeful fact, that in the late election, radical Whigs and radical Democrats, animated by a love of freedom and harred of slavery, and of secret combinations to proscribe foreign born citizens, heartily united in a successful political action:

"In Buffalo the union between heretofore hostile parties is accomplished. The divisions made by names, between citizens of harmonious views upon all National and State policy, are henceforth broken down. The REPUBLICIAN PARTY does now exist in the County of Eric. There is a fusion of the Whigs of the Anti-Newraska school, and of the Democrats who oppose the farther spread of Human Bondage under the sanction of the Frederial Government, or by individual State violence, in the Bouth West—a fusion into an united and earnest combination, to make the North supreme in the Politics of the Nation, and to stop forever the growth of Slavery upon the Slavery upon the Slavery non the Slavery non the Both of the city of Buffalo, do now constitute a Kepphlican Party—portion of that future great organization which shall fill the North, and rule the Union."

Such is the fusion we should like to see in this county, and all over Pennsylvania, and the free North. Let us hope for it, watt for it, expectively and the proceeding of the condition of things in the locality of Buffalo, do now constitute a Kepphlican Party—portion of that future great organization which shall fill the North, and rule the Union."

Such is the fusion we should like to see in this county, and all over Pennsylvania, and the free hope in the signs of the times. The results of the Republic of the State of the Republic of the Rep

Opposition to the encroachments of alavery has become a potent power, and we believe such opposition to the encroachments of alavery has become a potent power, and we believe such opposition resigns in the hearts of a large majority of the people of this cosmity, and of Pennsylvania. It is excel-lently written, and, in the main, breathes a good spirit. The domestic life of a country village is sketched with a master hand, and the fashionable follies of New York aristocratic society come in for a good share of the author's satire. One of the main purposes of the book, we take it, is to paint the sin of Intemperance in its own naked deformity; and one of the best chapters is that which sketches the proceedings of a temperance meeting in the country. We could wish, however, that some of the profane expressions there introduced had been left out. Altogether we think this is one of the very best American works, of the kind, recently issued, and it will outtless find a large circle of admirers. We are indebted to the publishes for our copy,
