Book and Job Printing.

JOHN T. SHRYOCK, having recently removed his Job Printing Office to 93 Pike street above the Court House, would respectfully solicit the attention of business men and others to the superior advantage of manufacturers, and superior workmanship and better punctuality with which their orders will be executed at his new establishment. The increased facilities of his office for the execution of work of every description, and the moderate prices at which it will be done, will, he trusts, secure a liberal share of public patronage. Orders for the sale of a superior article of Printing Paper, by the ream or quire, will be promptly filled. Fifty reams Book Paper, 24x36, on hand and for sale. my10

HOPPER'S PATENT PLANE.

THE undersigned is prepared to supply CARPENTERS, CABINET-MAKERS, and Workers generally, with Patented and valuable Planes, which he feels confident will recommend themselves to every intelligent mechanic. It is unnecessary to say more than that the Plane is of the same general form as the Ordinary Plane, but differs from it in the following particulars, viz: The Iron is set at a less angle than the common Plane Iron, and is supported by a Wedge, which is so arranged that it can be adjusted with the greatest nicety, and when set, will not work loose. The Plane Iron is also supported by a Screw, which passes through the Wedge, and by which the Iron can be set with the greatest nicety. The Plane is also provided with a Screw, by which the Iron can be raised or lowered, and the Mouth opened or closed, without disturbing the Wedge. The Plane Iron is also provided with a Cap, which is fastened to the Iron by a Screw, and which can be adjusted to any desired distance from the edge of the Iron, and which effectually prevents the Shavings from clogging in the Throat of the Plane. The Plane is also provided with a Thumb Screw, by which the Cap can be fastened to the Iron, and which can be loosened or tightened without disturbing the Wedge. The Plane is also provided with a Thumb Screw, by which the Wedge can be fastened to the Plane, and which can be loosened or tightened without disturbing the Iron or Cap. The Plane is also provided with a Screw, by which the Mouth can be opened or closed without disturbing the Iron, Cap, or Wedge. The Plane is also provided with a Screw, by which the Mouth can be opened or closed without disturbing the Iron, Cap, or Wedge. The Plane is also provided with a Screw, by which the Mouth can be opened or closed without disturbing the Iron, Cap, or Wedge.

The above Planes are warranted to be of the best quality, and to give entire satisfaction to the purchaser, or they may be returned within thirty days from the time of purchase, and the money will be refunded.

We hereby certify, that during the last twelve months we have used Hopper's Planes, and do not hesitate to say that we consider them superior to any other Plane in use. We consider them valuable improvements, and prefer them to any other Plane we have ever used. We have also used Hopper's Patent Plane, and find it superior to any other Plane in use. We consider it superior to all other Planes for planing oak, cherry, walnut and other hard wood, and for planing hedges being a fine saving of labor. We have also used Hopper's Patent Plane, and find it superior to all other Planes for planing oak, cherry, walnut and other hard wood, and for planing hedges being a fine saving of labor. We have also used Hopper's Patent Plane, and find it superior to all other Planes for planing oak, cherry, walnut and other hard wood, and for planing hedges being a fine saving of labor.

PITTSBURGH STEAM GLASSET FACTORY, February 27, 1855.

To MESSRS. P. HOPPER:

Gentlemen: We have examined Hopper's Patent Bench Plane, and believe it to be a most excellent article for the use for which it is intended, as a combination of pure and good iron.

It is particularly adapted to planing veneers, and it does not require constant attention on the labor of the old fashioned kind I have no doubt, when its properties are generally known, that it will entirely supersede the old and laborious custom.

I most cheerfully recommend it to all persons engaged in the above business, as from my knowledge of it, it is a valuable implement, and has given entire satisfaction. There is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.

JAMES W. WOODWARD.

Furniture Warehouse, 97, 99 Third st., Pittsburgh, February 27, 1855.

MESSRS. P. HOPPER & CO.:

Gentlemen: In this city, is my sole Agent for the sale of Planes, or of rights to manufacture and sell them.
