HOFFER'S PATENT PLANE.

THE undersigned, prepared to supply CARPENTERS, CABINET-MAKERS and Workers in Wood generally, with his Patented and valuable Planes.

All who have tried it pronounce it a most valuable invention, that must soon come into general use. The following letters from eminent workmen are but two among many better the Patentee has received recommending the Plane above all others in use:

PITTSBURGH STEAM CARRIAGE FACTORY,
February 22, 1855.

We hereby certify, that during the last twelve months we have used Hoffer's Patent Plane, and do not hesitate to recommend it to Cabinet-Makers and Carpenters as superior to any other Plane in use. We consider it peculiarly adapted to planing oak, cherry, walnut and all sorts of hard wood, and for jointing veneers it is far superior to the old mode of scraping, besides being a great saving of time. Any man, by using this Plane, will please more than ten men can do by any other plane or method in use.

R. E. KLAN & CO.

To MESSRS. F. HOFFER, ESQ.:

Dear Sir—I have examined Hopper's Patent Bench Plane, and believe it to be a most excellent article for the use for which it is intended. As a combination of plane and scraper,

It is particularly adapted to planing veneers, and it does not require one-fourth the time or labor of the old method; and I have no doubt, when its properties become known, that it will entirely supersede the former tedious and laborious custom.

I most cheerfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.

Yours, respectfully,
WM. C. HUPFELD.
