To MESSRS P. HAYDN, Esq.:

Dear Sir:—I have examined Hopper's Patent Bench Plane, and find it to be a very excellent, safe and useful plane, for which it is intended, as a combination of plane and scraper.

It is particularly adapted to planing veneers, and it does not require one-fourth the time to learn to use it by this method; and I have no doubt, when its properties become generally known, but that it will entirely supersede the use of the old scraper and hideous cutnose.

I cheerfully recommend it to all persons engaged in the cabinet business, from my knowledge of it.

Yours, &c., H. H. STAN & CO.
