Although a small-engine, ten inch stroko by 44 diameter, it runs three presses with nor will they pay any respect to its mandates. Many of them would doubless vote its ticket, provided it pleased them better than any other afast ease. It is simplicity itself, not liable to get out of repair, and takes up but little room. at such a thing as obedience to the to the picesnee, over that once brooked no denial nuless at the cost of disgrace, is regarded as one of the follies of the age upon which the shades of obliv-ion should speedily gather. Still grave officers fill the official chairs, and alittle company, made up mainly of expectant patriots, gathers round them at the stated meeting; but they must be habitually treading upon each others' toes in their ambitious schemes, and almost overy meet-ing drives some one away, never to feturn. Fru-dent and intelligent men who became connected with it because they believed that it would rise above the office-begging manie of the old parties, have learned to their sorrow that of all other parties that have ever existed, the new purifier We have had two slide-valve engines, but they were greatly inferior to this for power, simplici-ty and strength. Oscillating engines have heretofore been objected to on account of leaking steam, but an improvement, patented by Mr. Cridge, completely removes this objection, and for engines for purposes such as ours, renders the oscillating engine superior to all others. Its greatest merit, however, next to its simplicity and durability, is the saving of coal. This is very great; in our case it has amounted to over fifty per cent. A governor is attached to the have learned to their sorrow that of all other parties that have ever existed, the new purifier has become the most corrupt—has furnished more and greedier expectants, all of whom have presumed upon the oath-bound obscheicece of the members to sustain them, if they can only, by engine by the same makers, of so delicate a baracter that one or all the presses can be thrown off at once, without any jar to the engine, it immediately accommodating itself to the
