To THE SCHOOL DIRECTORS OF ALLEGHENY Co.

Gentlemen.—In order that you may be enabled to open your schools on or about the let of September next—and desiring to interfere as little as possible with your busiest time—the harvest—the abundant harvest of a fruitful season—the subjoined list of appointments, for the examination of teachers, has been carefully prepared—to which your attention is respectfully called.

It is exceedingly desirable that the Directors and parents too, should be present at the examinations—surely one day might be spared—hoping that it will result in the employment of "gifted, skillful, carefuly trained, efficient and devoted teachers," who, by the faithful discharge of their duties, will cause the coming winter to be, to the young and tender mind, the seedtime of an intilictual harvest—thereby aiding to establish upon a firm and proper basis the profession of teaching and to maintain under all discondistances, its respectability, efficiency and usefulness.

Taschers holding the "Temporary Certificates" will be required to have them exchanged for the "Provisidnal" or graded certificate lately provided by the Department—and insammach as the former Superintendent, was obliged to grant ("Professional" or permanent certificates, before the blank forms for the "Temporary" were received—it is suggested, that theseals be renewed or exchanged for others, as the Denartment has made it a part of the duty of the County Superintendent, to promptly annul such certificates when found in the poeression of those who prove to be entirely incompetent.

The Saperintendent, on application, will be happy to renew the certificates of all those indi

to be entirely incompetent.

The Superintendent, on application, will be happy to renew the certificates of all those individuals with regard to whose multiplications. viduals with regard to whose qualifications be is amply satisfied. Directors (aspecially of the rural districts) should examine each certificate before giving employment to any one.
