Manage of the second of the se

ranklin and others, then stated that if after five minutes there was no bid, the sale would be adjourned. Still there was no disposition manifest of temperance to restrain the sale of liquor by the Maine Law or similar enactments. The chief centres of this movement are Philadelphia and Pitzburgh. It is stated by members of the Liquor Order here, that they number in this County already two thousand five hundred, who are all sworn to vote for persons only who are in favor of repeal. It is also said that a fund for this County alone, of \$20,000, has been subscribed, and \$5,000 paid in. It is also reported that they have subsidized a press in-this city. We make these statements from rumor, which has doubtless exaggerated the number and power of the organization. That it exists, however, there can be no doubt; neither that it appropriates money freely and is very active and scalous.

The sudden rise of this first that there would be without day; and after a further effort to redicit a bid, the sale was after a further effort to redicit a bid, the sale was also accordingly, by direction of the Governor, declared adjourned since die.

So the State has the Maine Line on her hands, and ille at that. The Penusylvania Railroad, for the purpose of destroying the business of the State have the delectable prospect to the State have the delectable prospect before them of seeing the works, and throwing it on to the Central road, bought out the transporters, and the taxpayers of the State have the delectable prospect before them of seeing the works which have cost to make the sate works, and the sate in the sate in this city. The control of the state have the delectable prospect before them of seeing the works which have cost to make the sate of the state have the delectable prospect before them of seeing the works which have cost to make the sate of the state have the delectable prospect to the State, and no deference of the organization. That it exists, however, and the tax have perished the organization. That it exists, howe

The sudden rise of this secret association, and the facility with which it acquires funds, shows how much stronger is interest than principle, in controlling the actions of men. Temperance men have been laboring for years, and yet have no well organized force, and never have any of the future interests of the no well organized force, and never have any of the future interests of the than "sinews of war." The power of interest stockholders.

Directors of the Railroad Company never did a more unwise act, and it behooves the stockholders to call them to a strict account. column for its protection and extension, the north is divided and indifferent, even while professing to be prefoundly convinced of its sinfulness and flagrant injustice. Thus the liquor dealers are organized and active, while the friends of temperance are hesitating and undecided.

It is to be regretted that the temperance men had not something better than the law of last winter for a rallying point. The question is asked, has not the law inherent defects which will prevent its being of much utility? If so, is it not a serious question for temperance men to consider, whether it is wise to waste their strength and weaken their cause in a struggle to preserves a law which does not reach the reach th the evil, while it arouses the opposition of liquor the New York Times. CHAWFORD COUNTY.—The following call is published in the Conneautville Banner:

The citizens of Western Crawford, desirous to sustain and advance correct principles, and believe those enuncisted by the Ohio Republican Convention to be the true sentiments of Northern men in the present crisis are invited to meet at Boynton's Itali, on Saturday, July 28th, at 7½ o'clock, P. M., to affect an organization on the Republican basis. epublican basis. The call is uanimously requested. The Conneautville Banner heretofore a strong Know

Nothing paper repudiates the Know Nothing takes ground for the Republican

party as follows:

A call is issued recommending the holding of a Republican State Convention at Harrisburg or Pittsburg, to take the neccessary steps to organize on a firm Republican basis, and thereby combine the Anti-Slavery men of all parties We heartily join in recommending such a Convention and trust it will neet with encouragement from every friend of Freedom. The Republican Party has shown itself to be the true friend of free institutions in overy State where it has been organized, and has been more successful in blending all the opponents of Slavery, without respect to former party ties, than any other organization. The people of the North have been experimenting politically about long enough, and no organization has stood the test so well as the Republican Party of Ohio, Michigan and other completely absorbed or annihilated all other par-ties. Many of the leaders of the American Party have labored hard to have their organiza ties. Many of the leaders of the American Party have labored hard to have their organization supercede all others in the promotion of free-principlea, but have only partially succeeded, and in many places have found their efforts useless. In Ohio and other States the most prominent members of the American Party see now co-operating with the Republicans, and consider it no sacrifice of principle to do so. This is the true policy as we believe it will yet be made apparent to all Anti-Slavery men everywhere. The Northhas become so divided by different parties and organizations, that their power cannot be felt until some measures are taken to unite them, and if the organization of the Republican Party will effect this result, we hall the event as a glorious era in the history of American Liberty. The time has come when the great question of the day—that which most completely engross ses the mind of American citizens—is Slavery, and since the battle for Freedom must be fought, let the freemen of the North array themselves in order, meet the issue as one must, in a firm and decided manner, and auccess is inevitable.

The noblest discovery in the science of medicine, and the one which has, and will continue to prove, the greatest blessing to the human family, is the medical preparation known as Marshall's Userine Catholicon.

It is designed to cure the various diseases incident to famales, such as prolapun, pain in the back, weakness, such as prolapun, pain in the back, weakness, extreme prostration from nursing and a hundred other swis in their train, have almost made life a burden turned existence into a daily and hourly curs. The most enlightened professors of the medical colleges in the old world, as well as in this (country, have hald the subject in anxious consideration, and they have finally determined that the old method of treating these as local and separate disease was all wrong, and that a constitutional treatment was what was required. It is an old adage, that great bodies more slowly; and while the Faculty were endeavoring to harmonies where views and digrate a system for general practice, Dr. Fomeror, a physician with horty years experience in the diseases of woman and children reduced the theory to simple faces, and discovered a fermed which has cursed and will cure sighteen out of eyery twenty cases now assisting.
