Since the arrangement went into effect, our des patches have often reached us a day behind; and the news by the Atlantic, which arrived in New York on Wednesday evening, and was pub-lished in New York, Philadelphia, Baltimore and lished in New York, Philadelphia, Batumore and Cheeland on Thursday morning, did not arrive here until Thursday noon, in time for the evening papers. We have observed, also, that nearly all the news worth anything is always nearly all the news worth anything is always. sent a day after the fair, and in time for the evening papers, thus defrauding the morning papers out of their rights. Without being disposed or desming it necessary to go into the particulars of the case, I can say that the saton-labing results that have been produced by the use of that medicine on a number of my own family, and under my own observation and suggrintendence, after the skill of the best physicians had been axhausted and all the sumal remedies halled, fully justify me ju recommending its use to all who may be suffering from that dreadful mislady. I do not mean to say that it is adapted to all constitu-tions, or that it will afford the same relief in all cases first of course, I can know mothing about that—but from what I have seen of the effects, I would not bestate to use it in any and every case of Scrofule, with persons for whom I stit an interest, or over whom I could carried in fusions.
