Gov. Johnston, we may state in conclusion, took ground against the REPUBLICAN party, and we put the fact upon record. It is something denied, in a published card, that he belong to the Know-Bothing party; now, he says, he is prond to acknow-Bothing party; now, he says, he is prond to acknow-ledge himself a member of that the backle time next

year? The public, of course, are not to be deceived, either by pitiful gatherings of demagogues in the open air, or the pompous and made-to-order resolutions such gatherings may adopt. The po-sition of the Know-Nothing party was defined at Philadelphia and Reading; and these supplemental declarations are got up for mere by-play, such, at Glasgow, on the 5th of July 1854—just to serve some selfish aim or delude the masses.

The marriage relation as established in Christian society is assailed as an odious system of tyranky over women, and it is argued that every woman should be "faithful to her own life-law," fully sensible of her God-given dower of love, and her rights to bestow it according to the divine law of her attraction." The meaning of such circumlocutory parameters as these is sufficiently obvious, and we of will not defile our columns by supressing it in plainer larguage.
