Smithfield stree. Wesley Chapel. Asbury Chapel. Christs Church Welch Mission THE ANDERSON LIBRARY. — This institution, as our readers are aware, ores its existence to the liberality of a prominent citizen of Allegheny, whose name it bears. It was at one time in a very flourishing condition, but within a year or two past it declined and finally lapsed into an entire suspension of operations. Some months since the Legislature passed a law placing the Library in the hands and under the control of the Councils, who subsequently appointed a com-mittee to reorganice the institute and placed it once more in the tide of successful operation. About a month since, the Library was again opened, and is now prospering finely. It has twenty-two subscribing members, and orer one hundred and forty apprentices avail themelves of the advantages offered by this excellent col-lection of books. The Library is under the tem-porary supervision of Mr. Campbell. It con-tains about thirteen hundred and flat books, beside a large number of State and National publications. The original domation of Mr. An-derson consisted of fitteen hundred volumes, but many of them have been lost. The Council, as We understand, intend replacing these, and ma-king an additional purchases of new books. Mr. Anderico also has expressed his willingnees to incurses the Library, provided it be properly un-THE ANDRESON LIBRARY. This institution, as Pine Creek .. utior.

Velectine Short, the chairman, being absent, Velectine Short, the chairman, being absent, K. T. Friend was appointed to the chair, pro tempore. Mr. Friend stated the object of the meeting to be the consideration of the best mode of operating in the coming campaign. A dis-cursive talk followed, in which all present took Anderson also has expressed his willingness to increase the Library, provided it be properly su-perintended and carsed for. We would suggest to the committee the propriety of further in-creasing the attractions of the Library by taking the popular magazines of the day, and we earn-setly hepe the whole institution may be sustain-ed and supported in a liberal manner. It is an invaluable benefaction to a large class of our youth, who would not otherwise have access to "books which are books," by means of which their minds are enlarged and improved, their fund of information increased and their prospect of becoming good citizens made much more hope-ful. Curries take followed, in which all present coup part, and it was finally unchanged upon that the party would acquiesce in the action of the County Convention, to be held on the nine-teenth of September. The Committee adjourned without doing any-thing further.

COMPLAINT BOOK IN ALLEGHENY .- From "COMPLATE BOOK IN ALLEGENT. - From an impection of the two books, we perceive that the elitzens of Allegheny are more appreciative of the advantages of the Complaint Book than are our clinens on this side of the river. Within the past three or four days the following com plaints have been entered in Allegheny, and mostly attended to by direction of High Consta-ble Boott: There is a nond of starmant water between light, whether or not he had died.
