THE LOUISVILLE MASSACRE.—The responsibil-ity of this shocking affair will be placed upon Know Nothingian. Strong in Louisville, and possessing the Folice and Magistraoy of the en-tire city.—stimulated by a newspaper Press pro-scriptive of Catholics and the foreign-born. Know Nothingiam was insolent and memory before the opening of the poils of the bloody election. Aggreesive and violent, what could have been expected from its presence among the excited objects of its passion, save opposition and Late. From this conjunction came insertia-by a bloody strife, and alas! many desths. The fruit was legitimate. None else could have ripened upon that foreign plant Know Noth-ingism. Hostile to this Berublican soll, it can never produce anything but discord, violence and blood. Particularly was it sure to yield these fell result under the culture of slavehold-ers. Cheap free labor is hateful to them. En-ropean immigrants help to depress them in the scale of political power, and to give the North population, wealth and Federal influence. The shocking scences which have transpired in Ken-tucky, possible and probable here, were inev-itable there. How solemn a warning should the Louisville dead be to all the citizens of the Republic, to suppress plassions which stimulate unfraternal feeling, and array against each otherwhe mem-bers of a common political family.—Bufalo Democracy.

The "REPUBLICAN" call invites men of all navties, without recend to former disting tions, to meet together and form a common platform; and there is therefore no need for calling another convention.

On the 16th the Illucio sone followed their example. On the 18th, Maryland, moved by the pervading harmony, adopted a platform exactly the reverse. About a fortnight after, New Jer-sco made a vain attempt to sit on both stools at once, and met with the faste to which such am-bition leads.

Do the five triangh whom the four are beaten, and vice versa, or do the two rule the other nine? Or is Samed a chameleon, that can be black and white according to circumstances ?
Whatever hopes members of the so called American party may entertain of succees within their respective States, it is evident from the events of the past two months that as a Nation-al Organization it has censed to exist. A Na-tional Convention would be a pitched battle, and a National platform or ticket an impossibility. Some intriguing Know Nothing writes ting his name, in the usual skulking K. In his engenness to entrap us, however, he forgot to cover up his tracks; for, while claiming to be a straight-out Whig, he closes his waddling communication by saying that the Know Nothings, "appear to be the only party that holds to any principles at all acceptable to those who would expect to administer a whole-
