# PITTSBURGH:

TUESDAY MORNING, AUGUST 28, 1855.

MEETING OF CITY COUNCILS.—The Councils met last night.

In the Select Councils, Wm. F. Murdoch's term as Trustee of the Gas Works having expired, Mr. Murdoch was re-elected for the ensuing term of three years—Mr. Murdoch receiving seven votes and R. P. Smith three votes.

A communication was read from Mr. Taggart, Clerk of the Market, requesting councils to take no action in regard to the suit between him and Mr. Cordell. Was read and ordered to be filed. In C. C. referred to Market Committee.

The Market Committee reported with regard to the matter, stating that they had ordered the City Solicitor to discontinue the suit of Taggart vs. Cordell which was done; that Mr. Taggart had again entered suit before Alderman Wilson, which, although he had been notified so to do, the said Alderman refused to discontinue. The Committee presented an ordinance that no person except the City Solicitor or Mayor shall enter any suit in the name of the city, under a penalty of $10; and (Sec. Two) that the clerk "A GOOD THING."—The *Journal* of yesterday says:—"Whilst they have resolved that they hold Know Nothings in contempt and abhorrence," it is ascertained that they have actually *four* Americans, or Know Nothings on their ticket! This we take to be a good thing."

We are at fault to imagine what the *Journal* means by a "good thing." If it be true that there are four Know Nothings on that ticket, that "good thing" in our way of thinking resolves itself in a despicable piece of political dishonesty. We believe that the laws of honor and decency ought to hold in politics as in the every-day relations of society. If a man is a Know Nothing, he is a Know Nothing—a member of the American party—and it is contrary to common sense and the nature of things that he can be a Democrat at the same time, and if he endeavors to obtain a nomination from another party, and, having succeeded, allows his name to go before the people as a member of that party, he being all the while a Know Nothing, we consider him politically dishonest, a hypocrite and a cheat.

THE POET AND THE KNOW NOTHINGS.—The *Post* of yesterday publishes the following letter:

PITTSBURGH, August 24th, 1855.

GEORGE F. GILLMORE, Esq., Editor Morning Post:

*Sir*:—I have just been informed that John M'Elwaine, the present Street Commissioner, has reported that he met you in a secret council of what is commonly called Know Nothings. If such is the fact, it is proper that you, professing to edit a Democratic paper, should be made known to the party. If this is not the fact, it is but just that you should have an opportunity to contradict so slanderous a report.

I am yours, respectfully,

CHARLES BARNETT.

The *Post* remarks upon the letter as follows:

"If Mr. M'Elwaine does not come forward and contradict it, it will be taken for granted that he is the man that has circulated the report, and we will bring him to a keen account for the lie."

"He must deny it speedily and unequivocally, or we will find a way to punish him and those who have employed him to do it."

THE TARENTUM CAMP MEETING.—We visited the Camp Meeting at Tarentum, on Sunday last —going up on the Allegheny Valley Railroad Hotel, Tarentum, and reaching the camp ground some two miles from the village, about one o'clock. There were probably about six thousand people in attendance. The camp contains about seventy-five tents, the largest on the ground being that of Sheriff Magill. Sermons during the day by Rev. Mr. Pig'ins, Rev. Messrs. Pershing, Davidson and De Haas. Some fifteen or twenty clergymen are in attendance, and quite a large number of accessions to the church has resulted from their labors. The meeting will be continued until Friday next.

We understand the proposal of Judge Brackenridge to dispose of ten acres of land lying about the present grounds, for $500, has been accepted, and the sale was probably consummated yesterday. It is to be bought by a joint stock company, composed of members of the M. E. church. The camp is beautifully situated, and our visit was a delightful one.

HORSE STEALING.—A man named McKain, who worked for Mr. Johnson, storekeeper at North Star, near Candor, Washington county, left that place some two weeks ago, stating to Mr. Johnston that he would be back in a few days with a horse which he intended to purchase for his father. He left and soon after hired out to Arthur Loraine, residing in Robinson township, to work in the harvest field. He remained there until Saturday, the 18th inst., when he left. He returned on the following Sunday, and slept all night in the barn. On Monday, he stole a valuable horse from the barn. Mr. Loraine followed him, and traced him to Mr. Johnston's, to whom he sold the horse and left for Steubenville. Mr. Johnston pursued after the horse and followed him. At Steubenville he lost all traces of him. He telegraphed in every direction, and the thief will probably be apprehended.

THE PERRY HOTEL AFFAIR.—We gave the particulars yesterday of the cutting scrape between two waiters, McKinney and Grady, in the Perry Hotel. On Sunday McKinney's deposition was taken, at his house in Lawrenceville, he being confined to his bed from the effects of the wounds, and Graham was arrested in the evening by officers Ray and Trovillo at a house on Hawk street, where he was very badly cut. He was placed in the tombs and yesterday brought before Mayor Vols, and committed to jail to await trial on a charge of assault and battery with intent to kill.

SEWICKLEY BOROUGH.—At a meeting of the Republicans of the Borough of Sewickley, on Saturday evening, the 25th inst., the meeting was organized by electing Jesse R. Shanklin President, and John McGlaughlin, Secretary. D. N. White and J. W. F. White were appointed delegates to the County Convention and were instructed to present the name of Theodore H. Nevin to the Convention as a suitable candidate for the office of Prothonotary.

R. R. SHANKLAND, Pres't.
JOHN MCGLAUGHLIN, Sec'y.

SERIOUS ACCIDENT.—On Sunday afternoon, as Mr. William Blakely was returning from camp meeting in a buggy, he gave the horse into the hands of a lady who was in company with him at the time. The horse took fright and ran away, dashing the buggy to pieces, and injuring Mr. Blakely so severely, that but little hopes are entertained of his recovery. He is now at the house of his mother, in the Fourth Ward, Allegheny. The lady escaped with but slight injury.

CHALLENGE.—The Allegheny *Bulletin* of last evening contains a challenge, signed "Allegheny City," and addressed to Messrs. Fulton, Bausman, Patterson, Smith and Rogers, the Democratic candidates for Assembly, inviting them to meet an equal number of American speakers, or individually a single speaker, to discuss the principles at issue between the two parties.

DIVORCE CASE.—Andrew Little made application in the District Court yesterday for a divorce from his wife, Mary Matilda Little, *nee* Dill. He deposes that he was married to her in September 1849, and that they lived together until February 10th 1850, when she left his "bed and board" without just provocation.

DEATH FROM CHOLERA.—Patrick Keese, an Irish laborer, residing in Splane's court nearly opposite the *Gazette* Office, Fifth street, was attacked with cholera on Sunday night and died in about four hours. He had been suffering with a violent diarrhoea for several days. He was buried yesterday afternoon.

We mentioned yesterday a case where a lady had accidently swallowed a cent. We are informed that it was extracted from her stomach on Saturday by Dr. Williams.

TEN tools stolen from Floyd's carpenters' shop at Oakland a few nights since, were marked "A Floyd and J. Chambers." This may lead to their recovery.

A MAN named Michael Connelly was committed to jail yesterday, by Alderman McKenna, charged "with being destitute of protection." Poor fellow!

## TELEGRAPHIC.

BALTIMORE, August 27.—At Norfolk the fever is represented as unabated in its ravages.

President Pierce had a public reception at *White Sulpher Springs*, during which he made a speech in which he complimented ex-President Fillmore on the purity of his administration, and for the high purposes which he so bravely conceived and executed. He denounced Know-Nothingism indirectly as an indirect antagonist to the doctrines and principles of the Constitution; he hoped none of the modern 'isms, so potent for evil and powerless for good, had representatives present; and he urged his hearers to avoid the heresies which are in direct antagonism with the doctrines and principles of the Constitution.

We have no mail south of Washington this morning.

### MONETARY AND COMMERCIAL.

The commercial editor of the New York Journal of Commerce, notices a greatly increased activity in the money market of that city. From the applications for letters of credit, and the arrangements making for use of capital, it is easy to see that a very large foreign business is anticipated. It is said that the importations for the first half of 1855 will be far ahead of the receipts for the last six months of the current year. The banks have their lines full, but their deposits are increasing and after the 1st of September will be augment very rapidly, so that they will have very large sums at command. The present week will be a busy one in commercial circles, and the returns received to-morrow morning will create an increased demand from various quarters.

The money market is scarcely so easy as it has been for several weeks past. While there is no change in the rates which remain at 5@7 ₱ cent on call and for first class paper, the demand is larger both at the banks and in outside circles. It is generally understood that the bank reports made up for the week closing to-day will show a still further diminution in the specie average. The reports of the week having amounted to more than a million and a-half, while the only offset was an augmentation of about eight hundred thousand dollars in the specie. The receipts of to-day from California have arrived too late to have any effect toward balancing this drain.

By the U. S. Mail steamship George Law, from Aspinwall, arrived this morning, we have received a California remittance of nearly one and a half millions, which will be followed by another of a million more in the Nicaragua steamer, which must be now nearly at hand.

IRON—Improved extreme quote bars at 5½ to 6d. Stafford-shire £7 15s. These quotations are consequence of a reduction of stock to within moderate limits. The result with the active shippings of considerable works, affords an earnest of healthy trade for this year. There has been a large increase in exports of iron, and the present activity for special manufactures, the mills are generally engaged on contracts for two or three months in advance of their order files. All the manufacturers are moderately supplied of a good advance by the next quarterly meetings.

The Glasgow pig iron market remains as last reported.—Shipments are not in excess of the mean, but the improving tone of the bar and rail market will tend to keep the Scotch pig near or about the present rates. American mills are fully employed at good prices, firm, with a tendency upwards. The western mills are working on orders at moderate rates, and might reasonably advance their terms. Swedes and Russians have declined somewhat, particularly Nos. 1 and 2. There are furnaces whose make for two or three months is engaged. Some few furnaces still remain to be put in blast. The demand for railway castings, heavy forgings and machinery, and castings for the usual fall trade, together with the consumption of fully employed mills, promises to restore stocks to a moderate supply at an early day. The Welsh trade is generally good, and with an abundant harvest, must afford a reliable condition of affairs for American iron masters.

Transactions in pig iron have been numerous, and a few heavy sales over-night.—In the aggregate 6800 tons. No. 1 of Scotch most highly esteemed, sold at 52s, and small lots 52s and 52s. A few large sales of ordinary No. 1 sold at 51s 6d; 51s 3d is the ruling rate. Fine No. 3 sold at 52s to 52s 3d as per brand. Lots delivered on the Summerlee wharf sold at 52s 6d to 53s. Cleveland pig in good demand; sales of 250 tons, 57s to 57s. American Sheet is steadily upward. The rolling process at the Bellows, varied according to brand and other circumstances, is as follows: Pigs, £25 to 25s 7½s per 22 to 24; Oak sheet from £30 to 35; for Japanning, £30 to 32; for Roofing or Corrugating, £30 to 32; Hoops £10 to 7½; Cinder do £40 to 50; Merchant Bars regularly £7 0 to 10; common do £6 5s; Shafting and Axle bars £30 to 35; Railway bars £6 5; Railway chairs, castings £4 5 to £5; Anvils, wrought, 6½c; castings, 4½c; Chain cables and Gas and Water Pipe cast £40 to 50; Boiler Plate, first quality, 6c; do second quality 5½c. American Sheet at $120.
—Sheffield, North American.

WOOL—The market has been more active during the past week, the demand, being principally for common and medium grades, which are in fair request. The receipts for the week reach about 180,000 lbs at full rates, among the sales are 40,000 lbs Saxony at 50@52c, 30,000 lbs Merino at 50@55c, all on the usual credit.—Phila. North American.

BEEF MEAT.—There has been an active inquiry this week for Beef Meat, but the offerings have been light, and the operations are consequently limited. The sales reported are 10,000 pounds Illinois prime mess, on private terms; 6 bbls Shoulders at 8 cts; 50,000 lbs Beef Hams at 9½ cts, and 10,000 lbs do yesterday 50,000 lbs do were sold at four cents. This leaves being an advance of 1 cent ₱ lb from the rates ruling last week. We quote to-day Pork Shoulders at 9@9¾ cts do Hams at 10½ cts and do Hams at 10½@11 cts.

BACON—The operations in Bacon this week have been very heavy, the sales reaching about 1,200 hhds. The market has been very buoyant, and since the opening of the week prices have advanced fully one cent ₱ lb. The following are the sales of Bacon at Boyd's Block: 40 hhds Shoulders at 10½@10¾ cts 70 hhds do at 10¾ cts 100 hhds Sides at 11¼ cts 150 hhds do at 11½ cts 50 hhds Sides at 11¾ cts 150 hhds do at 11¾ cts 50 hhds do at 11¾ cts 100 hhds do at 11¾@11¾ cts 220 tierces Hams at 11 cts 80 barrels do, private terms, 200 pieces Hams at 12¼ cts 2,000 pieces Hams at 12½ cts; with considerable dwelling house, barn, stable, stone milk house, smoke house and other improvements thereon erected.
