Brays Agricultural College.—We learn that the trustees of the State Society met on Kednesday in Harristourgh, and selected the farm of Gen. James Irvin, in Contre county, as the site for the State Farm School, The farm was donated to the Society, and a bonus of \$10,000 two of offered by the citizens of Centre-county, if the Society would except this site. As this was thought to be the most librard offer made, it was taken. We should have been much gratified had the offer to locate the school in this county been accepted; but are reloiced that a decision has been made in the matter, and that the State Agricultural School is, to become a reality.—The position chosen is a central one, albeit a little off of the line of travel; and it is one of the most beautiful sites in Pennsylvania. Those only who have had their eyes gladdened with a sight of the picture-que valleys of Central Pennsylvania can fully appreciate the charm which hangs over them. We know of no better field for the through study of nature than is here afforded; and the agricultural student cannot full to find in the spot selected all that is desirable either to delight the eye or occupy the mind.

Arrangements are on foot, we understand, for the greetion of the precessary buildings; erection of the necessary buildings; and in a short time this valuable enterprise wil

find a fitting commencement. MAYER ELECTION. It seems now tolerably certain that Mr. Morrill, the Maine Law Candidate for Governor, will not have a majority of all the votes cast, although he leads the poll;

Onio Hoq Caar.—The Cincinnati Price Correst syntains returns from fifty-two counties in Obio, as derived from the State Auditor's office, of the number of cattle and hogs in those counties, as compared with last year. The number of hogs over aix mouths old, is 1822,651 addingt 1,728,729 last year; and 1,028,463 cattle against 1,028,140 last year. But little reliance is to be placed on those returns. Last year the table showed a large increase of hogs over the previous year, and yet, when the slaughtering season commenced, it was found that the crop was actually short.

And to Norwelk.—Our citizens were appealed to, this week, to contribute to the relief of the sufferers by postilence in Norfolk and Portsminth. During the three days ending last overing. \$2000 had been raised and forwarded. The committee will forwarded them by those who have not yet contributed.

The friends of Reed, the Whig Candidate, units I generally with the Anti-Maine-Law democrats in choice of Senators and Representatives, which accounts for the complexion given to the legislature.
