Standing Matter on each page of this paper.

PENNSYLVANIA.—The name of Passmore Williamson, as Republican candidate for Canal Commissioner, is hoisted by the Pittsburgh Gazette, Beaver Argus, Montrose Independent Republican, and some other papers, but it is quite evident from the manner in which the nomination has been received all over the State, that it is a failure. The nomination of Mr. Henderson, the Whig candidate, appears to be equally unfortunate. If both these candidates are run, a fear is entertained that Mr. Plumer, the Democratic candidate, will be elected, notwithstanding the prevalent feeling of repugnance to anything like sustaining the National Administration. Several papers have urged the American party to adopt the Whig candidate, Mr. Henderson, as their own. This would be a wise and judicious movement, and would result in his election, but we fear the suggestion comes too late to be heeded generally. In the western part of the State many of the American, Councils have already voted. If a different candidate should be nominated, it will be very likely to result in the election of Mr. Plumer, unless, indeed, the people should choose to concentrate their votes on the American candidate, as the opponent of the Administration and its Kansas policy.—*Phil. N. Amer.*

There are some *twenty papers* in this State which support Passmore Williamson for Canal Commissioner, instead of two or three, as indicated by the *North American*. For the edification of the doubtful we subjoin the list:

Argus, Beaver, Beaver county;
Record, New Brighton, Beaver county;
Freeman, Newcastle, Lawrence county;
Whig, Mercer, Mercer county.
Mirror, Prospect, Butler county;
Courier, Connellsville, Crawford county;
Banner, " " "
Journal, Meadville, " "
True American, Erie, Erie county;
Journal, Coudersport, Potter county;
Agitator, Wellsboro, Tioga county;
Argus, Towanda, Bradford county;
Reporter, " " "
Republican, Montrose, Susquehanna county;
Apalachian, Blairsville, Indiana county;
Independent, Indiana, Indiana Co.
Express, Lancaster, Lancaster county;
Olive Branch, Norristown, Montgomery co.
Chronicle, Lewisburgh, Snyder county;
Gazette, Pittsburgh, Allegheny county.

Besides these, the Register, Indiana county, Sun, Philadelphia, Advertiser, Delaware county, and one or two other papers in the State, are not unfriendly to Mr. W., but rather inclined to support him; and it is safe to say that he has the active sympathy of at least twenty-four papers. Those that support Mr. Henderson will not exceed six or seven in number.

One or two "American" papers have suggested a union of the Know Nothings and Whigs upon Mr. Henderson; but the Philadelphia [illegible] upon another nomuss that they

"We learn that Peter Martin, Esq., of Lancaster county, has received the American nomination for Canal Commissioner. This is an excellent selection. Mr. Martin is a man of fine abilities, of eminently practical business talents, and will be a valuable acquisition to the Canal Board. He is a practical farmer, of sterling interests, and will command the hearty support of all true Americans."

The *Press* follows this up by putting Peter's name at the head of its columns, and we are therefore to understand that the party intends to sink or swim with him.

This Peter Martin has been, until recently, an old-line democrat, and all his antecedents have been of the most decided pro-slavery character. At the Williamsport Democratic Convention a few years ago, when the friends of Simon Cameron were detected in trying to bribe delegates to support Hubley, the candidate of Cameron for Canal Commissioner, the exposure compelled them to abandon Hubley, *and they then concentrated their strength upon this same* PETER MARTIN. They failed to nominate him, but the fact goes to show conclusively that he was then a leader and a prominent man in the corrupt Cameron faction of the locofoco party. Such he has remained ever since; until, despairing of success in his old party, he followed his old leader into the Know Nothing ranks, and now turns up in the very position which Cameron sought to purchase for him in the locofoco party. He is the Cameron candidate for Canal Commissioner; and we have been promised such a development of his pro-slavery antecedents as will utterly preclude the possibility of that union upon him by the opponents of the administration which the *North American* suggests.

VOTING BY PROXY.—It is acknowledged, we believe, that there were less than 100 persons in attendance upon the K. N. council in Snowden township, last Saturday; and the fact that 214 votes were returned to the executive Committee is explained by the plea that the rest *voted by proxy*. What voting by proxy is our readers know well enough; but we fancy that this is the first time voting was ever done in that way at a political primary meeting. It is a mighty convenient thing, we should think, for candidates; for as there is no limit to the proxies, they can be voted for in the name of any one, friend or foe; and as many votes can be polled in this way as the candidates may need. The success of it, however, depends upon its being confined to a few districts; if all the candidates did it, none would have any advantage over the others.

In one (if not more) of the wards of the City, we are told, voting by proxy was carried on, it being alleged that the absent voters could not be present in person.

The Native American Convention, yesterday, as was all along anticipated, adopted the whole Know Nothing ticket. It was taken possession of by the Know Nothing managers of this county, and it was a little edifying to see men who are the leaders in another organization stepping in as delegates to this Convention, and coolly assuming a work in which they had no legitimate part.

From the fact that the whole K. N. ticket was taken, just as it stands as completed by the acknowledged frauds committed in its behalf, we infer that there is no intention to set those frauds aside, or alter the ticket in the least particular. The executive committee will examine into the matter, pronounce it all right, and so hoodwink the faithful. Indeed, we were told yesterday that "it was all right," having been duly investigated and found to be no fraud at all. Of course.

MORE OF IT.—We have chronicled the approaching union of the Know Nothings and pro-slavery democrats of New York upon one ticket. We have now to add that a similar union has been concluded in Wisconsin. Gov. Barstow, the Pierce and Nebraska candidate, was nominated in the democratic Convention for re-election though the agency of Know Nothing delegates, and will be supported by the secret organization. So it goes. Like will cleave unto like. Birds of a feather flock together.

PROTESTANT ENDEAVORS.—The Philadelphia *North American* notices the receipt of a private letter from an intelligent source in the North of Ireland, which conveys information that the prevalence of the Know Nothing excitement has done more to check the Irish exodus to America than anything which has happened for years. It is remembered that the north of Ireland is the Protestant part of that island; and that the most desirable class of emigrants has hitherto been drawn from that quarter. It will be found that this country, and especially the North, is the loser rather than the gainer by the fanaticism prevalent against foreigners.

The Philadelphia *Sun*, we are pleased to see, is very favorably inclined to the support of Passmore Williamson. After recapitulating the facts in the case, and the method by which his escape from imprisonment has been blocked up, it says:

Where is the remedy? The Courts have decided that the case can go no further before a judicial tribunal. *It must then go to the original source of all power—the People*, and they should dispose of it in a manner which will teach Judge Kane and all other recreant Judges that the rights of the citizens of Pennsylvania are not to be trifled with, or violated with impunity.

There are, as our readers know, two Orders among the Know Nothings, the Celestials and the Shanghais. Many of each belong to the other, but there are some who belong to but one of the two. We learn, upon inquiry, that on the ticket just nominated there is not one pure, unadulterated Shanghai. They are all Celestials. The latter treated the former as the city did the country—left them off the ticket altogether.

EX-GOV. PRATT, one of the United States Senators from Maryland, publishes a letter in the Annapolis *Republican* of Saturday, in favor of the formation of a new party "having for its platform the Constitution of the United States, around whose banner citizens of all parties—of all sections of the Union, may rally, without the sacrifice of self-respect, pride or feeling."

OUR BOOK TABLE.

The Poetry and Mystery of Dreams. By Chas. G. Leland. Philadelphia: published by E. H. Butler & Co.

Here is a quaint work, embodying all that is good and pretty in olden and modern literature, concerning Dreams, and the field from which these beautiful fragments have been gleaned is so extensive, that when gathered together they swell out into the proportions of a handsome volume. We need hardly say that the selections are choice and entertaining; and that the work is worthy of any man's library.

Geographie Elementaire: a l'usage des ecoles et des familles. Illustree par cartes et gravures, Par Peter Parley.

Histoire des Etats Unis D'Amerique, avec notices des autres parties du nouveau monde. Par Samuel G. Goodrich. Philadelphia: edito par E. H. Butler et Co.

These are French works, for schools and families. We cannot understand them, but we doubt not, from the name of the author, that they are well adapted to their purpose; and that they will be found extremely serviceable in schools and families where French is a branch of education.

The above works are for sale by J. R. Weldin, Wood street.

The Fear of God Woman's True Praise. A sermon on Proverbs 31:30. By Joseph Smith, D. D. of Roundhill Congregation.

This is a very able discourse, to which Biographical notices of Rev. Adley Calhoun, Rev. A. A. Fergus, Rev. Dr. John Black, Rev. Dr. Wylie, Rev. R. Johnston and Rev. Dr. Wilson are added. A limited number of copies may be had of the publisher, J. T. Shryock, 84 Fifth street, Pittsburgh. Price 15 cents.

At the session of the Pittsburgh Annual Conference of the Methodist Protestant Church, which has just closed in Bridgeport Pa. the following resolutions on the subject of slavery were adopted, as expressive of its views on that question. The resolutions were framed by the venerated A. Shinn, and passed some years ago by the Conference and were re-adopted at its late session as follows:

Resolved, That in the judgment of the Pittsburgh Annual Conference of the Methodist Protestant Church, the practice of buying, or selling men, women, or children, or holding them in slavery, with the intention of perpetuating their servitude, is inconsistent with the morality of the Holy Scriptures.

Resolved, That as stated in our Ministers, tary principles of the church to maintain godliness and oppose all moral evil" (by moral suasion) They ought to do it by official and social action, as well as by individual action, and when an organized body in our church has no other authority to act in the case except by way of testimony and remonstrance, it is obligatory on it to oppose the evil by such testimony and remonstrance, whenever this course may promise to be effective against the evil, pursuant to the principal just specified.

Resolved, That as slaveholding and slave-trading, are inconsistent with the morality of the Holy Scriptures, our members who are guilty of these, render themselves liable to church trial by a judicial committee, without any special act of church legislation, seeing our constitution makes all immorality a ground of judicial action and recognises the Holy Scriptures as the sufficient directory of such action.

Resolved, That this Conference affectionately advises all the Ministers and members of the church, while they enjoy and maintain the liberty of men and christians, to be careful not to oppose slavery *or any other evil* in a way of indiscreet or fiery zeal, but ever to keep in mind that evil is to be overcome with *good*.

The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cure *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth
One to three bottles will entirely cure the worst kind of pimples of the face.
Two to three bottles will cure the worst case of blotches on the skin.
Two bottles are warranted to cure the worst canker in the mouth and stomach.
Three to five bottles are warranted to cure the worst case of erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure scrofula and running ulcers.
One bottle will cure scaly eruption of the skin.
Two to three bottles are warranted to cure the most desperate cases of rheumatism.
Two to three bottles are warranted to cure the worst case of ringworm.
Three to four bottles are warranted to cure salt rheum
Five to eight bottles will cure the worst case of scrofula
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improvable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pasture, and along old stone walls, should cure every humor in the system; yet there are no two ways about it, brims are about 12 inches some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in every case. It has already done some of the greatest cures ever known in Massachusetts. I gave it to children a year old to old people of sixty. I have given it to my own cooking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

Those who are subject to a sick headache, one bottle will always cure it. It has never failed to astonish my visitors. Some who have been costive for years, have been regulated by it. Where the body is scrawny, it will work gentle easy, but where there is any derangement of the functions of nature, it will astonish every beholder by its workings, but you must not be alarmed—they always sleep near in from four days to a week. There is never a bad result from it. On the contrary, when that feeling is gone you will feel yourself like a new person. It is one of the most extravagant concoctions of it that man ever listened to. No change of diet is ever necessary—eat the best you can get. I have likewise an herb, which, when steamed in sweet oil, disease convulsions produces of the neck and under the ears. Price 50 cents. Price of the Medical Discovery $1 per bottle.

DIRECTIONS FOR USE.—Adult, one tablespoonful per day. Children over eight years, one spoonful to a dose. From five to eight years, teaspoonful. A no direction can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

DR. KENNEDY gives personal attendance in the cases of scrofula.

Sold by wholesale and retail, at Dr. KENNEDY'S, 140 Wood street, corner of Virgin alley.

Liver Disease.—Carter's Spanish Mixture as a remedy for liver disease, and the number of formidable evils connected with a disorganized state of that organ, is unrivalled.

Hundreds of certificates, from the highest sources of p ersons living in the city of Richmond, Va., might be given of cures effected by Carter's Spanish Mixture. We have only room to refer to the extraordinary cure of Samuel M Tatham, Esq., of the firm of Messrs. Ayrette, Tatham, Richmond, Va., who was cured by two bottles of Carter's Spanish Mixture, after three years suffering from disease of liver. He says its action on the blood is wonderful, rather than the medicine he had ever taken, and cheerfully recommends it to all. See advertisement.

Reputation in New England.

BRISTOL, N. H., June 9th, 1855.

To S. A. Fahnestock & Co.—

GENTLEMEN—For the past 7 years, I have used R. A Fahnestock's Vermifuge for an anthelmintic in my practice; my attention was first called to it in a case where I had failed to dislodge worms with calomel, pink and cowhage. It acted promptly, and left the bowels in a healthy state; since then I have prescribed it for hundreds of patients, and in a large majority of cases with complete success. In one case a single bottle of the medicine brought away from one patient, a child of seven years of age, what appeared, which never fails to accompany a discharge of this kind, worms, snakes, piles, leeches, fretillares, a billion of mongrels, a morbid secretion, a mucous membrane, an indescribable, wretchedness of existence, are the immediate results and the child attends so to do, as to be ready for school, before the child is off the school benches, have my physicians in this section, and furnish them with the article.

Derangement of the Liver is one of the most common, as well as the most formidable of diseases known to American physicians. It had for years attracted the closest attention of the medical faculty in all parts of the United States, and yet up to the time of the discovery of Dr. M'Lane's great specific, it was almost beyond the reach of hope of relief, and although thousands may yet be destined to feel the direful effects of this most complicated disease, it is now, thanks to the research of Dr M'Lane, most completely brought within the scope of medical control. The proprietors of the Liver Pills feel confident that they offer a remedy which has been fully tested by time, and which has never failed of success when fairly tested.

DR. HOOFLAND'S GERMAN BITTERS.—This celebrated medicine, prepared by Dr. C. M. Jackson, at the Philadelphia German Medicine Store, No. 120 Arch street, is entitled to the confidence of the afflicted. Dr. Jackson, the proprietor, who is a scientific physician, is selling immense quantities of it. The virtues of this remedy are so fully set forth in the printed notices to be seen in the daily and weekly columns, that there is hardly any room left for us to speak of it. This much we may add—If the long trials of Dr. Hoofland's remedy in unhealthy climates, and in the most opposite parts of the world, and under the most opposite appearance, which never fails to accompany a discovery worthy of its name, the nervous, pious, languor, fretfulness, a billious complaint, a morbid secretion, a mucous membrane, an indescribable, wretchedness of existence, are the immediate results and the child attends so to do, as to be ready for school, before the child is off the school benches, have my physicians in this section, and furnish them with the article.
