POLITICS REFORMED.

The great plea upon which Know Nothingism was urged, in its first stager, was, that the other parties had grown incurably corrupt; that they were driven over to the control of demagogues and tricksters; that their machinery was a system of fraud upon the people; and that it was time to inaugurate a new and pure party, free from dishonest control, and which should be emphatically a party of the people. Old office-hunters and wire-workers were to be discarded; and the country was to fall into the hands of new men, fresh from the ranks of the honest masses.

Many of our readers have heard this syren song, and some of them have been seduced by it.

How has the promise so eagerly made been fulfilled? Is the Know Nothing party any purer, to-day, than the parties whom it sought to destroy? *They* were parties with the frost of years upon their heads; *it* is scarcely yet out of its swaddling clothes. Yet, is it not, in its adolescence, as utterly corrupt as they were alleged to be?

Look at the party in this county. From the very hour of its inception it was the refuge of all the disappointed office-hunters and soured demagogues of the old parties. The men who gave it its first impetus here were those who communicated to those old parties the taint of corruption. Cast-off politicians, disappointed leaders, defeated candidates—these were the nucleus around which the organization gathered. And they have controlled it ever since. Those who left the Whig and Democratic parties to find escape from the domination of worn-out political hacks, found themselves confronted in their new quarters by the very men from whom they were flying; and the leading spirits in the late campaign for the nominations of the Order were men who had cursed and broken down their former political associations.

A glance at the ticket nominated is sufficient evidence of this fact. It is an array of disappointed politicians and thwarted office-hunters. Where the carcass is there will the eagles be gathered together.

Last year, as we are credibly informed, no regard was shown to the vote of the Order in the selection of a ticket. The votes of the two branches of the Order were returned to the Executive Committee, and on adding them up it was found that, arrange them as they would, the ticket would not come out right. If the vote of the two Orders were thrown into a lump, and the highest taken, all the nominees would be of one party; if the highest in each Order were taken, they would all be in the city: so the Executive Committee took the responsibility of throwing the vote aside altogether, and making a ticket to suit itself. That was a good beginning for a new party—an *honest* beginning, was it not?

This year, that game could not be repeated. The candidates were too wide awake. So every thing was made to depend on who could get the highest vote. If there were ten candidates for one office, so much the better for the man who could roll up one-fifth of the aggregate for himself.—Accordingly, every candidate went to work to get a big vote, either at home or among his special friends; and the first thing we hear, is, that great frauds have been practised. One township, in which there were last year but 168 votes, of which the Order had but 120, returns a tally of 214 votes to the Executive Committee, and this immense vote settles the destiny of half a dozen candidates upon the ticket. One gets on by the meagre majority of 7; another by 24; and so on. If the fraud had been set aside it would have unsettled half of the ticket. Nobody conversant with the facts doubts that it *was* a fraud; but the credulous are to be put off with an assurance the it was all correct. The ticket, as it stands, is the result of a successful political trick.

It is not pretended, we believe, that there are 214 voters belonging to the Know Nothing Order in Snowden township, where this fraud was committed. There were but 85 men in attendance at the primary meeting; and the other 129 votes were manufactured upon the spot, to forward the chances of two or three candidates.

At the October election in 1852 the vote in Snowden township was [illegible] at the Presidential election following, when the highest vote was given that was ever polled in the county, it was only 168; in 1853 it was only 113; and last year, when the Know Nothings strained every point, it was but 188, and this is doubtless as many voters as the township contains. There are, out of this total, at least thirty who are of foreign birth; and we have been furnished with the authority for saying that there are thirty others in the township, once members of the Order but now opposed to it, who neither voted at the council meeting held on the 15th, nor authorized any one to vote for them by proxy.—Here, then, are sixty out of the 188 who could not, by any possibility, have been honestly represented at that meeting; leaving 128 as the utmost vote that could fairly be polled, even *with* proxies; and yet the vote returned was 214!

So shameless a fraud was never before perpetrated in the county.

In addition to this there were councils in the city which allowed the corrupt practice of voting by proxy; in others, minors and outsiders were brought in to swell the total of the city candidates, and defeat those from the country. It was a "wild hunt after office," in which the hunters justified the means by the end, and stopped at no trick needed for their success.

Now, here we have, trickery unparalleled by anything in the history of the old parties. No such rascally invention as voting by *proxy* in political meetings was ever attempted before; and a ticket framed in its essential parts though the success of such frauds is a thing entirely new.

We ask the people of Allegheny county, then, what have you gained by the change? Look at the matter in all its bearings, and ask yourselves what good has been accomplished by going into this new organization. Has politics been reformed? Not one whit. Have you got rid of the old, hungry gang of office-seekers? Let the ticket answer. Have you got an organization in which the voice of the people is omnipotent? Then why are those who had a fair majority of the legal votes cast in the Order thrust off the ticket to make way for those who have worked the wires better?

No, no, this thing of Know Nothingism, judged by its early promises, is a failure. Those who bounced from the frying pan have fallen into the fire. As a political party, it is more corrupt, and has more facilities for corruption, than any of its predecessors. Let honest men flee from it, with all the haste that aided Lot from Sodom, if they would not be included in the catastrophe of its speedy destruction.

SCREWS LOOSE!

Nine men who were members of the Lodge of Know Nothings which meets at East Liberty have abandoned their connexion therewith. Seven of them declare their preference for the Republican ticket and two for the Democratic. Particulars will be published hereafter.

XENOPHON.

THE RETURN OF BUCHANAN.—The New Orleans *Bulletin* gives the outlines of cer tain movements upon the political chess board, which plainly indicate that a game is to be played, which at this early stage is calculated to elicit the interest of all and sorely to puzzle the sagacity of the shrewdish by-standers. The game is in the hands of a few experienced and astute politicians, and a desperate struggle will be made to obtain the victory.

We have heard from a very creditable source, says the *Bulletin*, that certain demonstrations have already been made, which show that ground will soon be broken to bring forth at least two Democratic candidates, for the Presidency, to be submitted to the National Convention, to be held at Cincinnati in the early part of next year. It is somewhat singular that two prominent Louisianians, should be actively engaged taking the initiative in these preliminaries, and stranger yet, that each of them are working for different individuals. An ex-Member of Congress, from a rural district in Louisiana, is using all his exertions and influence in behalf of Mr. Dallas, of Philadelphia, and Jefferson Davis, of Misaisssippi; and at the proper time an open demonstration will be made in favor of this ticket.

Per contra. Mr. Buchanan, our Minister at London, will be soon coming home chock full of hope and expectation. Instead of embarking direct for New York or Boston, he will do so direct for Cuba, under the plea of ill health, or something of the kind. From thence he will proceed to New Orleans, when, under the supervision of an adroit master of ceremonies he will be put through, rocelved with a grand flourish of trumpets, publicly feasted and sent on his way home rejoicing through the great West, on a triumphal tour, visiting the several States on the Ohio, and landing at Pittsburgh. This is the present programme, but it may be changed or modified in accordance with circumstances. Buchanan is a strong man, and not a bit more of an old fogy than Dallas. Buchanan's Lieutenant would be his old and tried friend, Senator Slidell. The waters are beginning to move, and we shall soon witness a palpable sensation. Dallas and Davis, or Buchanan and Slidell, is pretty much determined upon as the ticket to harmonize the Northern and Southern Democracy.

The K. N. Executive Committee met on Saturday and decided that the Snowden township fraud was all right, just as every body expected it would. It had no alternative but this or a revision of the ticket; and the latter it was afraid to undertake.

Snowden township returned 214 votes to the general poll on the 17th. The total vote of this township in 1852, 1853, and 1854, was as follows:

1852.		1853.		1854.	
Scott,	115	Whig,	74	Whig,	29
Pierce,	42	Dem.	37	K. N.	127
Hale,	11	Free Soil,	2	Dem.	32
	168		114		188

There are not, therefore, it will be seen, 214 voters in the township; and the vote of last year may properly be taken as a full poll of the township, being 20 larger than was called out in the exciting contest of 1852, when the largest vote ever given in the county was cast. Of these 188 voters, at least 80 are of foreign birth; and there are 80 more who have no sympathy with the Order. It was, hence, morally impossible to poll anything like 214 votes honestly, especially when there were but 85 voters on the ground.

These 214 votes, of which 129 were fraudulent, decided the fate of several candidates on the ticket. Had none but the honest vote of the council been returned, the ticket would have had an entirely different cast. It may therefore properly be characterised as a ticket nominated by fraud, and there is no obligation of binding force to support it.

THE HARPERS AND THE BOOK PUBLISHERS' ASSOCIATION.—The Harpers have refused to join the Booksellers' Association in New York. The object of the association is to regulate the publishing business generally. The Harpers presume to work on their own regulations, and contributed largely the trade sale of books last week, and sold at very low prices, instead of reserving them for the association sales this week. The New York *Express* has an article on the subject, supposed to contain the views of the association, in which it is said that the course pursued by the Harpers "will drive the great body of the publishers into an organized opposition against a common enemy;" and that "the frequent injury sustained by publishers from the actions of this domineering house, through their reprints, has pretty generally forced the majority of them to recognize the expediency of *destroying the monopoly altogether, on which that establishment is based*, by either legal or associated measures for its regulation. Thus in seeking to grab all, they may lose all." The Publishers' Association may find, however, that they have undertaken too much. Combinations to regulate and control a special branch of trade, and to crush those who oppose them, have never yet prospered, and we do not think they should.

SENATOR BERRIEN A KNOW NOTHING.—Ex-Senator Berrien, of Georgia, as is known, became so much excited on the subject of Slavery while the admission of California was pending, that he lost both his temper and his senses. After threatening all sorts of disunion, he had leave to retire to private life, from which, however, he proposes to emerge, if Know Nothingism can exhume him. In a long letter on the subject, it will be seen that his regard for the Order arises out of its affinities with Slavery.—

"Consider, also, that these emigrants, shunning the South, from their unwillingness to compete with slave-labor—and flocking to the North, from their abolition tendencies, in search of kindred spirits, are thus rapidly increasing the majority against you in Congress at every opportunity, and will, unless checked in its career for a length of time, place the Constitution and the institutions of the South at the mercy of fanaticism.

"And how are these calamities to be averted, if this horde or foreigners, rapidly increasing, is to be annually added to your society? The plagues of *Egypt* were merciful, since they were guided by Divine benevolence, and stayed by His omnipotence, when the daily advance of life chosen people was effected. But who shall stay this moral pestilence, if you are insensible to your danger? If persevered in, in what can it eventuate but in the ruin of the republic? Can the noble system of government, established by our fathers, be administered by men like these?"

Thus Senator Berrien, for the sake of breaking down the North, welcomes Know Nothingism as the instrumentality needed, and the Northern brethren of the Order strike hands with him, rejoicing over the cheek already given to immigration, from which the Free States are heavy sufferers. To cut off one of the material sources of Northern prosperity may serve to gratify a prejudice, and feed Southern ambition; but it can hardly challenge the support of those injured by it.

ANOTHER FINALITY.—The Compromise measures of 1850 were to be "a finality," but they served that purpose only four years. Now we have another settlement, and the dawn of the Star of Peace! In the ninth resolution passed by the "unterrified" democracy at their desecration of Constitution Day, in Independence Square, Philadelphia, on Monday evening, we are made joyful by the following: "We pledge ourselves to abide by and adhere to a faithful execution of the Kansas and Nebraska Act, passed in 1858, as a final settlement of all sectional questions." That is very good. We are now at the end.—This is the finality of the finalities. Nevermore shall we have any excitement on the Slavery question.

The Know Nothings Nonplussers.

Messrs. Editors Gazette:—The Know Nothing organs have boasted of the fairness of their plan of nominating candidates, and of the fair representation of the sentiment of the party in their county ticket. Your Saturday's correspondent D. shows that the will of the party was not fairly expressed in those nominations, that gross frauds were perpetrated in the councils—as voting by proxy by minors, and by those not members of the order. He has omitted, however, to mention that *not more than two*, if so many, of the candidates received a majority *of all the votes polled*. Some (the candidate for Prothonotary, for example,) had not probably one-sixth of the votes polled; others one-fifth, one-fourth, &c. Now it is well known that in all other parties a candidate must poll a majority of all the votes to obtain a nomination, and is not this the only fair test of popular will? I leave the answer to your readers.

The Philadelphia *North American* notices the opening of the Pittsburgh & Connellsville road, and draws the attention of Philadelphians to the opportunity it affords of opening a new connection between that city and this, and says:

"The Chambersburg and Allegheny Railroad will continue the Connellsville route eastward; and from Chambersburg one more link in the same direction will reach York, and thence onward by the Columbia Railroad to this city. Before the completion, however, of the Chambersburg line, Connellsville will have an extension to Bedford, and by the Broadtop Railroad will strike the Pennsylvania Central, west of Lewistown. But without reference to a more direct out from Chambersburgh to York, the line of the Cumberland Valley Railroad opens the communication with Harrisburg; and thence hither. The latter entire line, namely, from Pittsburgh via Connellsville, Bedford, Chambersburg, and Harrisburg, may be regarded as certain to proceed, the inducements being too manifest to the people upon it, to admit the supposition of any considerable delay.

"The new line will compare favorably in every respect with the Pennsylvania Railroad, and it will open a local trade which the latter cannot reach. Nor is there fear of injurious rivalry, as both will have abundant sustenance—the bituminous coal freight alone being destined to employ the full resources of both, beyond the demands of miscellaneous business."

The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his hands over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will purify the system of blood.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Four to six bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four til six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Two to three bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst case of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure all diseases in the system; yet it is now a fixed fact. If you have a humor it has to start There are no life nor death issues or hair's about it suiting these cases and not yours. A peddled over a thousand miles of this is the validity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I have it in children's year old to old people of sixty. I have seen pure, watery blood in children, where the sick and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, a bottle will always cure it. It gives good appetite to the stomach and bowels. Some who have been sickly for years, have become and been regulated by it. Where the body is sound, it work quite easy, but where there is any derangement of the functions of nature, it will cause very sharp operation, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it. On the contrary, when that feeling is gone you will find yourself like a new person. I have had some of the most extraordinary assertions of it that can ever be uttered to. No stronger of diet is ever necessary—eat the best you can eat. I have thrown an herb, which, when steeped in the Drug Store of Dr. GEO. H. KEYSER, No. 140 Wood street, corn er of Virgin alley, sign of the Golden Mortar. se18-d&wtf

To B. A. Fahnestock & Co.:

GENTLEMEN—For five years past, I have used B. A Fahnestock's Vermifuge for an ambleness in my practice; my attention was first called to it in a case where I had failed to dislodge worms with calomel, pink and cowhage. A bottle was obtained and used with desirable effect since then I have prescribed it for hundreds of patients, and in a large majority of cases with complete success. In one case a single bottle of the medicine brought away from one patient *upwards of a hundred Worms.* I have never known it to fail, and I am induced to make this statement from an honest conviction that it is the most valuable Vermifuge yet known. Such is my confidence in its "worm-killing" powers, that I recommend it to citizens generally in this section, and furnish them with the article. M. C. SAVAGE, M. D.

To B. A. Fahnestock & Co.:

GENTLEMEN—For five years past, I have used B. A Fahnestock's Vermifuge for an ambleness in my practice; my attention was first called to it in a case where I had failed to dislodge worms with calomel, pink and cowhage. A bottle was obtained and used with desirable effect since then I have prescribed it for hundreds of patients, and in a large majority of cases with complete success. In one case a single bottle of the medicine brought away from one patient *upwards of a hundred Worms.* I have never known it to fail, and I am induced to make this statement from an honest conviction that it is the most valuable Vermifuge yet known. Such is my confidence in its "worm-killing" powers, that I recommend it to citizens generally in this section, and furnish them with the article. M. C. SAVAGE, M. D.

Who has not heard of Bearhave's Holland Bitters?—It is the composition, pleasant to the taste, and truly wonderful in its effect, its popularity cannot be wondered at. To invalids just recovering strength, it is invaluable exercising that soothing influence over the nervous system, and toning up the whole health and tone to the stomach, so longed for by the recruiting convalescent."—*Daily Enterprise.*

The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his hands over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will purify the system of blood.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Four to six bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four til six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Two to three bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst case of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure all diseases in the system; yet it is now a fixed fact. If you have a humor it has to start There are no life nor death issues or hair's about it suiting these cases and not yours. A peddled over a thousand miles of this is the validity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I have it in children's year old to old people of sixty. I have seen pure, watery blood in children, where the sick and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, a bottle will always cure it. It gives good appetite to the stomach and bowels. Some who have been sickly for years, have become and been regulated by it. Where the body is sound, it work quite easy, but where there is any derangement of the functions of nature, it will cause very sharp operation, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it. On the contrary, when that feeling is gone you will find yourself like a new person. I have had some of the most extraordinary assertions of it that can ever be uttered to. No stronger of diet is ever necessary—eat the best you can eat. I have thrown an herb, which, when steeped in the Drug Store of Dr. GEO. H. KEYSER, No. 140 Wood street, corn er of Virgin alley, sign of the Golden Mortar. se18-d&wtf
