PITTSBURGH GAZETTE

PUBLISHED BY D. M. WHITE.

PITTSBURGH:

SATURDAY MORNING, OCTOBER 13, 1855.

A Room in the Gazette Buildings for Rent.—A WELL LIGHTED ROOM, on the second floor, and easy of access, in the Gazette Buildings, on Fifth street, is for rent for one, or a term of years. It would suit a Bookbinder, Engraver, or Lithographer or a Weekly Newspaper Office. sn16-tf

☞To Advertisers.—Neither the Editorial Room or Printing Establishment of the *Daily Gazette*, are opened on Sunday. Advertisers who desire their notices to appear in the paper on Monday morning, will please hand them in efore 5 o clock, on Saturday

☞Pittsburgh Weekly Gazette.—The extensive circulation of our *Weekly Gazette* offers to our business men most desirable medium of making their business known Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop-keeper in Western Pennsylvania, and Eastern Ohio.

Advance Payments.—Hereafter no subscription will be taken for the Daily or Weekly Gazette, unless payment is made in advance. Whenever the time is up to which the subscription is paid, the paper will be invariably stopped, unless the subscription is renewed by advance payment. All transient advertising, of every description, will be required to be paid in advance. The only exceptions will be where special month y or yearly contracts are made. sep1ddw

☞Reading Matter on each page of this paper.

This embraces most of the State, the counties to be heard from being Centre, Clearfield, Elk, Greene, Juniata, Mifflin, Perry, Potter, Sullivan, Wyoming, Tioga, Union, Snyder, Venango and Warren.

The reported majorities above given are doubtless partially guessed at, and may be reduced or increased. The counties to be heard from are not likely to change the result.

In the Erie and Crawford Senatorial district, D. E. Finney, an independent candidate, is elected, and is probably the only anti-Nebraska man elected to the Senate.

Gideon J. Ball and Murray Whallon are elected to the legislature from Erie. Gen. John Kilpatrick is chosen Sheriff.

BREADSTUFFS.—The splendid yield of the last harvest induced every one to anticipate low prices for breadstuffs; and those who had been struggling along under the burden of high rates looked forward to the present time as sure to bring them relief. But instead of growing cheaper as the season advances, prices are steadily tending upward, without any certain prospect of a fall. Consumers, we fear, must resign themselves to the loss of whatever hopes they have been entertaining on this score.

Breadstuffs will not be cheap; but they will be abundant. There is both enough for our own wants and those of our foreign customers; and it will be found, in the long run, that when the sources of supply are full the prevalence of high prices is not a calamity. It is only when dearness is superinduced by scarcity that it becomes hard to bear. The higher the prices we get from foreign purchasers the more money there is to reward agricultural industry; and when that branch of labor is well rewarded all other branches are sure to prosper. The high rates of last year oppressed and exhausted the farmers as much as the consumers; while this year they replenish their purses, and put them into that prosperous position which gives life and zest to commerce and manufactures. In sharing in general good, therefore, consumers will not feel the pressure of high prices as they did under the circumstances which prevailed last year.

The excitement which has has been prevailing at all the leading points for the sale of produce within the past week still continues. The New York *Express* says:

"We understand that an eminent shipping firm in South street, have received orders to purchase 500,000 barrels of flour for the British Government. The French and British Governments are early in the field as purchasers of breadstuffs, no doubt intended to feed their armies in the Crimea, and save their home markets from being disturbed by large demands for such a purpose."

The New York *Journal of Commerce*, in speaking of the large sales of breadstuffs recently made in that city, says:

"About half of the sales are for future delivery, chiefly in November and December. Much interest has been felt to know for what market the largest purchases were made. It is now generally understood that the British and French Governments are interested in the transactions, and it is said that part of the flour will go to the transport fleet at Constantinople. These large sales are calculated to create excitement throughout the interior, but it appears to us that those who refuse, in consequence, to sell at the present high rates, may hold on longer and fare worse."

The New York *Tribune* of Thursday says:

"There is a large activity in the Breadstuff market to-day, with advancing prices. The foreign advices are looked upon as favorable for Breadstuffs, and the movement is somewhat checked by the advanced demands of holders. The sales of Flour are about 40,000 bbls. at $8,87½@$9,12½, an improvement of 25c. Of this, 20,000 bbls. were for future delivery. Some of the previous purchases for Oct. and Nov. delivery, several thousand bbls., have been resold at $1,50@$2 ½ bbl. profit. Of Wheat the sales reached 100,000 bushels at $1,72 for Western red to $2,37½ for Canadian white, an improvement of 5 to 8c. ½ bush. Rye has advanced 20c. ½ bush. in the last two or three days. About 85,000 bush. sold to-day at $1,22@$1,35. Corn is 1@2½c., with sales of 50,000 bushels. Pork is improving with a large business. About 4,000 bbls. sold at $22@$22,12½ for immediate delivery; $21,50 for November, sellers' option, and $10 for all the year, sellers' option."

The Baltimore *American* of Thursday says that the sales in that market for two or three days reached about 28,000 bbls. flour, and large amounts of wheat, for foreign export. At St. Louis, on Monday, 10,000 bbls. Flour were purchased on foreign account; while at Oswego, Buffalo, Cleveland, Detroit, Milwaukie, Chicago and Cincinnati all the flour and wheat available for purchase have been taken up as fast as offered.

It is probable that a portion of this activity results from speculative movements, which always flow from a brisk inquiry and an advancing market; and it is also probable that it will not last very long at its present intensity. If, as is generally supposed, the British and French governments are the leading purchasers it is likely that their wants will soon be supplied, and this activity will be left without the disturbance, the market it will be left undecorated. The decreasing industries they have generated. The decreasing industries they have generated. The demand will then become more regular, and speculators will recover from the fever heat under which they are now laboring.

But while it would be idle to look for a continuance of the present ravenous demand, it is certain that the wants of Europe will absorb nearly all the supplies upon our hands. Our farming friends have, therefore, a sure prospect before them of good prices for their produce; and the country at large will be benefited by the opportunity thus offered of extinguishing our foreign debt. It is not likely that our European creditors will long remain creditors. They will prefer our surplus bread and meat to our money. There will consequently be a cessation for some time of the export of coin, and a probable return of bonds, and other evidences of our indebtedness to European capitalists. By all this the country will be so much the gainer; and the only thing to be feared is the danger that our increased exports will lead to larger imports, and renew the career of extravagance from which we are but just recovering.

—Since the above was written the N. Y. *Commercial Advertiser* of Thursday evening has been received from which we extract the following:

"The interest attached to the subject of the probable foreign destination of a large portion of the product of the year's grain harvest, has completely overshadowed every other topic, discussed in commercial circles for the last two days.

We mentioned yesterday on the authority of a contemporary, the rumors in circulation relative to Messr. Grinnel, Minturn & Co. having accepted an agency from the British Government to make large purchases of breadstuffs on its account. The latest report is that they have bought, thus far, about six hundred thousand bushels of wheat and one hundred and twenty thousand barrels of flour in part fulfilment of the order. It was also currently reported that one of the parties engaged in the matter, a well-known and prominent grain broker and dealer, had left for the West, with a view of obtaining the supplies necessary to complete the order. This morning, however, this is contradicted and is probably untrue.

It is further stated that an officer of the British Commissariat department is now in the city, personally superintending the arrangements.—He met with some difficulty in his first negotiations. The proposal operation was of such magnitude, and requiring an immediate and so large an advance of capital, that one or two of the parties applied to refused to have any connection with it.

These are the reports in general circulation, and their accuracy is confidently vouched for by respectable parties, who would not willingly lend themselves to any plan to mislead, or diffuse the false information. We are therefore bound to believe that the stories told may be true, or at least have a foundation in truth. Yet this is not the opinion of all. The editor of the Shipping and Commercial List, who is intelligent and usually well-informed on the subjects upon which he writes, in his issue of this morning says:

"A great many extravagant rumors with regard to the destination of most of the large purchases have obtained currency, and in many instances credence, particularly one to the effect that they were for account of the English Government, and intended for the commissariat; the probability is, that speculation has had most to do with this extraordinary activity, and that these reports have been circulated as a foil to shield them from a too public scrutiny. This belief is strengthened by the fact that a goodly portion of the sales have been ordered into store instead of being shipped immediately, when there is a temporary excess of tonnage on the berth for Liverpool, and consequently no probability of any material reduction of rates. We have good reason to believe that not a barrel has yet been bought for the British Government, and that all the orders received, so far, are from private individuals."

We understand that the Greek houses, which during the first part of the season, were the largest purchasers of flour, are not buying now, but on the contrary, some of them yesterday were selling out their contracts. The operations on French account are also at present less than they were heretofore. There is a brisk demand for Rye, under orders for Germany and prices yesterday advanced fully ten cents per bushel. Large freights have been engaged for this article, but as the Rye arrives slowly, it is somewhat doubtful if the orders can be filled. For Indian Corn there is no shipping demand. At the present prices ruling on the other side of the Atlantic, operations here would result in a loss if realized upon in that market.

The Shipping and Commercial List reports the sales of flour for the three days ending last evening, about ninety thousand barrels of State and Western, including some forty thousand barrels to arrive. In wheat the transactoins for the same time are estimated at half a million bushels, principally to arrive. This morning the market has put on an entirely different aspect from that of the last few days. Prices have taken a turn backward, and with sales of about 10,000 barrels of flour, have ruled about twelve and a half cents in favor of the purchaser while to force sales a deduction of full twenty-five cents would have to be submitted to. Wheat closed dull and unsettled at a decline of 2@3 cents per bushel. Rye advanced 5 cents, with a good export demand.

The Susquehanna *Republican* of October 6th publishes a letter from Passmore Williamson to Judge Jessup, declining the Republican nomination for Canal Commissioner. The letter is dated Sept. 28th, and is in reply to one from Judge Jessup dated Sept. 25th, informing him of his nomination by the Pittsburgh Convention.

The Judge appears to have taken his own time in communicating to Mr. Williamson the news of his nomination. The Convention was held here on the 5th of September, and yet the nomination was not officially made known to Mr. W. until the 25th; and it is noteworthy that it was on that very day the bogus Republican State Committee was made by the same Judge Jessup with a view to force Mr. Williamson off the track.

This letter of declination was first published, as we have said, on the 6th inst., and did not reach here until after the election. Its appearance in the Susquehanna *Republican* of that date is the first intimation we have had of the existance of such a letter.

BILL SIGNED.—The news, anxiously expected day after day and week after week since last May, has at length arrived. A telegraphic dispatch received on Tuesday evening, from Wm. M. Watts, Esq. of Carlisle, communicates the intelligence of the Executive approval of the Erie Bill that day. So the long agony is over. The Bill is a law, and will doubtless be fully and faithfully executed. We are sorry Governor Pollock did not perform this duty sooner—sorry on account of the welfare of the Whig party as well as the security of the local interests directly involved—but yet we hail the news even at this late day as the harbinger of good. The course and position of Erie now stands defended—the rights and sovereignty of the State vindicated. We hope we may, with the aid of this just measure, look for a speedy and advantageous settlement of our difficulties. —*Erie Gazette.*

THE VALUE OF A DEAD HORSE.—It is said that about 8,000 horses die annually, in New York city, or about 22 per day—an exaggeration probably. Each dead horse is considered to be worth $17,50. His hide is sold to the tanners for $1,50, his bones are burned and sold to the sugar refiners for refining purposes, and to the farmers for manure, his meat is pressed and the grease used by the soap and candle makers, while the entrails and remanents are fed to the hogs to make pork for home consumption.

DUTCH COLLEGES.—In Holland there are three Universities, Utrecht, Leyden and Groniger.—They are all tinctured with rationalism, though that at Utrecht has a better reputation for orthodoxy than the other two. This University has also the largest number of students. The national church has fifteen hundred pulpits to be supplied and the number of students is no more than sufficient to meet the demands of the churches, together with an inadequate supply of the colonies.

THE CHOCOLATE TRADE.—The Boston (Mass.) *Traveller* says:—Few are aware of the extent of the chocolate business, or the supremacy which Boston has obtained in its manufacture. Of the hundreds of thousands of dollars' worth of chocolate, in its different forms, sold in America during the year, nearly all is manufactured by firms in this city. Scarcely a vessel leaves for a foreign port but has it on board. The business is not of sudden growth; by fifty years of labor only has it been established.

PROTESTION LEAGUES.—The citizens of Thompsonville, Conn., united in purchasing two hundred and fifty-two barrels of flour from the manufacturers at Rochester, and it was delivered at their doors for $9,63 per barrel. This was a saving of two dollars and a half or three dollars on a barrel. The "Bread League" in Charlestown has been organized, and five hundred barrels of flour have been subscribed for. When eight hundred barrels have been taken up, the agent will proceed to the West to purchase flour.

EPIDEMIC AMONG THE HORSES.—The New York Times says: "An epedemic of unusual virulence is attacking the horses of this city, and in all directions fine plump animals may be seen lying dead by the wayside. Of course the poor and overworked beasts are more numerous. We understand that the Knickerbocker Stage Company lost forty in one week."

SOUTHERN ILLINOIS CONFERENCE.—This conference met at Alton on the 26th of September and continued in session until the first of October, Bishop Janes presiding. Several of the preachers were sick with the cholera toward the close of the session, and on the last day the Rev. J. M. Maley died of that disease.

A NEW KIND OF SUGAR.—A paragraph is going the rounds, clipped from the Mormon paper—the *Desert News*—which gives an account of a new kind of sugar, made from a sweet substance discovered on the leaves of the trees. A Mormon named Daniels, at Provo City, made twenty pounds in one day, from leaves gathered and soaked in water. Many men, women and children are engaged in gathering these leaves. When it was first discovered, some said that it was honey dew, others said it proceeded from the cotton wood leaves, but it is found on all kinds of leaves and on the rocks. Many of the leaves have scales of this sweet substance as thick as window glass, and some a great deal thicker. It is said to be of a very agreeable flavor, closely resembling Maple Sugar.

If all this be true, the maple tree has found a rival—Who shall say that each living thing is not for some good purpose? When our wisdom teaches us the use of all trees and shrubs and waters, we shall, without doubt, find that our Maker has given us needful food and drink and medicine, in what now seems of little use.

METHODISM IN INDIANA ON SLVERY.—At the late session of the Indiana Conference, the following resolutions were adopted:

Resolved, That it is the sense of South Eastern Indiana Conference, that non-slaveholding should be a test of membership in the Methodist Episcopal Church, except in instances where it is satisfactorily ascertained that humanity and the true interest of the slave demand the continuance of the legal relation of master and slave, and that such measures should be taken as will extirpate the great evil from the Church, at the earliest practicable moment.

Resolved, That the Delegates from this Conference to the next General Conference, are hereby instructed to use their best exertions to secure such changes in the discipline as may be needed to carry out the foregoing resolution.

Resolved, That we roommend that the Conference do not concur in either of the proposed alterations of the general rule on the subject of Slavery, forwarded to the body from the Wisconsin, Erie, or North Ohio Conferences.

THE *Courier de la Vienne* states that at the last fair at Rellao, and extraordinary panic took possession of all the oxen, which, with the rapidity of a flash of lightning, overturned the barriers and took to flight in all directions, knocking down every person in their way. The fair, which a few minutes before was covered with numerous beasts perfectly quiet, suddenly assumed somewhat the appearance of a field of battle, people wounded, and unfortunately, some killed, lying about in all directions. The number of the former is said to be from sixty to seventy, and of the latter three or four.

WOOL GROWERS' BANK.—The Cleveland *Herald* says:—"A movement is now on foot for the purpose of forming a Joint Stock Association, to be known as the "Wool Growers' Bank," or by some other equally significant name. The object of the Association is to aid wool growers in disposing of their clips, and securing to the producer the market value of his stock, protecting him against sudden and temporary depression in the woolmarket. The capital of the Association is not yet determined; it probably will be $1,000,000, and divided into shares of, say $100 each."

GROWTH OF THE WEST.—A single fact in relation to the two great Railroads which cross our state, says the Detroit *Free Press*, most strikingly demonstrates the wonderfully rapid growth of the West. The entire earnings of the Michigan Central Road for the year ending June, 1854, (during which year it was the only road leading across the peninsula of Michigan, as the Michigan Southern line was only opened for use in June, 1852,) were $1,069,947, while this year the gross earnings of the two lines of road will probably exceed $5,000,000.

SPECIAL NOTICES.

The Great Restorative—Fever and Ague *Cured by Dr. McLane's Liver Pills*—Mr. Jonathan Hough man, of West Union, Park county, Illinois, writes to the proprietors that he had suffered greatly from a severe and protracted attack of Fever and Ague, and was completely restored to health by the use of the Liver Pills alone.—These Pills undoubtedly possess great tonic properties, and can be safely and confidently resorted to in all cases requiring invigorating remedies: but the Liver Pills stand pre-eminent as a means of restoring a disorganized liver to healthy action; hence the great celebrity they have attained. The numerous formidable diseases arising from a diseased Liver, which so long baffled the skill of the most eminent physicians of the United States, are now rendered easy of cure, thanks to the study and perseverance of the distinguished physician whose name this great medicine bears—a name which will descend to posterity as one deserving of gratitude. This invaluable medicine should always be kept within reach; and on the appearance of the first symptoms of diseased Liver, it can be safely and usefully administered.

P. S. Dr. M'Lane's celebrated Vermifuge and Liver Pills can both be obtained at any of the respectable Drug Stores in the United States.

☞Genuine Pills of Whips promptly furnished to order.

☞Orders from the trade are solicited and promptly shipped per instruction.

☞*ALL WORK WARRANTED.*☜

A Gentleman living on Squirrel Hill says—"My wife has been sorely afflicted with Dyspepsia for the last year, during this time, she has used so many medicines which seemed to aggravate rather than remove the disease, that we almost despaired of her recovery. Living in the country, she enjoyed all the advantages of pure air and exercise, yet each day she seemed to be more enfeebled. With some difficulty I persuaded her to take your *Hillend Bitters*, which I am happy to state has completely cured her."

See advertisement in another column. oct13 d&wtf

Dr. Urban's Anti-Bacchanalian Elixir, a safe and sure remedy for the cure of INTEMPERANCE. Sold by agents in every town in the United States in one quailed. For the following complaints it is a most valuable medicine: *Dispepsia, Liver Complaint, Epilepsy, Neuralgia, Piles, Fevers of all kinds, Delerium Tremens, Gout and Debility.* This medicine is intended to produce a change in the system, and a distaste for alcoholic drinks. Several instances where we have sold it; we have had the most gratifying results; so, to persons who are really desirous of breaking off the indulgence in intoxicating beverages, this elixir will be a great help. Sold at $1 per bottle at the Drug Store o f Dr. GEO. H. KEYSER, No. 140 Wood street, corner of Virgin alley, sign of the Golden Mortar. se17-d&wtf

Cough Remedies Dr. Keyser's Pectoral Syrup will cure you.

Dr. Keyser's Pectoral Syrup will cure Bronchitis.

Dr. Keyser's Pectoral Syrup will cure Laryngitis.

Dr. Keyser's Pectoral Syrup will cure Consumption.

Dr. Keyser's Pectoral Syrup will cure a cold in the head.

Dr. Keyser's Pectoral Syrup will cure Incipient Consumption.

A recent letter from Mr. J. W. Veatch, of Rokeby, Ohio, says:

"I want you to send me two bottles of your Pectoral Syrup by mail. There is a lady here who has a cough and it is settling to consumption. I was in the same way, and tried everything without benefit, until I got a bottle of your Pectoral Syrup: I took it but twice, and it cured me sound and well."

Ask for Dr. Keyser's Pectoral Syrup and take no other Price, 00 cts. Sold at Dr. KEYSER'S, No. 140 Wood st., and at J. F. FLEMINGS, Allegheny. se20-d&wtf

Liver Disease.—Carter's Spanish Mixture as a remedy for liver disease, and the number of formidable evils connected with a disorganized state of the organ, is unrivalled.

Hundreds of certificates, from the highest sources of per sons living in the city of Richmond, Va., might be given of cures effected by Carter's Spanish Mixture. We have only room to refer to the extraordinary cure of Samuel Richardson, one of the first of Drinkard & Merrill's Bookbinders, Richmond, Va., who was cured by two bottles of Carter's Spanish Mixture, after three years suffering from disease of liver. He says its action on the blood is wonderful, better than all the medicine he had ever taken, and cheerfully recommends it to all. See advertisement.

A Sick Headache and Neuralgia of Eight Years Standing Cured by OAKLEY'S DEPURATIVE SYRUP.—Mr. William Trimble, McAnly's Row, Bayardstown, 4th ward, Louisville, was cured of Sick Headache of eight years standing, by three bottles of Oakley's Depurative Syrup. He had tried various physicians without a cure. He is now entirely well. Oakley's Depurative is for Rheumatism, Scrofula, Tetter and all eruptive diseases. For sale wholesale and retail, at DR. KEYSER'S, No. 140 Wood st. sign of the Golden Mortar. Price 75 cts. per bottle. se16-d&wtf

Dr. Urban's Anti-Bacchanalian Elixir.

Joy for the Invalid.—We cut the following from the "Philadelphia Saturday Gazette," and recommend our readers to peruse it carefully, and those suffering should not delay purchasing.

DR. HOOFLAND'S GERMAN BITTERS.—This celebrated medicine, prepared by Dr. C. M. JACKSON, at the Impoding Drug and Medicine Store, in Philadelphia, is meeting unprecedented public attention, and the proprietor, who is a scientific physician, is selling immense quantities of it. The virtues of this remedy are so fully set forth in the extended notice of it, to be seen in our advertising columns, that there is hardly any room left for us to speak of it. This much we may add—of the long train of physical ills to which humanity is heir, there is none more distressing than the general derangement of the digestive organs, which never fails to accompany a disordered state of the liver. Headache, pile, languor, restlessness, a filthy tongue, a wretched breath, loss of appetite, short breath, an intolerable, nauseatedness of existence, are its ingredients and its wanting attendants. These diseases, which have baffled the skill of the ablest doctors, have been radically cured by Hoofland's German Bitters.

See advertisement.

WELCH & GRIFFITH'S
PATENT GROUND SAWS.
HAVING purchased from Mr. Wm. Southwell his Patent Right, for grinding circular and other Saws, for which we have paid him a large sum, and we are the sole proprietors of this patent. We will reward any person giving information of infringements on the same.
This is the only Machine, ever invented that will grind a few perfectly even in thickness.
They will require less set—will not heat while running—will run smooth—save lumber—and keep an edge longer than any other saws made—and are not liable to become untrue.
All our Saws are made from an Extra Quality of Cast steel, imported expressly for our own use, at much higher cost than generally used for Saws.
We respectfully inform all manufacturers of lumber, that no Saw will be sent from this Establishment but what is of superior Steel and workmanship; the Temper will be found more even and uniform than any Saw in use.

The Greatest Medical Discovery
OF THE AGE.
Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cure *every kind of Humor, from the worst Scrofula to a common Pimple.*
He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.
