PITTSBURGH:

FRIDAY MORNING, NOV. 2, 1855.

☞ To Advertisers.—Neither the Editorial Room or Printing Establishment of the *Daily Gazette*, are opened on Sunday. Advertisements who desire their notices to appear in the paper on Monday morning, will please hand them in before 5 o clock, on Saturday.

☞ Pittsburgh Weekly Gazette.—The extensive circulation of our *Weekly Gazette* offers to our business men most desirable medium of making their business known. Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop-keeper in Western Pennsylvania, and Eastern Ohio.

Reading Matter on each page of this paper.

THE UNION OF THE OPPOSITION.—The response to our proposition about the union of the anti-administration elements in this State is not very cordial, as yet. Some of the more turbulent presses will not give heed to it, they say, because it comes from *us*, and it goes marvelously against their grain to think of co-operating with us. Very good; if they would rather reign in hell than serve in heaven, let them go their own road and we will go ours.

The *Pittsburgh Gazette*, it becomes us to say here, was as heartily and earnestly and sincerely in favor of union before the late election as it has been since; and it opposed the late hollow and fraudulent attempt at union only because of the disgraceful methods of its attainment and the dishonest means used in accomplishing it: It would not be a party to a political wrong, then, and it makes it a *sine qua non* to all future efforts at union that trickery and dishonesty shall be discarded at the very start.

For our own position in the ranks of the opposition, should they cordially and honestly unite, we are not specially mindful. We do not want to lead, nor be made prominent; neither do we wish to be understood as dictating the terms of union. All that we are anxious about is that the union shall be sincere and thorough, and the platform acceptable to all and offensive to none. Let all previous attempts at organization be disregarded, and the work begun *de novo*, if that is thought best. In that way, perhaps, all danger of wounding personal pride of opinion will be avoided and no one will be asked to yield to another. When such a result is attained the humblest place in the ranks will suit us; and if any weak brother would be likely to be offended by our participation in the preliminary movements, we are content to step aside for his sake. We only reserve, in that case, the right of deciding for ourselves, when it is all over, whether the platform is one which we can stand upon.

We will not, however, conceal here the conviction that it steadily forcing itself upon us that the rope and temper of the various elements of opposition in the State is not now favorable to a cordial union. There is, at the present, too much crimination and recrimination, too strong an anxiety on the part of one branch to overreach the other, and too little disposition to yield in the very questions which are the matters of controversy and difference. There must be a change in this respect before a proper combination can be effected.

For instance, many of the "American" branch of the opposition seem very desirous of having everything their own way. If all the rest will yield submissively to them, it will be all right; otherwise they are off. Evidently the time has not come for negotiating with them. As illustrative of this truth we cite the following proposed platform from the Warren *Mail*, which has been already endorsed in various quarters:

1. The restoration of the Missouri Compromise—making freedom national, and slavery sectional,

2. The modification or repeal of the Naturalization laws of the United States.

3. Substantial protection to American labor.

Such a platform, we are free to say, can never be a basis of successful union. The old-line Whigs and the anti-Know Nothing Republicans can never be brought to endorse the repeal of the naturalization laws or such a modification of them as will be tantamount to repeal. They are not averse to such a change in those laws as will protect us as a nation from foreign influence and secure the privilege of citizenship to those only who can legally be ascertained to be worthy of it. To that, we think, there can be and will be no objection; but any attempt to incorporate into the platform what is distinctively known as Know Nothingism will be disastrous. The voter or the politician who shuts his eyes to this fact will deceive himself and contribute to an ultimate defeat that will be as complete as it will be mortifying.

The only platform which can be successful is one that will be common to all. It will not do to say—Come; here are three parties: we will take a plank which is characteristic from the platform of each, and make a triangular one for all: to the Republicans we will give a plank in opposition to the extension of Slavery; to the "Americans" one in favor of Know Nothingism; and to the Whigs one in favor of a tariff; and surely this will satisfy all? Most surely it will not. There are many, very many, with whom the first and last of these are paramount, and they might be partially satisfied; but there are others (and without them we cannot succeed) who are inveterately hostile to anything which has the shadow of Know Nothingism upon it, and their hatred to the extension of Slavery would not be sufficient to overcome it. Is it not wiser, therefore, to conciliate all, and succeed, than to offend even a few, and be defeated?

Do not say in reply that this is asking the "Americans" to give up everything; while their opponents give up nothing; for it is not so. The man who is opposed to Know Nothingism gives up as much, when he yields his hostility to it, as those do who yield their devotion to it; they each make an equal concession and meet on common ground. The relative numbers of the two classes has no bearing upon the argument.

The Republicans of Pennsylvania are willing to take the Ohio platform, on which a glorious victory has just been achieved, as the basis of union, enlarged by the addition of sundry other principles upon which both they and all the rest agree, in opposition to the National administration. All they ask is a platform common to every opponent of that administration, and an organization open to all both in its formation and management. To this end they will doubtless agree to forge their present organization, if that be deemed advisable, and leave the road clear for a new beginning.

If, however, the way to union is to be strewn with evidences of spite and venom; if there is to be snarling and biting, and a general settling up of past scores, the attempt to mingle had better not be made; at least not now. There is a great deal of human nature in man; and those who are willing to turn their backs on the past will not suffer themselves to be made unresisting objects of assault. Let those, therefore, who itch to strike for the gratification of their factional spite, strike away as vigorously as they may; but let them not flatter themselves with the delusion that they will not be struck back, or that petty manifestations of spleen will have the way to future co-operation. There must be mutual concession, friendship and good will all around to make the union aimed at attainable.

WENDELL PHILLIPS.—We learn that this distinguished lecturer has notified the committee of the Young Men's Library Association that he will, with their permission, change the subject of the lecture for next Monday night. The subject announced was "The Lost Arts"—a proper enough theme, and affording some information of a high character, but not one that gives free scope to the great talents of Mr. Phillips, who is one of the foremost orators in the country. He will substitute in its stead a lecture upon The Reformatory Aspects of the Slavery Question, and in that he will be much more at home. This lecture, if we are rightfully informed, does not bring forward the idiosyncrasies of Mr. Phillips, and will not therefore offend against the prejudices of any. That it will be eloquent and forcible no one will allow himself to doubt; and its delivery will be as much a matter of propriety as was that of Cassius M. Clay last winter before the same association. The CITY HALL has been secured for the occasion, and room will consequently be afforded to all who may wish to hear the distinguished orator.

HON. J. R. ERVIN.—Before the late election, in commenting on a backsliding speech made by Hon. John C. Kunkel, member of Congress elect from the Harrisburg district, we mentioned that boasts had been made in certain quarters that a number of the lately elected members of Congress from this State would prove faithless to their anti-Nebraska associates, and we ventured a guess that Mr. Edie, of Somerset, was included in the count. That such a boast has been publicly made is undeniable; and the connection of Mr. Edie's name with it, however strange it may seem to some of his friends, and however unjust it may eventually prove to be, was a matter of free conversation at the time we wrote.

The Somerset *Whig* grows very indignant over the rumor, and ill-naturedly accuses us with originating it. We very readily excuse the snarling temper which prompted such an accusation, and can only regret that those who demand justice so imperiously should be unjust themselves.

It can be no gratification to us to see any member of Congress from the North take a wrong position. Our desire is to witness a manly maintenance of northern rights on the part of northern men, and as a citizen of Pennsylvania we have a deep interest in the faithfulness of those who represent its interests. We shall therefore be rejoiced to find Mr. Edie among the true and tried friends of freedom; and none will be more forward than we in doing him the amplest justice on that score. We shall regret if our incidental mention of a current report shall do him any injury or injustice; but we trust he has discrimination enough to perceive that his reputation as a Congressman is yet to be made, and that the facts of his future career will be much more potent than the newspaper ebullitions of his indiscreet friends.

The Harrisburgh *Herald* is again counting its chickens before they are hatched. It is making out a tremendous "American" victory next fall, and has arranged for an indefinite number of Know Nothing triumphs throughout the State. The "Americans" are going to carry eight out of the eleven Senatorial districts next year "and now," it adds, "that the treachery of Dardis and White is known in Allegheny, the wronged and indignant voters of that district will elect an American Senator by a heavy majority." Will they? "The wronged and indignant voters" of Allegheny county will do their own voting, we fancy, next October, as they did last month; and as the "Americans" were then in a minority of some 2500, we can hardly see where their heavy majority is to come from next year. It certainly is not to be got by abusing and traducing the Republicans of this county.

Americans of Pennsylvania, keep up the Council fires—stand firmly by your principles,—convince and initiate your neighbors,—set it with a rush against Pierce, Campbell, the Nebraska infamy, Jesuitism, and Foreign influence,—and the autumn of 1856 will witness the destruction of your foes, the triumph of truth, and the permanent redemption of our good old Commonwealth.—*Harrisburgh Herald.*

We need hardly say that if this temper prevails and this advice is carried out, all hope of a united opposition in this state is at an end.—There can be no union upon the basis of Know Nothingism, and the sooner this is understood the better.

There are now five vacancies in the Senate, the terms of Messrs. Fitzpatrick, of Alabama, Atchison, of Missouri, Pettit, of Indiana, Cooper, of Pennsylvania, and Gwin, of California, having expired on the 4th of March, 1855.

THE ROTHSCHILDS.—An article is going the rounds of the press stating that the whole concern of the Rothschilds is worth $700,000,000 in money capital, besides $300,000,000 more in real estate, mines, &c. So far from this being the fact, we understand that the general estimate in Europe as to the aggregate wealth of the whole concern is 200,000,000 francs, or about $40,000,000. The idea is purely absurd that their wealth should amount to such an enormous sum as $1,000,000,000, equal at 6 per cent. to an annual income of sixty millions of dollars—a sum which, in comparatively a few years, accumulating in a compound ratio, and doubling in every twelve years, would concentrate in their hands a large portion of the wealth and property of all Europe.—*National Intelligencer.*

NEW YORK politics attract a large degree of public attention. A United States Senator, in place of Mr. Fish, is presumed to be depending on the issue. Mr. Fish has avowed himself against the Republican party, and hence, should they be successful he will not be returned. The Washington Sentinel avers that the object of John Van Buren, in the pending canvass, is to secure his own election to the Senate. This furnishes a clue to his great activity. It is believed that the President is not averse to the success of Mr. Van Buren, notwithstanding his recent excommunication by the Washington Union.

SPECIAL NOTICES.

Diseases of the Liver—When the celebrated Dr. Rush declared that drunkenness was a disease, he enunciated a truth which the experience and observation of medical men in every day confirming. The many apparently insane excesses of those who indulge in the use of spirituous liquors may be thus accounted for. The grave cause of conduct, which is taken for intoxication, is very frequently a diseased state of the Liver. No organ in the human system, when deranged, produces a more delightful catalogue of diseases. And it, instead of supplying remedies to the manifestations of disease, as is too often the case, physicians would prescribe with a view to the original cause, fewer deaths would result from diseases induced by a deranged state of the Liver. Three fourths of the diseases enumerated under the head of Consumption, have their seat in a diseased Liver. (See Dr. Dunn's great works.)

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public. Dr. M'Lane's Liver Pills, also his celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States, and Canada.

"A thing of beauty
Is a joy forever."

So sang the gifted poet Keats. What can be more beautiful than a fine head of Hair, that noblest of nature's adornments. Who that is young, but raises the luxuriant locks of youth, and would preserve them; and who that is old but would a ward baldness. To all such we would commend LYON'S KATHAIRON, universally acknowledged to be the most valuable and the most delightfully perfumed toilet article ever prepared. Be sure and ask for LYON'S KATHAIRON, to guard against the worthless imitations and counterfeits, which have lately been put up under somewhat similar names. The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred certificates of its value, which will be published soon.

Two bottles are warranted to cure a shocking sore mouth. One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all manner of blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure any eruption on the skin.

Two to three bottles are warranted to strip the most deep seated cases of rheumatism.

Five to six bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so unbecoming to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, along old stone walls, should cure every human in the system; yet so it now is found best. If you have a disease it has to some extent, a cure. Kennedy's Medical Discovery will cure it, in some cases sooner and most cases, I paddled over a thousand but they of it in the vicinity of Boston. I know its effects in every case. It has already done more for the greatest cures ever done in Massachusetts.

Kennedy's Medical Discovery will cure it, in children a year old to old people of sixty. I have seen poor, puny, weakly sickly children, whose flesh was soft and flabby, restored to a perfect state of health by use bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief to catarrh and deafness. Some who have been afflicted for years, have found it has been regulated by it. Where the body is dead, it will work quite easy, but where there is any derangement of the functions of nature, it will cause very singular and unpleasant sensations. Some will complain of a pain in the liver in from four days to a week. There is no doubt but it will cure it. On the contrary, when that feeling is gone you will feel yourself like a new person. I heard some one say, that they considered a cure of it then soon over its head to. No change of diet is ever necessary,—eat the best you can get. I have likewise an herb, which, when simmered in cream oil, dissolves scrofulous swelling of the neck and under the ears. Price 50 cents. Price of the Medical Discovery $1 per bottle.

DIRECTIONS FOR USE.—Adult, one table-spoonful per day. Children over eight years, one dessert spoonful. Those from five to eight years, one spoonful. As no direction can be given to suit all constitutions, take enough to operate on the bowels twice a day.

Speaking What They Know.

These gentlemen take pleasure in testifying in regard to R. A. Fahnestock's Vermifuge, because two of the first have used it in their private practice as physicians for a number of years, and they have known it, by observation, to be good.

St. Joseph Republican.

NEW ALBANY, Ind., July 4th, 1855.

GENTLEMEN.—Having sold your valuable Vermifuge for some time, and having seen it used for many years, we would recommend it to all as a safe and efficient remedy for canker worms. In no instance have we ever seen any evil results following its administration, but always has it answered the purposes for which it was intended, and been entirely satisfactory.

Believing that every remedy that has been set forth in regard to its virtues is strictly in accordance with our observations not only as practitioners, but as men of business, we would enthusiastically say to all who read this, that it is the best Vermifuge now in use, and that its virtues are best known when tried.

Wendell's Double Acting Machine,
FOR RIVING AND SMOOTHING SHINGLES.
THIS improvement is the result of long practical experience and is now guaranteed to be the best and only practical machine extant, for riving and shaving shingles.

All operations are entirely dissimilar from every thing of the kind heretofore offered, and the combination and construction are wholly original with its inventor. It both rives and shaves with the grain of the timber, by first splitting from the block a thick shingle for two shingles, which piece it equally divided, and by beating through two sets of knives transforms the operation, thus producing two shingles every revolution. The machine will rive and shave three thousand shingles per hour, of uniform thickness and taper, and every way superior to those made by any other process. Not only is it simple, but does not clog with wood, but works to equal advantage on hard timber of various kinds. For right of *Township or Machine*, enquire at the City Hotel or at H. H. RYAN'S furniture buildings, Fifth st.

All interested in the improvements of the age, should not fail to call at 51 Fifth st., and examine the workings of the *Double River and Shaver.*

WELCH & GRIFFITH'S
PATENT GROUND SAWS,
HAVING purchased from Mr. Wm. Southwell his Patent Right, for grinding circular and other Saws, for which we have paid him a large sum, are sole the sole proprietors of this patent. We will reward any person giving information of infringements on the same.

This is the only Machine ever invented that will grind a Saw perfectly even in thickness.

They will require less set—will not heat while running—will run smooth—save lumber—and keep an edge longer than any other saws made—and are liable to become untrue.

All our Saws are made from an Extra Quality of Cast Steel, imported expressly for our own use, at much higher cost than general Cast Steel.

We respectfully inform all manufacturers of Lumber, that no Saw will be sent from the Establishment but what is of superior Steel and workmanship; the Temper will be found more even and uniform than any Saw in use.
