PENNSYLVANIA RAILROAD TONNAGE.—The freight business of the Pennsylvania Railroad during the month of October was larger than in September, as will be seen from the annexed statistics:—

The tonnage of September, 1855, was 39,158 tons, an increase of 21,123 tons over the corresponding month in 1854. The aggregate of different articles of through and local freight eastward, received at the Philadelphia depot during the month of October was as follows:—Through, 85,161,946; local, 6,287,435. The increase in the months of this year is 85,600 tons over the same period of last year. The receipts of flour in October were 88,900 barrels, and 244,732 bushels of grain. In September, 62,420 barrels of flour and 91,111 bushels of grain were received.

ESCAPE OF A MANIAC.—Sheriff McBride, of Fayette county, arrived in our city on Thursday afternoon, having in custody, two individuals named Hess and Palmer, the former was insane, and destined for the Lunatic Asylum at Harrisburg, and the latter a convict destined for the penitentiary, to which place he had been sentenced on a charge of grand larceny. The Sheriff put up at the Mansion House on Liberty street, where he left Hess in charge of an assistant, while he was absent with the other prisoner, whom he placed under the care of Major Beckham. During the Sheriff's absence, and while the assistant's attention was attracted to some other quarter, Hess picked himself up and off he went. After several hours search through the city, he was retaken, on Liberty street, by Mr. Aurandt, the proprietor of the Mansion House, and handed over to the officers, who, a short time afterwards, started East on the evening train.—*Chronicle*

SUICIDE BY DROWNING.—Mrs. Sarah Hosier, wife of Mr. Hosier, of Hayfield township, Crawford county, committed suicide on Friday evening the 26th ult. by drowning herself in French creek. It is said she had manifested insanity for some time past, with lucid intervals, but her friends entertained no apprehension of any intention to injure herself, and consequently no watch was kept over her. So soon as her absence was observed, search was made for her, but it was not until Sunday afternoon that her body was found in the creek, a short distance above Benus' Dam.

THE ALLEGHENY "BIG LAW."—H. J. Lemon, William W. Alexander, Jacob Whitsell, and J. D. Baldwin, were some months since fined by Mayor Adams for violation of the ordinance prohibiting public speaking in the Market and Market Square of Allegheny. The defendants afterwards took their cases to the Common Pleas by certiorari.

The cases came before Judge McClure on Wednesday, and in every instance the judgment of Mayor Adams was affirmed, and the plaintiffs in error to pay the costs.

LIVERPOOL AND BEAVER FALLS PLANK ROAD ELECTION.—At an election held on the 5th inst., the following persons were chosen to serve during the ensuing year:

President—James Blakely.

Managers—Thos. Wallace, Dect. Wm. Wenner, John W. Dunn, W. C. Leslie, Lewis C. J. Wells.

Treasurer—G. E. Arnold.

BEAVER EXTENSION.—The Wellsville *Patriot* says:

"The important extension of the Cleveland and Pittsburgh Railroad, under its present contractors, J. H. King & Co., is now being constructed with a vigor and perseverance, which if it appears as it is, that the grading, masonry excavation and embankment will be completed by the stipulated period.

GEN. WM. LARIMER, JR.—We learn by the *Nebraskian*, published at Omaha, that Gen. Wm. Larimer, jr., was a candidate for re-election for Speaker in Congress, and was defeated by Bird Chapman on the second ballot.

Bird Chapman was formerly a Special Mail Agent in Ohio, and previous to that editor of the Lorain (O) *Argus*.

DIVIDENDS.—The Pennsylvania Insurance Co. have declared a semi-annual dividend of six per cent. The Western Insurance Co. have also declared a dividend of four dollars per share on the capital stock.

The Bank of Pittsburgh has declared a semi-annual dividend of five per cent, payable on or after the 10th.

LIQUOR CASE.—On Monday John Boyles was arrested and brought before Alderman Steel, on a charge of selling liquor contrary to the Act of 24th April 1855, on information of James L. Cook, constable of McKeesport, where the case is pending. After partial hearing the case was postponed until Tuesday next.

THE members of the Temperance League have been hauling up defaulters against the Liquor Law and have informed against the St. Charles, Wilkins Hall, the Belvidere, the Bank Exchange, "Our House," the Good Intent House, the Crystal Palace, and a house on Pennsylvania Avenue, kept by John Ross.

THE Jail has been thoroughly renovated and painted, and it seemed it very much. Officer Fox has the honor of inducting the new Jailor into office, and under his direction, the jail has been put in its present unusually clean and comfortable condition.

THE morning papers state the Merchants & Mechanics Insurance Co. to be a New hythe rebant fire—it should be the Farmers & Mechanics Insurance Co. Philadelphia, both of which Co.'s are represented by T. J. Hostler, No. 90 Water street.

NOTWITHSTANDING the inclemency of the weather Bullard's Panorama was well attended last evening. It is such an attractive exhibition that people will go out even in the rain to see it. Commence at 7½ o'clock every evening at Masonic Hall.

THE NEW MAYOR'S OFFICE.—We understand the contract has been signed which leases Wilkins Hall to the city for use as Mayor's Office and Watch House, for a period of fifteen years. Possession is to be given on the first of April next.

We saw an official document at the Court House yesterday wherein the word *certiorari* is spelled "certoriar!". The document is a long one and abounds in just such specimens of emanated from Allegheny. "The schoolmaster is abroad."

In the Common Pleas, yesterday, in the certiorari cases of John Tiernan vs. John Taggart, and Tiernan vs. Same, the judgment of the Alderman was reversed and judgment given against Taggart for the costs.

CHEEVER'S ASTLEY OF THE WORLD.—We are pleased to state that Vol. 1 of this important and truly elegant work, is ready for its numerous subscribers. America—the entire Continent, North America, South America, Central America and the West Indies, is here displayed in Maps on a very *large* scale, and from the late official surveys. The imperial folio-page exhibits in general only one state, and gives even the townships, another page then follows of descriptive and statistical reading, with a very brief history of the state. An entire page is appropriated to the Map of Cuba. The faithful exhibition of the Railroads of our entire country, and the careful insertion of *stations*, is a highly important feature. The Map of Pittsburgh, Allegheny and the adjoining Boroughs appears exceedingly well, and is on the same scale as Cincinnati.

The remaining vol. (to be ready about next February,) exhibits in a similar way, the entire Eastern Continent, with large maps and descriptions of each country in Europe, to which as many are now looking with present and prospective interest, and of Asia and Africa.

We trust the Agent, Mr. Maxson, now at City Hotel will still find among our citizens the encouragement which the work truly merits.

THE BREAD PROSECUTIONS.—Some months ago, a number of our city bakers were prosecuted under the Ordinance regulating the weight of bread. They were all fined.

Subsequently, John B. Bingler, one of the persons thus mulcted, took out a certiorari in order to test the validity of the ordinance.

The case came before Judge McClure yesterday in the Court of Common Pleas.—Owing to the fact that the ordinance was not set out on the Magistrate's docket, as required by law, the judgment of the Magistrate was arrested and judgment given against the city for the costs.

HEAVY ROBBERY.—We were informed last evening by officer Fox that on Monday night last, the dwelling house of Mr. Hoover (of the firm of Graff, Hoover & Co.) near New Florence, Westmoreland county, was entered by burglars through the parlor window, and $1,753 in bills of the Exchange Bank, Pittsburgh, together with a note for $1,500 of a firm in this city, were taken. The robbers escaped and there is as yet no clue to their discovery.

THE following officers were elected by the stockholders of the Allegheny & Perrysville Plank Road Company, on Monday last, at their annual meeting:

President—James A. Gibson.

Managers—George P. Hamilton, Thomas Gibson, Nelson Campbell, Robert Swan, and James M'Aleer.

Treasurer—John H. Stewart.

DECIDED.—In the Common Pleas yesterday, in the certiorari cases of John Moffat vs. The Borough of Birmingham and S. Struns vs. Same, judgment was reversed, and in the case of Shaw's Administrator vs. The Borough of Lawrenceville, judgment was affirmed.

WE understand that Wm. M. Lyon, Esq., of the firm of Lyon & Shorb, has been apointed Director of the Pennsylvania Railroad, by the Commissioners of this county, vice Gen. Wm. Robinson, whose term had expired.

FAREWELL WAS as disagreeable a day as the veriest misanthrope could desire. It rained from eleven o'clock to this present writing.—"from morn to dewy eve!" Umbrellas are up, and the rivers will follow the example.

BURGLARY.—The house of Abraham Patterson in Birmingham was entered by burglars on Monday night and all the silver ware of the family together with over $30 in money was stolen.

The Asia arrived here last night, she brings dates to the 27th Oct. She reports the steamship North Star as off Southhampton on the evening of the 26th.

The report that the Russians had blown up Fort Nicholas and other fortifications at Otschakoff is confirmed.

Advices from Sebastopol show that the allies are advancing in strong force and that the Russians are falling back in good order upon their fortified positions. The allies were close upon the Russian positions at Abbot where it is thought this must make a stand, in which case a battle is inevitable.

The Russians on the North side keep up a constant fire upon Sebastopol under cover of which they were withdrawing their troops and concentrating upon Perekop.

A Russian dispatch dated the 22d, says that the allies had marched with 40,000 troops from Eupatoria, against Toulan, but afterwards fell back on observing the Russian lances on their back on observing the Russian lances on their left. The English gun-boats had reconnoitered the river almost up to Nicolaeff.

A late St. Petersburg despatch says the whole militia has been ordered to a reinforcement of the army of the south under Gen. Luders.

The Czar left Nicolaeff for Elisabegood, 100 miles to the north.

Major Delafield, Major Mordecia and Capt. M'Lellan American officers, had arrived in the allied camp.

The allied troops officially reported in the Crimea including the sick amount to 210,000.

The attitude of Sweden is regarded at St. Petersburg with much suspicion.

The Baltic English fleet was near Nargin preparing to leave the gun boats, and the Eginor had been ordered to England.

The reported Russian disaster at Kars is confirmed, but not somewhat modified. The loss is reported at 2000. Two Turkish redoubts were lost and retaken four times. The Hungarian General Kmmett commanded the Turks.

It is believed the Russians cannot continue the siege.

The Russians have fortified all the passes leading to Kilia.

PHILADELPHIA, Nov. 7.—An action has been instituted this day by Passmore Williamson against Judge Kane for false imprisonment. The writ was served upon him at the house of his brother-in-law, George Leaper, in Delaware county. The case, of course will be tried in that county.

### New York Election.

NEW YORK, Nov. 7.—New York city is carried by the KNOW NOTHINGS by a handsome majority. Erastus Brooks, K. N., is elected Senator in the Sixth District of the city by a very large majority over Moseley, Hard and Soft. Partial returns from the Interior indicate that the State has also gone for the Know Nothings.

(SECOND DISPATCH.)

New York city has given the Know Nothings a large majority, but the returns are not complete. The canvass which is complete for ten Wards shows a plurality of over 5000 for the Americans. The Know Nothing vote in the State is larger than was anticipated, and certainly defeats the Hards, Softs, and Liquor Dealers.—The contest is between the Know Nothings and Republicans, but the large plurality of the former in the cities cannot be overcome.

(THIRD DISPATCH.)

The returns of the election in both State and city are so scattered that reliable figures cannot be furnished. In the city, the Know Nothings have a large plurality and also the State if present indications can be relied on. Connelly, the Hard and Soft Fusion candidate, for City Clerk is probably re-elected and also Brady, the Fusion candidate for the Court of Common Pleas.

(FOURTH DISPATCH.)

Partial returns from the State show the vote now to stand as follows:—American, 45,000; Fusion, 20,000; Soft, 31,000; Hard, 24,000.—Buffalo, complete, gives the Softs 4800; the Americans 2800, and Fusion 1200.

Wayne county completes, gives 1000 Fusion majority.

### Maryland Election.

BALTIMORE, Nov. 7.—The election for members of Congress is progressing quietly in this city. The day is an unusual crowd around the polls and a large vote will be cast. The result in the city will not be known until late to-morrow as the candidates on the tickets and the whole county must be complete before any results can be arrived at.

### Massachusetts Election.

BOSTON Nov. 7.—The State election in Boston has resulted in the re-election of Gardner, the American candidate for Governor by a plurality of from 10 to 15,000. The indications are also that the Americans will have a majority in the Legislature.

(SECOND DISPATCH.)

Returns from 198 towns foot up Gardiner 89,427; Beach 22,747; Walley 15,215; Rockwell 26,134. Gardner's plurality thus far is 13,293. The Know Nothings have probably elected a majority to the Legislature.

(THIRD DISPATCH.)

Returns from all but nine towns in Massachusetts give Gardner, K. N. a plurality of 15,000. Chaffers, K. N. is elected to Congress in the 10th district, by a plurality of 4000. The House stands 180 Americans, to 92 of all others. The Senate, so far as known, stands 28 Americans to 16 others.

WASHINGTON CITY, Nov. 7.—The Government has recently been occupied with the consideration of unadjusted subjects; the dispute between the U. S. and Spain, and particularly the El Dorado Affair, with a view to again steadily press their just claims. Gen. Pierce, Our Minister, Mr. Soulé and Mr. Mann by the instructions of Government been endeavoring to supercede that of 1795, with provisions rendering our intercourse free from complicity, but he has been mortified with Spanish governmental procrastination.

Whisky, small sales in bbls. at 41@42, and in hhds at 41.

## 15,000 in Two Months.

### INTERESTING AND CONVINCING.

HAVE YOU READ IT?

DOUGLASS' BONDAGE AND FREEDOM, is written by himself. It contains 464 pages of the author's thrilling experience, and is illustrated by 15 fine engravings. It is the most interesting book of the season. Agents are wanted in every town in the United States, to engage in the ready sale of this book. Any person who will engage in the business, can make from $5 to $10 per day. It is not supposed that any will voluntarily be explained by any one of their creditors. Though there is very active demand for money, the rates of which have run up so fast almost as the price of stocks has fallen, still there are many who believe that it is but a matter of excitement, and that it will speedily blow over. It is by some be discerned that there is no just cause for panic and the shock which credit has already sustained, it will take months to fully recover. There is no lack of capital on the part of borrowers have little confidence in the credit of borrowers. What is requested first class paper cannot be done at less rates than 10@12 per cent, and that which may be usually good, though without established credit, is offered at 18@24 per cent a month. We have heard of the payment of even higher rates than these, but they are not to be taken as the usual rates.

The money panic in no way lessens the confidence entertained by the Government in Wall Street, but rather increases it. The Secretary of the Treasury has not changed his policy in the slightest degree, and will not do so unless he shall be compelled to by the action of Congress. Of course the money market will be relieved as soon as the Government shall be enabled to sell out, and rather than suffer the loss that would be sustained, at present prices, the Secretary will forego interest until an opportunity shall offer them to realize at par.

The stock panic increased in day in intensity, and the market approaching as near to a panic as possible. The excitement in the Board was extreme and the few sales that were effected were made at ruinous sacrifices. Prices declined from 5 to 10 per cent, and the fall was not arrested until the close of business, and even stocks that were offered at the close of the day at the lowest figures, could not be sold. Rumors were circulated that the Bank of Commerce had refused to certify checks, and that the Bank of America had failed, but these reports were entirely without foundation. The Bank of Commerce certified checks to the amount of $1,000,000 on Saturday, and the Bank of America has not failed. Rumors of this character are always circulated in times of panic among the timid and those who are not well informed, and are generally believed. Between the Boards of Brokers and the Stock Exchange there was also a panic. Stocks could scarcely be given away, and the annihilation of stock values was complete.

The money market is in a very unsettled state. The demand to-day has been very limited, and a considerable portion of it was undoubtedly speculative. The rates were never lower than they have been. The supply of money is very large, and it is almost impossible to find buyers for bills discounted, even with the nominal quotations of the market. Bankers are asking 9@ cent for Sterling, but doing little business. Sight exchange on London is quoted at 9½@9¾ premium. Gold is in demand at 1½@1¾ premium. There are $600,000 in bars brought over the Boston steamers, and $100,000 in coin from the Southern steamers. This gold was bought some days ago. The bullion in the Bank of England has increased £500,000 since the last return, and the specie £200,000. The Bank has not yet raised the rate for paper here, but will probably do so to-day. The rate for paper here is now 6@7 per cent, and for call loans 6@7 per cent. The commercial paper in market is very limited. The supply of bankable bills is very small, and the demand for them is large. The supply is not sufficient to meet the demand.

The Bank report shows a continuance of the contraction of loans, with no important change in the specie movement. The following is a comparison of the last two returns, and what is unusual, a contraction of loans and a gain on an increase of deposits. This last feature, however, is more apparent than real, as the Clearing House returns are much larger than during the previous week, and also exceed by far those of any week during the month of October. The aggregate for the week was $56,000,000, against $56,000,000 the previous week. The comparison with the previous week is as follows:

| | Loans & Dis. | Specie | Circulation | Deposits. |
|---|---|---|---|---|
| Oct. 29, | 64,215,811 | 4,256,491 | 3,771,243 | 27,197,170 |
| Nov. 5 | 63,960,077 | 11,108,266 | 3,671,550 | 37,767,870 |
| Decrease, | 647,266 | 62,225 | $241,269 | $12,714 |
| Increase, | | | | |

The banks are now seven millions below the highest point, the receipts of gold millions, and the specie about six millions.—N. Y. Tribune.

LAKE IMPORTS.—The Buffalo Express gives the following comparative statement showing the receipts of six of the leading articles for the season of October, 1854 and 1855:

| | 1855. | 1854. |
|---|---|---|
| Flour, bbls. | 97,447 | 97,102 |
| Wheat, bus. | 1,734,000 | 1,437,000 |
| Corn, | 733,700 | 1,447,627 |
| Oats, | 210,000 | 60,000 |
| Barley, | 25,000 | 40,351 |
| Rye, | 21,200 | 49,551 |

The following is an extract of a letter from New Orleans dated Oct. 23:

"The news of Sugar is unquestionably very indifferent. A few planters have commenced selling, but all had to go on the market, and the small lots offered are taken off. They will not be fairly under way until the 15th of November.

Mentioning the remainder of the season to be very unfavorable, the crop cannot be made to exceed 250,000 hhds, and the general impression is that falling how much it may fall short of the estimate. The crop for 1853 reached 425,000 hhds, and that of 1854 was 360,000 hhds. Molasses, however, is estimated finished handsomely, without number, also a small lot of Rice, all of which have been put up in a neat style and packed with the greatest care, from the largest and most extensive establishment in the East, by myself.
