SOMETHING NEW UNDER THE SUN.—A wise man once said "there is nothing new under the sun." We are convinced that however true this may have been in days of yore, it does not apply to the nineteenth century—to an age which has witnessed the discoveries in science and improvements in machinery, of a Fulton, a Whitney, a Leverrier, a Morse, a Hobbs, and a McCormick. There *is* something new under the sun, and we have ocular demonstration of it every day of our lives. For instance, who would have thought thirty years ago of sending a message to Boston or New Orleans as quick as thought? Yet now it has become so common a thing that people have ceased to wonder. Or who, in the days of pack horses, or even in the time when "fast men" traveled by the Pioneer Packet Line, would have dreamed of going from Pittsburgh to Philadelphia in thirteen hours? Such a thing would have been pronounced supremely ridiculous, and the individual who would seriously have proposed it, would incontinently have written himself down an ass.

If any person would be convinced that the world does move, let him examine a McCormick reaper, a Hobbs lock, or do as we did yesterday afternoon, take a turn into Ryan's Building (Fifth st., between Wood and Market) and look at a machine for making shingles at the rate of four thousand an hour! It is styled "Kendall's Patent Double Acting River and Shaver." Various *cutting* and *sawing* machines have been invented for making shingles, but it is well known fact that shingles cut or sawed across the grain are quite too flimsy for roofing purposes. Numerous inventions have recently appeared for riving and shaving, and these have all been condemned as worthless, from their shingle, which almost invariably runs off. This difficulty is entirely obviated by Kendall's machine, which first splits from the side of the block a piece thick enough for two shingles. This piece is separated in the centre, and by means of elastic guides each part is conducted through a pair of approximating knives which completes the operation, thus producing two shingles at every revolution.

The shingles, moreover, are far more perfect than when made by hand, and can be worked from the hardest oak or the softest pine with almost equal facility. As may be immagined the number of patents already sold is quite large. We understand Allegheny and some half dozen other counties in Western Pennsylvania have already been disposed of; besides a good portion of the Eastern counties of this State, the State of Iowa, &c. If any body wants his organ of Ossert adjourned till this morning at nine o'clock, let him drop into Ryan's wandar operated on, let him drop into Ryan's building and take a peep at Kendall's machine.*

BOLD THEFT.—Yesterday, as one of Harrison's Milk Carts was stopping in front of a house on Wylie street, a negro observing that the driver had gone into the house, stepped up to the wagon, took out the money drawer and requiring to an alley near by, emptied it of its contents and left for parts unknown. The thief was a bold fellow, for he committed the larceny in sight of a number of persons who were led to suppose by his very boldness that he was nobody than the driver of the wagon himself. The drawer contained several dollars.

MAN ACCIDENTALLY DROWNED.—Yesterday morning, just before the steamer *Cincinnati* left the wharf, a man named Bernard Grant, who was a deck-hand on the boat, and was at the time on the water wheel, fell into the river and was drowned.

His body was recovered shortly after the boat left, and Coroner Alexander, having been sent for, an inquest was held. The Jury rendered a verdict of accidental drowning.

The deceased lived in the Eighth Ward. His wife died in 1854, of cholera.

WE have already announced the union of the Presbyterian *Banner*, of Philadelphia, and the Presbyterian *Advocate*, of this city; and the removal of the former to Pittsburgh. Rev. DrMoore, Kinney, the able and energetic proprietor, is now in our city and has opened his office in the Gazette Buildings, second story, above the Methodist Advocate Office. The first number of the united papers appears on Saturday next.

ABDUCTION, ASSAULT AND CONTEMPT.—Burgess Peterson, of Lawrenceville, yesterday sent to jail a man named John Garits, on three different commitments. The first was for forcibly abducting an infant child from its mother—his wife! Second, for assault and battery on his wife and third for contempt of the Burgess in his official capacity. On the first he was committed for further hearing. On the second, for trial, and on the third for ten days.

INFAMOUS.—A canal boatman named James Fitzsimmons, yesterday made information before Alderman McMaster, against a fellow laborer named William Conoway, for assault and battery with intent to kill. He states that Conoway attacked him with his fists, and then took him by the collar, and held him under water until he lost his breath. The defendant was committed to jail to answer at Court.

MORE LIQUOR CASES.—Anna Lowris was held to bail on Tuesday by Ald. McMaster for selling liquor without license. The prosecutor was Catherine Wattersen, and the parties live in Birmingham.

Ald. Steel held to bail John Boyle of M'Keesport charged with the same offence by J. L. M'Cook, constable.

EDGARD J. INGERSOLL, the man who recently shot himself and wife at Chisago, was from Mckeesport, in this county. He left that place, in February, 1853, where he had for seven years before been clerk in the store of Mr. John Rowland, who then gave him a letter of recommendation, endorsed by Rev. N. West, certifying to his correct habits and good character.

HABEAS CORPUS CASE.—Samual J. Stewart, who was committed to prison some days since for having in his possession a quantity of counterfeit money, was released yesterday on a writ of *habeas corpus*.

He is still, however, held in custody as a fugitive from justice from Philadelphia.

In our columns of to-day will be found advertisements of Two Novelties. An American Watch and a machine that will sew as by hand. The first will appeal to our patriotism to advance the manufactures of our own country, and the other, to our sympathies for the relief of our overtasked women.

THE Panorama of New York City exhibits this afternoon at 3 and this evening at 7½ o'clock. We passed Masonic Hall last evening as the crowd were coming out and we could not but think the capacity of Hall must have been fully tested.

ALL the Traverse Jurors of the U. S. Circuit Court, except those sitting in the ejectment case of Hoffman vs. Ross et al., have been discharged. We mentioned yesterday that this case will occupy the Court for the remainder of the term.

DAMAGES.—An award of $4,500 was made against Pennsylvania Railroad Company, recently, by a jury in Lancaster county, for injuries received by a passenger. Considering the great travel on the road, the accidents have been remarkably few.

WE understand that it is the intention of Mr. Daniel Scurbeck, the popular landlord of the Railroad Hotel at Alliance Ohio, shortly to resign his House to Nov. Pogalow.

PITTSBURGH, Nov. 14th, 1855.

MISS MATILDA HERON: The subscribers, desirous of giving you some proper testimonial of their personal esteem, as well as appreciation of your talents and accomplishments as a dramatic *artiste*, take this method of tendering you a *complimentary benefit*, previous to your departure from our city, at the earliest opportunity your disposition and engagements will permit.—We would also request, if convenient and agreeable to yourself, that on that occasion, you repeat your great character of Camille.

Truly and Respectfully Yours,

PITTSBURGH, Nov. 14, 1855.

GENTLEMEN: I am in possession of your letter. The compliment it conveys to my efforts and humble talents, as far excels my merits as the task to thank you with becoming grace, exceeds my poor ability. I am backrapt in words, and cannot speak the thanks I feel,—yet feel them not the less. I pray you will accept such as my pen now offers. Friday night next, Nov. 16th, has been set apart for the benefit you propose, when I shall personate the character of Camille positively the last time during my present engagement.

Believe me, gentlemen, with much respect,
Gratefully and truly yours,
MATILDA HERON

To Messrs. Ferd. E. Vols, Wilson McCandless, A. B. M'Calmont, T. J. Keenan, &c.

VARIETY WORKS.—We are daily startled with the new announcements of the daring enterprize and successful acchievements of Col. Alden, in connection with the unrivalled Corn Sheller. And we are but little less surprized at the enlarged plans and energetic operations of Messrs. Warwick, Atterbury & Co., who are associated with him, and have recently leased the extensive Glass Works buildings formerly occupied by Bakewell, Pears & Co., at the corner of First and Water streets. They stand out prominently in view of the whole steamboat landing and the Monongahela House, the first object that strikes the attention of the multitudes of business men upon our extended wharf, and who crowd that great Hotel, the most eligible site within the entire boundary of the city. These gentlemen are about to manufacture the great Corn Sheller by thousands, and other articles in great variety, such as scales, locks, latches, &c., &c. Their prospects are exceedingly flattering, having a large amount of orders for the great Corn Sheller, and the promise of sufficient custom for all other articles of their manufacture.

These gentlemen bring to bear upon the enterprize in which they are engaged an acknowledged skill of the highest order, and as energy that will brook no obstacle that may be found in their way. Their establishment is easy of access, and their commodious buildings will furnish ample space for hundreds of hands, and a vast amount of materials and work, while the rapid and extensive distribution of the corn sheller all over the United States and the Canadas with its name upon them will give an unprecedented celebrity.

ENGLISH editions of books of great original merit, and elegantly illustrated volumns, are embraced in the collection to be sold this evening at Davis' auction rooms. The lovers of "books which are books" should call during the day and examine before sale, the attractive display of fine old authors.

THE track on the Indiana Branch is laid as far as the Blacklick bridge, about six miles from Blairsville. The bridging is now completed, and by the first of the track will be pushed along as fast as the weather will permit.

WE are requested to invite attention to the large sale of real estate and valuable stocks, to be sold this evening, at the Merchants' Exchange, by P. M. Davis, auctioneer.

THE REV. Andrew Hopper, lately returned from Hong Kong, China, where he has been engaged as a missionary for the past ten years, preached last evening at the First Presbyterian Church.

THE report circulated and just published by the *Journal* that William Bennett has been nominated for Mayor by the Liquor League is flatly denied by members of that Association.

WM. B. CLARK, formerly Weighmaster at the Johnstown Lock, died recently in Armstrong county.

### Indian Summer.

There is a time, just ere the frost
Prepares to pave old Winter's way,
When Autumn, in a reverie lost,
The mellow day time dreams away;
When Summer comes, in nursing mind,
To gaze once more on hill and dell;
To mark how many sheaves they bind,
And see if all are ripened well.

With benly breath she whispers low,
The dying flowers look up, and give
Their sweetest incense, ere they go,
For her who made their beauties live.
She enters 'neath the woodland's shade,
Her zephyrs lift the lingering leaf,
And bear it gently where are laid
The loved and lost ones of lis grief.

At last, old Autumn, rising, takes
Again his sceptre and his throne,
With boisterous hands the tree he shakes,
Intent on gathering all his own.
Sweet Summer, sighing, flies the plain,
And waiting winter, gaunt and grim,
Sees miser Autumn hoard his grain,
And smiles to think its all for him.

## TELEGRAPHIC.

The question of electing delegates to the Boltere American National Convention in Cincinnati on the 30th of November opened the subject of Slavery and several members opposed the sending of delegates. PHILADELPHIA, Nov. 14.—A moderate inquiry for Flour at the decline noted yesterday and further sales of 200 bbls standard brands made at $9,25 per bbl including 200 bbls extra family at $9,75, a fair demand for home consumption at the range of the same quotations. ## COMMERCIAL.

COMMITTEE OF ARBITRATION, FOR NOVEMBER. GEO. W. CASS, V. P.—WM. PHILLIPS, D. M. CANDLESS, JNO. A. WILSON, REESE J. THOMAS.

### PITTSBURGH MARKETS.

PITTSBURGH GAZETTE OFFICE }
Thursday Morning, November 15, 1855. }

FLOUR.—Sales of 204 bbls super on wharf at $8,00, which is a shade lower than yesterday, and 50 bbls family extra at $8,87½.

GRAIN.—market firm and unchanged; sales at Canal of 200 and 300 bus Rye at 85; Corn, 500 bus Ear to arrive at 60, and 1000 sks Tennessee Wheat to arrive, at $1,87½.

ASHES.—a sale of 9 bxs Pearls at 7¾, which is an advance.

SALT.—sales of 100 bbls No. 1 at $1,62½ and 75 do extra at $1,75, cash.

### MONETARY AND COMMERCIAL.

The shipments east last week were 16,450 bbls flour, 1273 bbls. pork, 295 bxs candles, 130 sks flaxseed, 744 pkgs mixed, 50 do dried fruit, 331 rolls leather, 282 sks feathers, 423 bbls apples, 415 sks wool, 87 cars stock, 1464 sks feed, 5666 sks Rye, 7655 do Wheat, 403 do Oats, 1046 bbls White Fish.

The Foreign Exchange market is in a very depressed state. Large amounts of bills are on the market, while the demand is quite limited. Francs are especially plenty. Rates are ½ to ¾ cent lower than for the last steamer. The leading drawers of sterling bills, best and good bankers' signatures have sold at 9½ cent, and good bankers' signatures have sold less. Thirty first sight. Produce bills with bills of lading are very dull at 9¾ cent. Produce bills with bills of lading for irregular and almost unsalable at 9¾@9¾ cent. Sight drafts, 10 cent. Francs 5.18¾. Gold is still in demand. It is anticipated from the anxiety of sellers and the necessity of buyers that it will soon become comfortable. The prosperity, now many months, has been so great as to create a plethora in the conditions of the country and a consequent stringency in the money market. There is nothing in the condition of the country or the prospects of the future to justify the apprehensions of the present prostration of credit.—Phil. Ledger.

Closing rates for the principal articles to-day as follows: Hemp $150 per ton; Flaxseed, $1,65 per bushel; Lard, 11 to 12c; Tallow, 9 to 9½c; Butter, 18 to 20c; Eggs, 20c per dozen; Potatoes, 50 to 70c; Onions 60; Apples, $2 per bbl; Peaches, $2 per bbl; Hay, $20 to $22 per ton; Oats 37 to 38c; Rye 80 to 85c; Corn 60 to 65c; Wheat, $1,90 to $2,00; Flour, $8,50 to $9,00 per bbl; Pork, $15 to $16 per bbl; Bacon 11 to 12c; Hams 12½; Potatoes 50 to 70; Onions 60.

The receipts of Wheat has been severely tested by liberal receipts, the amount brought forward this week being 30,000 bushels, against 20,000 bushels last week, being 10,000 bushels more than can be consumed by the mills. The grain qualities the decline may be stated at 8 to 10c, and probably 10 to 12c. Country purchasers are in good attendance and continue, and city manufacturers buy largely. At the close but little left over.—St. Louis Republican, Monday.

The receipts of flour up to Saturday last at Cincinnati were 183,747 bbls, counting from Sept 1st, against 78,089 last year. Wheat 653,129 bus, against 42,008 last year. Rye, 60,985 bus, against 6041 last year. The receipts of corn to same date were 1,150,208 bus., Wheat 423,531 bus and Rye 123,940 bus.

RECEIPTS OF BREADSTUFFS.—The North River and Canal boats yesterday brought into this city 27,000 barrels of flour, and 20,000 bushels of Wheat besides other provisions and produce. The receipts of Rye for the week are light, stocks, which were augmented to 9,000 bushels. These arrivals are very heavy, but the daily receipts of Breadstuffs for the last week have been less than what was expected. Many of the Canal boats have turned at Albany to make their last trip for the season.—Albany Journal.

Receipts have fallen off very much within a few days, and there is but little Grain with which to freight the large fleet of vessels here at present. Prices are dull, and the market unsettled for wheat though a sale of 10,000 bushels is reported for Spring, and majority of the sales are at $1,87 on board.—Chicago Tribune.
