☞The Pittsburgh Weekly Gazette.—The extensive circulation of our *Weekly Gazette* offers to our business men a most desirable medium of making their business known Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop-keeper in Western Pennsylvania and Eastern Ohio.

☞To Advertisers.—Neither the Editorial Room or Printing Establishment of the *Daily Gazette*, are opened on Sunday. Advertisements whose their notices to appear in the paper on Monday morning, will please hand them in before 5 o clock, on Saturday.

Reading Matter on each page of this paper.

THE AMERICAN CONVENTION AT CINCINNATI.—We copy from the *Cincinnati Gazette* a suggestive article on this subject. That paper supports the platform adopted, which it pronounces the ultimatum of the Northern National Know Nothings to their Southern brethren, which, if not adopted, will lead to another disruption and secession, and it advises the *Republicans* to hold a convention at Philadelphia on the day appointed for the meeting of the American Convention, on the 22d of February. The object of this movement is to form a great Northern party, in case the ultimatum of the Northern National Americans is rejected.

We object to this arrangement for several reasons; one is, that the platform of the Cincinnati Convention is not such a one as the Republicans can agree to support or even connive at. Another is that there is no power in any existing body of men to call such a Republican Convention, and the time is too short to make the necessary arrangements. Another is, that the time, circumstances, and place, are not the best for the purpose. There should be time for reflection, discussion, and an expression of opinion on the part of the people after the results of the Philadelphia American Convention are known.

We agree with the Cincinnati *Gazette*, that it was an object greatly to be desired to unite the whole Opposition into one party for the Presidential contest, and that unless the Republican party can be brought into the support of the opposition candidate, he cannot be elected. The American party, unaided, will meet with a signal defeat. Here we agree. This places the Republican party in a position of immense power and responsibility, and for one we are anxious it should use its power so as to bring no reproach upon the noble cause it advocates.

We are ready and willing to recommend and practice conciliation, but demand to be met on equal terms. If defiance and scorn is hurled at us, we must resist it. If fair play is proffered we are ready to listen to it, and give it all the weight it deserves.

If there is an honest disposition to unite the anti-Nebraska sentiment of the North into one compact body, supporting one candidate, at the next Presidential election, there cannot be a very great difficulty in accomplishing it, but it cannot be done on the basis of the majority platform adopted at Cincinnati. How it *can* be done we will try and show in our next.

THE POPE TO THE AMERICAN BISHOPS.—Pope Pius has addressed a letter to the Archbishops and Bishops of the Province of New York, in which he proposes the establishment of a College at Rome for the education of American priests. We quote:—

"But that you may provide more easily for the wants of your dioceses and may be able to have skillful and industrious laborers who can help you in cultivating the vineyard of the Lord, *our most earnestly wish*, as we already have intimated to some of your order, (who to our no common gratification were here in Rome on the occasion of our dogmatic definition of the Immaculate Conception of the Mother of God,) *that* comparing your advice, and uniting your resources, *you would please to erect in this our fair city of Rome a college appropriated to the clergy of your nation.* For your wisdom will instruct you how great advantages may redound to your dioceses from an institution of that kind.

Because, by this arrangement, youth, chosen by you, and sent hither as the hope of religion, will grow up as in a nursery, and imbued here with piety and with an excellent education, and drawing from its very fountain a doctrine incorrupt, and learning the institutes, and the rites and holy ceremonies in the method of the Church, which is the mother and mistress of all others, when they return to their country, will be able properly to discharge the office of a parish priest or of a teacher, or as a professor, and to shine as an example of life to the people, to instruct the ignorant, and to bring back the erring to the paths of truth and justice, as well as, by the armor of sound doctrine, to confound the madness and refute the fallacies of men of guile. If you will ratify this our desire, which looks only to the spiritual good of those regions, we certainly, as much as lies in us, will not omit to assist you with all diligence, that you may establish the said College."

The N. Y. Evening *Post* sarcastically remarks on the letter as follows:

"The letter is nearly a year old, but is for the first time published in the Freeman's Journal this week. But for the date, we might have suspected the Pope had seen the application of our Board of Education this year for over a million of dollars for school money, and had concluded that this must be a good place to beg for ecclesiastical purposes."

The N. Y. *Commercial Advertiser* speaks as follows:

"We have called this letter an edict, because it is well understood that a wish from the Pope obtains the same obedience as a command, when addressed to the faithful" Romanists. It is evident that the Romish See begins to entertain serious apprehensions of its power to maintain its wonted strictness of discipline over even the clergy educated in Romish schools in the United States, and hence the desire to establish a college in Rome for the special training of minds of pupils can be more rigorously moulded and enslaved than in any establishment in a land of liberty and light.

The Freeman's *Journal*, in the very article in which it exults over the Pope's letter, admits that no more than one in ten of those inhabitants of New York who are Romanists by baptism, are in the habit of listening to the Romish priesthood; and there can be no doubt that the proportion is even greater among the Romanists by baptism in other parts of the Union. Hence the new effort proposed to train up more humble and influential class of Roman pastors who may be better able to keep the flock together."

No clearer admission could have been made that the liberal atmosphere of America is inimical to the mental and religious slavery required by the Romish church, than in this letter of the Pope. It also shows that the Pope and his advisers are thoroughly ignorant of the character of our people and the nature of our institutions. The only way in which the Catholic church can hope to succeed in this country is for it to submit to a sufficient liberalization to adapt it to the training and liberal ideas of American Catholic growth in all matters pertaining to government and personal rights. Priests educated in that sink of superstition and idolatry, Rome, where the people are thoroughly degraded by the teachings and government of Romanism, will be ill adapted to the position of pastors over a people educated in common schools, possessing the right of suffrage, and early taught that self-reliance which naturally leads to independent investigation. It is evident that Romanism cannot stand the light and influence of a free government and free thought.

GODFREY MONCTON; OR THE FAITHLESS GUARDIAN. By Susanna Moodie, author of "Roughing it in the Bush," "Mark Hoddlestone, *etc.*—Published by De Witt & Davenport, New York.

Those who are acquainted with Mrs. Moodie's previous works, particularly the two mentioned above, will need no introduction to this new effort of the gifted author, which is pronounced by some who have read it, the best work from her pen, and the most brilliant novel of the day. The scene is laid in England, and the title sufficiently indicates the nature of the plot. The characters are strongly drawn and evince much knowledge of the springs which govern human action, when not restrained by religious principle. The work is published simultaneously in this country and in England, and will no doubt have a large sale.

ANOTHER RICHMOND.—An effort is making at the south-west to bring forward EDWARD BATES, of St. Louis, for the Presidency. Whose candidat he is to be, does not appear. There is no National Whig party to take him up; he can hardly be classed as a Republican; he is not a member of the American order; and most certainly does not belong to the democratic party. What party is to adopt him?

Mr. Bates is a man of sound mind and judgment; but he is a man of negative rather than affirmative qualities. He is not a slaveholder although living in the South; he is not an ultra and is not identified with any prominent political movement; he was opposed to the repeal of the Missouri compromise, but is not in favor of putting limits to the spread of slavery: and he is one of those quiet, conversative men who would have few assailable points as a candidate, but might prove exceedingly objectionable in office. There are several men in this nation whom we would rather see elected President than him; but there are many others, who are aspirants, to whom he would be infinitely preferable.

Hon. THEODORE G. HUNT, of the New Orleans district, voted against the Nebraska bill in the last Congress, and was a candidate for re-election. The following is the vote by which he was elected two years ago, compared with the vote he lately received.

1853.		1855.

Davis, D.	5446	Taylor, D.	6319
Hunt's maj.	1109	Taylor's maj.	342

That is the way they serve men in the South when suspected of the least feeling in favor of liberty. If the North punished *her* suspected children that way, how would be fewer of them.

THE PLATTE CITY OLIGARCHY.—Platte City is an *imperium in imperio*—a State within a State. It is the home of David R. Atchison, whence that delectable impersonation of the Missouri statesman concocts his schemes of cruelty, issues his ukases, and sends forth his janizaries to tar, feather, whip, and hang every man who happens to stink in Mr. Atchison's nostrils.

Mr. Atchison is a man of expansive ideas of dominancy. Not content with ruling Platte City, he meditates the annexation of Weston and Parkville to his empire. One day last week, the citizens of Weston, not relishing the idea of having their domestic affairs intermeddled with, their streets patrolled, their persons watched, their steps dogged, and their neighbors lynched Mr. by Atchison's Platte City band of Regulators, held a meeting to pass a declaration of independence, and assert their rights to life, liberty and the pursuit of happiness." They had a perfect right to hold the meeting, and no one had a right to interrupt them. But they *were* interrupted. While the men were peacefully consulting, a band of fifty armed men from Platte City came in upon them and tried to overawe them into an abandonment of their design. Was such an outrage ever been heard of before, in a land of freedom? (Yes: in Kansas.)

The bullying of the Regulators did not succeed, however. The citizens of Weston were men—men of nerve and muscle, men of stout hearts and resolute spirits. They quailed not and flinched not. They loved law and order, but they loved their rights, too, and were determined to maintain them, even if they had to baptize them in blood. They proceeded with their meeting and adopted their resolutions.

A day or two after the Weston outrage, the Platte City band returned to Parkville, to hang George S. Park for returning to his home, after they had driven him off. But the citizens of that place resolved to defend Park, and had defended him up to the time when we last heard from there. We gave an account of what was done at Parkville, in our paper yesterday.—*St. Louis Intel.*

THE PARDON OF DR. BEALE.—It appears that Mr. Beale, of Philadelphia, who has just been pardoned by the Governor of Pennsylvania, has served out very nearly one year of his term of four years and six months, commencing on the 28th of November last. The Ledger says:

"The pardon states the reasons which induced the Governor to extend this favor. He had received communications from about one hundred and forty dentists and twenty-three physicians; of this city and the country, stating their belief that testimony as to matters transpiring under the influence of ether is unsafe and unreliable from a number of cases named, that they believe him innocent; from a large number of the bar, and citizens of various States, including the names of Governors, Attorneys General, &c., that they believe he was convicted on insufficient thestimony from a number of clergymen, that they believe him innocent; from the Mayor of Philadelphia, and fifty members of the Philadelphia City Councils; from members of the Legislature, Judges of the Supreme Court, editors of Philadelphia newspapers, and five thousand other citizens of Pennsylvania and New York, with five of the jury on the trial, all asking for his pardon.

After enumerating all these facts, the Governor says the inspectors of the county prison have unanimously recommended the pardon, for various reasons, among them the failing health of the prisoner, and the destitute condition of his aged parents and sorrowing wife and children. Finally, the Governor declares for himself that, after careful examination, he is now satisfied that Dr. Beale is *not guilty* of the crime whereof he stands charged, and was convicted upon evidence unreliable in its character and insufficient in amount."

GERMAN IMMIGRATION, which has been one of the main sources of the foreign influx in to the free States of the North, has, of late years, been diverted somewhat to Southern ports. Large numbers have arrived at New Orleans, and from thence proceeded up the Mississippi river to various points in Missouri. But the most systematic effort of the kind has been the introduction of ten thousand immigrants into Texas by a single corporation, called the German Emigrant Company. This Company was to be reimbursed for its outlay by the sale of lands granted to the colonists, and the alternate sections reserved from settlement by immigrants. Prompted by this inducement, it chartered some thirty vessels, which, in the years 1854 and 1855, have conveyed the immigrants from Germany to Texas. It has expended more than $600,000 in providing for the immigrants, $120,000 for the cost of surveying and dividing the lands. But while the Company was thus fulfilling its stipulations the Legislature has withdrawn the land grants. What has caused this we do not know, but it appears pretty evident that the slaveholders of Texas do not like the Free Soil predictions of the Germans. Much has been said concerning this by partisan orators and newspapers, and the fact is entertained that when Texas shall be divided these Free Soil Germans will outnumber the slaveholders, and thus form a free State.

THE Convention in Kansas to frame a State Constitution, have adopted as qualifications for a voter, that he must be a free white male citizen of the United States, over twenty-one years of age, resident six months in the territory, thirty days in the county, and ten days in the precinct, and the payment of a tax, assessed within the year, at least ten days before the election. Another section disqualifies duellists from holding office. The population of Kansas is believed to be about thirty-five thousand, with a large stream of emigration flowing in, so that it will soon be qualified for admission into the Union.

WE understand that it is the intention of Gov. Reeder whether successful in obtaining a seat in Congress or not, to become a permanent resident, with his family, in Kansas. On Thursday of last week he made a speech at Allentown, Penn., reviewing the history of Kansas; and denouncing the weakness and duplicity of the administration. He happily characterized the new creed of democracy; concerning Kansas affairs, as that of "invader sovereignty," and protested against its incorporation into the Democratic creed.

Three years since the introduction of Helmbold's Highly Concentrated Extracts, and not a single instance of a failure has been reported in the various cases in which they are employed. They have produced the most salutary and beneficial effects. We refer you to his agents. Their recommendation, combined with the most distinguished physicians, and certificates from patients, which will be found accompanying each preparation, is the strongest evidence which can be produced. See advertisement Helmbold's Genuine Preparations. nov27

To Nervous Sufferers.

A retired clergyman, restored to health in a few days, after many years of great nervous suffering, is anxious to make known the means of cure, and will, therefore, send (free) the prescription used. Direct Rev. JOHN M. DAGNALL, 56 Fulton street, Brooklyn, N. Y. nov10-2mos&wis

Helmbold's Fluid Extracts have more than received the praise of patients, they have met the approbation of the medical faculty wherever they have been introduced; a trial will satisfy the most skeptical of their curative powers. See advertisement Helmbold's Genuine Preparation. nov13-dw

SPECIAL NOTICES.

Liver Complaint—This dangerous and often fatal disease had long baffled the skill of the most eminent physicians, when the discovery of Dr. M'Lane's Liver Pills solved the difficulty, and presented to the world *the Great Specific* for that complicated malady, which has attained such widely spread celebrity for its certainty of cure. This successful remedy was the result of many years' study, in which the symptoms were accurately observed, and are thus described by the Doctor himself:

"*Symptoms of a Diseased Liver*—Pain in the right side, and sometimes in the left, under the edge of the ribs—the patient being rarely able to lie on the left; pain sometimes under the shoulder blade, frequently extending to the top of the shoulder—often mistaken for rheumatism in the arm; sickness of stomach, and loss of appetite; bowels mostly costive, but sometimes alternate with lax; dull heavy sensation in the back part of the head; loss of memory, with uneasiness of having neglected something; sometimes dry cough, weariness and debility; nervous irritability; feet cold or burning, and prickly sensation of skin; low spirits, lassitude, with disinclination to exercise, although satisfied it would be beneficial. In fact, patient distrusts every remedy."

Have you any, or all of these symptoms? If so, you will find a certain remedy in Dr. M'Lane's Pills.

☞Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public. Dr. M'Lane's Liver Pills, also his celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States, and Canada.

The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cure *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth

One to three bottles will cure the worst kind of pimples of the face.

Two to three bottles will cure the worst system of blles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the system.

Two bottles are warranted to cure running of the ear and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Two to three bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so impressable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure *every* humor in the system: yet it is now a fixed fact. If you have what you consider a bad humor, there are no words, hands or ink about it suiting some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in all these cases. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, downy looking children, as the flesh now colored and flabby, restored to perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief to catarrh and dizziness. Some who have been afflicted with it for years, have been regulated by it. Where the body is sound, it work quite easy, but where there is any derangement of the functions of nature, it will cause very singular sensations, but you must not be alarmed—they will very disagreeable from four days to a week. There is never a bad result from it. On the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extraordinary encomiums of it that man ever listened to. No change of diet is ever necessary—eat the best you can get. I have likewise an herb, which, when steamed in sweet oil, dissolves tumorous swelling of the throat and can be seen the same day. Price 50 cents. Prices of the Medical Discovery $1 per bottle.

DIRECTIONS FOR USE.—Adult, one table-spoonful pe rson each day. Children, eight years, one teaspoonful; from five to eight years, tea-spoonful. As no direction can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

Mr. KENNEDY gives personal attendance in bad cases of scrofula.

Sold, wholesale and retail, at Dr. KEYSER'S, 140 Wood treet, corner of Virgin alley.

"A thing of beauty
Is a joy forever."

So sang the gifted poet Keats. What can be more beautiful than a fine head of Hair, that noblest of nature's adornments. Who that is young, but values the luxuriant locks of youth, and would preserve them; and who that is old but would avert baldness. To all such we would commend LYON'S KATHAIRON, universally acknowledged to be the most valuable and the most delightfully perfumed toilet article ever prepared. Be sure and ask for LYON'S KATHAIRON, to guard against the valueless imitations and counterfeits, which have lately been put up under somewhat similar names. The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cure *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth

One to three bottles will cure the worst kind of pimples of the face.

Two to three bottles will cure the worst system of blles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the system.

Two bottles are warranted to cure running of the ear and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Two to three bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so impressable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure *every* humor in the system: yet it is now a fixed fact. If you have what you consider a bad humor, there are no words, hands or ink about it suiting some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in all these cases. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, downy looking children, as the flesh now colored and flabby, restored to perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief to catarrh and dizziness. Some who have been afflicted with it for years, have been regulated by it. Where the body is sound, it work quite easy, but where there is any derangement of the functions of nature, it will cause very singular sensations, but you must not be alarmed—they will very disagreeable from four days to a week. There is never a bad result from it. On the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extraordinary encomiums of it that man ever listened to. No change of diet is ever necessary—eat the best you can get. I have likewise an herb, which, when steamed in sweet oil, dissolves tumorous swelling of the throat and can be seen the same day. Price 50 cents. Prices of the Medical Discovery $1 per bottle.

DIRECTIONS FOR USE.—Adult, one table-spoonful pe rson each day. Children, eight years, one teaspoonful; from five to eight years, tea-spoonful. As no direction can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

Mr. KENNEDY gives personal attendance in bad cases of scrofula.

Holloway's Pills, a certain Remedy for Indigestion and Liver Complaints—MARTIN ARMSTRONG. (27) of Kidderton, New Jersey, suffered more than most people from indigestion, accompanied by liver complaint, several very clever medical men told her she was in a consumption, and her friends despaired of her ever recovering. Certificates, Business Cards, &c. All orders sent by mail promptly attended to. Persons wishing views of their buildings can have one send a Daguerreotype or Sketch of the Building by mailor express.

Persons at a distance having miscellaneous articles would find obscure matter, and thoroughly cleansed and renovated at the system. The result is that she was perfectly cured, and is now enjoying the best of health. These Pills are also a certain cure for all diseases of the stomach and bowels. no21-1tw7

Important to Farmers—New Discoveries—VEGETABLE CATTLE POWDER.—These Powders are put up in one pound packages, and will keep in any climate. Cattle, sheep, swine, horses, &c., are liable to various diseases, only for the diseases incident to horses, cows, swine, and other animals, but they are likewise an excellent article to improve the condition of the animal.

For *Milch Cows*, these powders will improve the condition of milch cows, but they increase the quantity as well as improve the quality of milk and butter. The proprietors say that it increases the quantity of butter from half a pound to a pound a week to each cow, while those persons who have tried it say a pound and a half to two pounds per week, with the same kind of feeding as before. Or one thing we are certain, all who use it once will use it all the time, and save money by the operation as well as improve the appearance of their stock. Price 25 cts. a paper; 6 papers for $1.

Speaking What They Know.

These gentlemen take pleasure in testifying in regard to R. A. Fahnestock's Vermifuge, because two of the firm have used it in their private practice as physicians for a number of years, and they have known its worth, and can recommend it to be

To R. A. Fahnestock & Co.

GENTLEMEN—Having sold your valuable Vermifuge for some time, and having seen it used for many years, we would recommend it to all as a safe and efficient remedy for all cases of worms. In no instance have we ever seen any evil results following its administration, but always seen it answered the purpose for which it was intended, and been entirely satisfactory.

Believing that everything that has been set forth in regard to its virtues is strictly in accordance with our observations not only as practitioners, but as men of business, we recommend it cheerfully to all who read this, that it is the best Vermifuge now in use, and that its virtues are best known when tried.

Dr. Urban's Anti-Bacchanalian Elixir,

a safe and sure remedy for the cure of INTEMPERANCE. A committee of physicians have tested its merits in this and qualled. For the following complaints it is a most valuable medicine: *Dyspepsia; Liver Complaint, Epilepsy, Neuralgia, Pains, Fears of all kinds, Delirium Tremens, General Debility, &c.* The medicine is intended to penetrate a change in the system, and a distaste for alcoholic drinks. Several instances where we have sold it, we have had the most gratifying results, as persons who are really desirous of breaking off the habit of intemperate drinking, by the use of this elixir will be a great help. Sold at $3 per bottle at the Drug Store of Dr. GEO. H. KEYSER, No. 140 Wood street, corner of Virgin alley, sign of the Golden Mortar
