The Union of the Critices of Parkville. The St. Louis Democrat says:

"Much discussion took place on the streets, and the sincere opponents of slavery aggression in the American ranks, and the Republicans, can act together is the next Precidential contest. We proceed now to redeem that promise.

There are two classes of Know-Nothings in the North. One class we will denominate, for the seake of precision, National Americans, which includes the Hindeo party in New York under the lead of Brooks, Barker and the Albany Register. The other class we will call Liberal Americans, which is represented by Spooner, Ford and Griswold of Ohlo, Wilmot of this State, and other leading mes. This class ambraces at least three-fourths of the Americans in Western and Northern Pennsylvania, is Ohlo and other western States, and in New Rogland. We look upon the platform adopted at Cincinnati, as the expression of the views of the Northern National Americans. It is an attempt to unite the Northern and Southern Known in the sincer of Parkville. The St. Louis Democrat stays:

It is easil that he will bring instructions to protest whementy against the payment of the drafts now possessed by the holders upon the Treasury—and further, that Grabulla Gadden has entered the Sold against these drafts, and has written to the State Department, that if the balance of the Messillation family be not paid to the present Government, not another foot of territory will be ceded to the United States. This initiation is, of importance, because it furnishes proof, or at least trong evidence, that the American Minister reven says negotiating with the Government of Alvares, for another strip of Mexico.
