F. E. ROBINSON & S. H. ROPER,
BY HOWARD & DAVIS, BOSTON.
THIS Machine actually sews; uses but a single thread; performs its own needles, and takes every variety of stitch, setting each loop or chain. The stitches are formed the same as in hand Sewing, and, except in the perfection of their accuracy and regularity, cannot be distinguished from hand work. The work is performed with at least six times the rapidity, while being of vastly superior quality to the best Hand Sewing.
