NUNNS & CLARK'S PIANOS.
FRESH STOCK.

HKLEBER & BRO. have now on the way, and partly received, a complete and choice stock of PIANOS from the Factory of NUNNS & CLARK, N. Y. These are provided with all the late and important improvements which distinguish NUNNS & CLARK'S Pianos above all others, viz: *The Overstrung, Full-covered Hammers, French Grand Action, &c., &c.* Every Piano is *fully warranted*, with the privilege to the purchaser of returning the same if it proves in any way defective.

Testimonial from W. STRAKOSCH, the unrivalled Pianist:
CINCINNATI, Nov. 19th, 1855.
Messrs. H. Klebler & Bro., Pittsburgh:—GENTLEMEN: Permit me to thank you most sincerely for the magnificent Grand Piano of Messrs. NUNNS & CLARK'S manufactory, which you have been so kind as to loan me for Miss Teresa Parodi's Concerts in your city. This superb instrument is one of the very best ever made in America, and for sweetness and power of tone, as well as solidity of construction leaves nothing to be desired. I really congratulate its future owner, who shall be so happy as to possess one of the masterpieces of American industry. With many thanks, yours truly,
Your obed't serv't, MAURICE STRAKOSCH.

Warren's Improved Fire and Water Proof Composition Roofing.

HAVING been for the last eleven years extensively engaged in the manufacture of the above roofing, now must send in all the principal cities of the United States, which time it has been tested under every variety of circumstance, and been invariably found answer all wherever experience showed that it could be done and as a cheap, durable and fire proof roof, recommended by the Legislature to do a job in this city in 1845, and again to cover the Custom House Depository in 1854, for locks of which the city transported our men and materials from Philadelphia free of charge; we have been induced to open a depot for the sale of the same, and being prepared to fill orders to any extent, we confidently offer our roofing to the citizens of Pittsburgh and vicinity as the cheapest, most durable and perfect protection against both fire and water, that can be put on for the same money.

The best pitch for this roofing is from one-half to one inch to the foot—but we can furnish it for any pitch, and where so apply it to a much greater pitch, even to or six inches to the foot. Those having leaking roofs of any kind can have them repaired in a workmanlike manner, with the certainty of having good tight roofs. We append the testimonials of some of our roofs, which may be examined, for further information and reference. Please call at our office, No. 24 Fifth street, Pittsburgh.

CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE.

THE subscribers offer for the consideration of the public, the above named FURNACE, designed by the Patentee to obviate the objections existing in itself all the desirable qualities requisite in a perfect heating apparatus. Almost all persons have experienced any of the disagreeable sensations or sorrow of annoyance so common in furnace arrangements. While the occupants of a room or building are comfortably warm, existing from a warm summer atmosphere, they also inhale the impure breathing and health sustaining principle necessitated by being carried from flame, unhealthy sources, or by passing through a heated iron chamber, to contact with as over heated surface.

The Chilson Furnace obviates these objections, by constructing the furnace in such a manner that the heat is diffused at a lower temperature than is usual with any other furnace now in use. The heat is taken from the fire to eight drills or other object of great importance is obtained by the saving of fuel, and the heated air is purified by the process. It is proved that the heat is almost entirely surrounded by a current of cold air, which passes over the fire, and thereby greatly reducing the consumption of fuel. The air is also supplied with moisture and fire brick that the fuel cannot come in contact with the over-heating of the air, and destruction or injury to the furnace.

The points of the Furnace are so constructed as to effect more complete combustion of the fuel, and thereby prevent the escape of smoking and sooty gasses into the room, or through the chimney of the occupants, and so injurious to the health and furniture.

The air to be warmed is taken directly from the outside of the building in all cases, the insuring a supply of pure and healthy air. The Chilson Furnace is also a perfect ventilator, as four hundred cubic feet of air per minute will be heated over the fire and received into the room, while a like quantity passes out of the room, large orders for which, the subscribers will be handed over to the purchaser. All the machinery is fitted up in the most substantial manner, and warranted to give satisfaction.

Pittsburgh, Dec. 8, 1855.
WM. THAW.

From Rev. Jos. P. Taylor, Rector Trinity Church, Pittsburgh.—Messrs. Thaw and Fleming: I have used Chilson's Furnace for the Sunday School for Boys.

Messrs. Williams & Allen have put up at Harwood & Chilson's Furnace No. 6, which in operation exceeds my most sanguine expectations. It successfully warms seven large rooms, and the hall through which they pass, and (as I burn slack in it,) is supplied with fuel at a cost of 10 cents per day.

Extract from a letter to Dr. McCabe of Wheeling.

We have placed in the First Presbyterian Church three of Chilson's Furnaces, which were put up by Messrs. Atwell, Williams & Allen, and with the highest satisfaction. Messrs. Williams & Allen, we think they are the best Furnace now in use. We will here add, without objecting the fact, we have no doubt they deserve the high encomiums placed upon them. We have used them after a perfect manner, and have found the furnaces now in use, and give them the deeded preference.

AYER'S CATHARTIC PILLS,

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver and other organs of the digestive system, restoring their irregular action to health, according to the dose, when they become the cure of all the diseases of disorders in man.

Cathartic Pills are extensively used by physicians in their practice, as they know their composition and virtues, and that they may be relied upon for the cure of the most dangerous disease assuming the worst forms, when all other remedies fail. Even where no serious disease exists, they produce such a change of action in the system as to restore health and vigor to the body. By their property they do so much good in preventing sickness as by the remarkable cures which they effect.

Liver Complaint, Jaundice and all Bilious Affections arise from some derangement of the stomach or torpidity, or obstructions of the liver. Torpidity and congestion of the liver produce many of the most distressing diseases to the health; and the constitution is frequently undermined by no other cause. Indigestion, dyspepsia, and consumption are produced by this affection of the liver. The symptoms of the warm air not making too large demands upon the lungs and respiratory surface of the system to supply the moisture which it has not in passing over it. Let but little moisture be evaporated from the lungs, and certificates of Prof. Silliman, of Yale College, New Haven, and to those of other scientific persons who have examined this subject.

If public and universal approval is any test of merit, the popularity of this valuable Furnace needs no other than the written testimony of thousands, to the press, and to individuals in all parts of the country, it has received from the Prize Medal at the World's Fair, and the Mechanics' Institute Fair of the City of New York, and the Silver Medal at the State Agricultural Fair in Pennsylvania. We add two or three late testimonials.

This winter is the fourth in which one of Chilson's Furnaces has been in use in my house, and I take pleasure in bearing testimony to its many excellent qualities. Having always been satisfied with its operation, I can say a more ample compensation of fuel and requiring scarcely any repairs, I have never seen.

I have no hesitation in recommending it, with the improvements adopted by Messrs. Williams & Allen, to any of my friends in want of a furnace.
