CINCINNATI, Nov. 12th, 1858.

MESSRS. H. KIEBER & BRO.—GENTLEMEN: Permit me to thank you most sincerely for the magnificent Grand Piano of Messrs. Nunns & Clark's manufactory, which you have been so kind as to lend me for Mlle. Parodi's Concerts in your city. This superb instrument is one of the very best ever made in America, and for evenness and power of tone, as well as solidity of construction leaves nothing to be desired. I really congratulate you as well as the citizens of Cincinnati, on possessing in their future owner, a worthy rival of the leading manufacturers of American industry. With hearty wishes for your happiness, I remain,

Your obt. servant, M. STRAKOSCH.

Warren's Improved Fire and Water Proof Composition Roofing.

HAVING been for the last eleven years exclusively engaged in the manufacture of the above roofing, now unreserved in all the principal cities of the Union, during which time it has been tested under every variety of circumstance, and been improved and perfected by every experience showed that it could be done; and of stronger assurance than all the Permanent Satisfaction having been called upon to do a job in this city in 1854, and again in 1857, for the Duquesne Depot in 1854, [both of which stand as monuments of our skill and materials from Philadelphia free of charge] we have been induced to open a branch of our business in this city, and are now prepared to contract for roofing in the most durable, economical and reliable manner, at the shortest notice. Having the exclusive right for this city, we can undertake with confidence to give satisfaction to those who may favor us with their orders. Its cheapness, durability and perfect protection against leaks are most satisfactorily attested by the following certificate:

We, the undersigned, have used Warren's Composition Roofing on the Passenger Depot in 1854, and on the Freight House in 1857, and are entirely satisfied with the manner in which it has stood the severe test of the climate, and consider it the best roofing we have ever used, and cheapest in the end.
