Mr. Wilkins assured him that nothing should be

again; met Gol. Black, who informed him that
the Senate had passed the bill, and that he would
go before the Judiciary Committee the next day,
and have it put through without fail. The
Speaker took a copy of the bill, which he proceeded to read. The members were under the
impression, given by a man named Charlton. impression, given by a man named Charlton, who is there, that our paving law was most oppressive, and had already rained many citizens.

The bill is as follows:

of a system of uniform grades, and had also for a long time borne with the wretched, and at times, impassible condition of their mineral at impassible condition of their principal thorough-fares, and it had been found impossible to effect fares, and it had been found impossible to effect the desired improvement by appropriations from the common treasury, already taxed to exhaustion by the expenditures for Waterworks and other public objects, it was determined by their representatives in Council to submit to a vote of the citizens a project of law to be enacted by the State Legislature, extending to the City Councils the power to authorize the grading and paving of any of the streets, and to levy a special tax to defray the cost thereof, and Whereas, the citizens by a large majority

And, Whereas, under its salutary provisions nearly \$200,000 have been actually arrepended, and a further expenditure of \$10,000 has been deflected without the knowledge, and a caquisseence of the resident population in the wisdom and policy of the existing law, is without a solitary exception known to this meeting, cordial and unanimoust. Therefore,

Besolved. That this meeting disclaims any purpose prejudicial to the interests of those non-residents, owners of large portions of the 24, 3d and 4th Wards, of this city, whose influence has been potential in the Senate, as to hurry the repealing bill through before it had been even heard of in Allegheny—but having built up a large city, by their industry and enterprise; thereby adding hundreds of thousands of dollars to the market value of the property of said non-residents; who are thus enriched in despite of their total exemption from part or parcel of the trials and sacrifices of the citizens. They mind that to exempt these non-residents from that to exempt these non-residents from that the exempt of the content passed off very pleasantly. The experience of Allegheny corroborates that of other cities, and it is further the deliberate opinion of this meeting that the value of the estates now seeking shelter from the law, has been enhanced by the pawment of the approaching and intersecting streets, to an extent five fold all the special taxes to which under the law, it can be subjected, and that, therefore, any Leapproaching approaching to the court of the
