Republican Declaration of Principles.

ADOPTED BY THE PITTSBURGH CONVENTION.

1. We demand and shall attempt to secure the repeal of all laws which allow the introduction of slavery into territories once consecrated to freedom, and will resist by every constitutional means the existence of slavery in any of the territories of the United States.

2. We will support by every lawful means our brethren in Kansas in their constitutional and manly resistance to the usurped authority of their lawless invaders, and will give the full weight of our political power in favor of the immediate admission of Kansas to the Union as a free, sovereign, independent State.

3. Believing that the present national administration has shown itself to be even a tool of that its control is in the power vested with the progress of the slave power to national supremacy, with the extinction of freedom from the territories, and with increasing civil discord, it is a leading purpose of our organization to oppose and overthrow it.

REPUBLICAN STATE CONVENTION.—We learn by letters received last night that Hon. DAVID WILMOT, the Chairman of the Republican State Committee, has called a Republican State Convention to meet in Philadelphia on Monday the 16th of June, for the purpose of choosing delegates to the National Convention and making State nominations.

This is an important and essential step. In the present crisis, with a great Republican national organization going forward, the Republicans of Pennsylvania cannot forego the duty of State organization. It does not follow, however, that, in maintaining their name and distinctive existence, they will feel impelled to make distinctive State nominations.

If the Convention at Harrisburgh, on the 26th, takes the proper ground on the great, overruling question of the day, and puts forward unexceptionable candidates, as we presume and hope it will, the Republican State Convention will, beyond all doubt, take pleasure in co-operating with it.

COUNTING CHICKENS.—There is said to be little wisdom in counting chickens before they are hatched; but the folly of doing so does not seem to restrain the friends of Mr. Fillmore. They are already figuring out his election, and demonstrating, not the possibility, but the probability of his success. The Knoxville (Tenn.) *Whig* thus figures up the chances, allowing to its candidates the vote of the following States:

Vermont	5
Massachusetts	13
Rhode Island	4
Connecticut	6
New York	35
Pennsylvania	27
California	4
Delaware	3
North Carolina	10
Florida	3
Louisiana	6
Tennessee	12
Kentucky	12
Texas	4
Maryland	8
	152

The whole number of Electoral votes is 296, and 152 is a majority of that number. It may be said that we cannot carry all the States named, and that may be so, of some two of them, but of the other *fifteen* States not named, we shall certainly gain one or two. Let our friends hold up their heads, and be of good cheer—our candidates are going in by acclamation.

This is not simply ridiculous; it is preposterous. Vermont was not represented at all in the Convention which nominated Fillmore, not a press in the State advocates his election, and there is not the shadow of a party there favorable to him. The great bulk of the American party in Massachusetts has repudiated him; Connecticut and Rhode Island have done the same; and he has about as much chance of carrying Pennsylvania as he has of being the next Pope. New York is also out of the question, as any politician with one eye can see.

It is no use, however, to argue such a question; the absurdity of the calculation given above is self-evident.

NICARAGUA.—A farmer, from Connecticut visited Nicaragua during the past winter, for the purpose of seeing for himself what inducements there was for settlers from the United States, particularly for farmers and mechanics. Since his return he has given the result of his observations to the public, in the New York *Tribune*. It is altogether unfavorable. The land is fertile, and there is plenty of it, to be had for little or nothing; but the climate is terribly unhealthy for persons from the Northern States of this Union. About one half of the emigrants sicken within a few weeks of their arrival, and a large proportion die after a very brief illness.—Those who recover are left in a debilitated and disheartened condition. The labor of clearing the land is also immense, as the undergrowth is thick, strong and luxuriant. The condition of mechanics is but little better, as there is no demand for labor, and provisions are high. Altogether the picture given is very discouraging.

W. W. WALLACE.—This gentleman is a very extensive manufacturer, in various articles, employing about one hundred hands, and doing a great amount of work by steam. His Grist Mill Machinery, his Steam Engines, his Smut Machines, and his Marble work, such as Monuments, Mantles, etc., are well known to the whole community.

He carries on a most extensive Marble Manufactory, sawing and polishing by steam, and is thus able to supply any demand at short notice, of the best workmanship. His present stock of Mantles, Monuments, etc., got up with good taste, is very large, and deserving the attention of the public. See advertisement.

HARPER'S MAGAZINE for April is thus early to hand. It opens with an article on Israel Putnam, profusely illustrated, and besides this there are four other illustrated articles, including Little Doorit, which is continued. This is an excellent number; but the publisher will permit us to say that the wood-cuts in this and several preceding numbers are not as well executed as they should be. For sale by Gildenfenny & Co., and Miner & Co.

THE REPUBLICAN PARTY of Connecticut is fully organized, and a State ticket has been selected. From among the resolutions adopted, we select the following:

Resolved, That we regard the Republican movement and organization as having been forced upon the country by the unconstitutional and despotic measures and aggressions of the National Administration, and the want of any other party occupying a position suitable for combining public sentiment and rendering it effective for resisting such aggressions, for defending the rights of the people, and vindicating the principles of Freedom.

Resolved, That the recent Convention at Pittsburgh, which first inaugurated the Republican movement as a National organization, was demanded by the circumstances of the country; that its proceedings were patriotic and judicious, and meet our hearty approval; believing that they have already exerted a powerful influence in inspiring confidence and awakening exertions in the cause which the Convention so ably represented.

Resolved, That in view of the present distracted and alarming condition of the country, we see no safety, no way of deliverance except in the success of the Republican movement; and that we earnestly appeal to the people to complete their organizations in every town in the State, and to sustain the Republican cause with an earnestness and zeal commensurate with its importance, and with the momentous issues depending upon it.

FROM TEXAS.—The Galveston Price Current of the 6th inst., says:

"The Dallas Herald, published in the midst of the wheat growing portion of Texas, says that the late unprecedented severe winter has destroyed many of the wheat crops in that region. Those fields that were unmolested by the grasshoppers will generally make good crops, but where the grasshoppers had ate the sprigs to the ground, the continued severe cold weather has killed the germ of the plant. Many fields will make nothing at all.

Cattle have suffered greatly in Texas from the severity of the past winter. Our exchanges from the interior mention that many are dying. Along the coast the loss has been heavy, and many will yet doubtless die from the effects of the weather which they have experienced. We learn that there are more than a thousand carcases of dead cattle strewn along the ground from Bolldead cattle strewn along the ground from Bolivar Point towards the Sabine. This strip of country is open prairie, with no shelter for cattle but the sand hills from the winds and rains. On Galveston Island many have also died."

The Struggle in Kansas.

The following letter, just received from an eminent citizen of Kansas, who lived therein and was trusted by the Government long before the Territory was organized, embodies facts and considerations which the American People ought to understand and consider. It was addressed to the Hon. DANIEL MACE, of Indiana, and with his consent was communicated to the New York *Tribune*, by Mr. Greeley:

"WYANDOT, Kansas, Friday, Feb. 22, 1856.

"SIR: I take the liberty of writing to you again on the subject of affairs in this territory. I fear our friends at the North expect too much from the late treaty with Gov. Shannon. The fact is, it amounts to nothing. Besides, it was made without the knowledge or consent of the people assembled at Lawrence—as proof of which I will state the fact that when Shannon, in a speech to the people there, made known its terms, one man proposed three cheers, but not a single voice was heard in response save his own, and even he made but one feeble huzza.

"The truth is, Sir, as you are aware, the people of the Territory had nothing to do with electing the Legislature whose enactments the Governor and the President are determined to force upon us. For one, I am for resisting this monstrous outrage, be the consequences what they may, for he who does right is not responsible for any evil that may spring from it—that responsibility rests only on those who resist the right. I cannot depict to you the real state of things here, nor have I seen any account in the papers that approaches the reality. We really suffer even greater evils than are usually attendant on civil war, for while we are liable to be murdered or plundered at any moment, if we exercise the common right of self-defence we are threatened with the Governor's posse (*posse Missouri*) and the United States troops. Our citizens are murdered with impunity, our property destroyed or appropriated by our enemies, and we are daily harrassed with insults and threats, and many with personal violence and indignity. The people of no conquered country in modern times have suffered more from the arrogance and brutality of their oppressors than the people of Kansas Territory. Our condition needs to be seen to be appreciated; could it be appreciated by the people of the Free States they would require no appeals to bring them to our relief. The impulses and the instincts of their own generous natures would send them to us.

"The people of the Territory are sparsely scattered over a large extent of country, and in small settlements—too small to cope with the organized bands of mercenaries under the control of the Missouri slaveholders. You are aware, I suppose, that there exists in Missouri a secret organization called the 'Border League,' which is supplied with funds from the South. This League keeps in its employ unprincipled wretches whose business it is to harrass and bully the people of the Territory, committing acts of every grade of villany, from murder down to petty insults, acting doubtless under instructions from their superiors. The design is to harrass and terrify the Free State Settlers (who constitute about four-fifths of the whole population) until they will be compelled to seek peace and safety in some other region. And I regret to have to state that these efforts have been but too successful. A great many excellent citizens, worn out and discouraged by the constant excitements and injustices to which they have been subjected, have either gone back to their former homes in the North or sought new ones in the newer Free States. The President's late Kansas Message has given fresh impulse to the brutal spirit of Ruffianism here, and is regarded as an invitation to renew and to increase the precautions to which we have so long been subjected. It is the most atrocious public document (all the circumstances of the case considered) that ever emanated from the chief magistrate of a nation. God only knows to what scenes of violence and wrong it will lead.

"We want help to meet these accumulating dangers. Shall we want in vain? Will our friends and brothers of the Free States turn a deaf ear to our appeal? We want men and arms, not money—*we want men and arms.* Send us one thousand men well armed, with half cavalry, and a few good pieces of artillery with men to work them, and a thousand Sharp's rifles, and we will do the rest. No, we want yet a little more provisions for the men you send, for the condition of our people the past year has been very little favorable to agricultural pursuits, besides the country is to new for much progress in that important branch of business. If you will send us the men, the arms and the provisions I ask; and will make *no appropriations for the army of the United States for the next year*, we will soon have law and order and a prosperous State here in the garden, as well as in the center of our great Republic. If you will refuse supplies for the army, it will fall to pieces and thus deprive the President of that terrible instrument of despotism. The army is indeed at best of no real benefit to the people of the United States, and might be dispensed with or greatly reduced, vastly to the benefit of the public. I beg you will give this matter earnest consideration.

"As Congress is constituted and as the President is disposed, we can hope for little from either source. Our only hope then is in the activity, courage and liberality of our friends in the free States, and to them, we appeal and upon them we rely for the aid I have indicated. But, whatever is done, let it be done quickly. Navigation will now soon be resumed and it will not be difficult nor a tedious journey to get to the Territory. But I would not advise taking passage at St. Louis on Missouri boats. The annoyances and insults to which Northern people are subjected on these boats is a sufficient reason why our people should charter boats at Cincinnati or Pittsburgh to carry them through. I would advise them to land about four or five miles above the mouth of the Kansas River on the first high land on the south bank of the Missouri River. I live about a mile from that point, and will give any aid or information I can to persons arriving in the Territory. Any person you send to our assistance will soon find both interest and inclination forcing them to make the Territory their future homes; for I am sure that there is a richer soil, a healthier climate or lovelier climate or lovelier country on the face of the earth. Send us all the *men* you can.

"I inclose this to a private friend in Washington, as I have little confidence in the Post-Offices in Missouri, and a letter directed to you would be a strong temptation.

Very respectfully, your obt. servt.

"ARELAND GUTHRIE."

PENNSYLVANIA LEGISLATURE.

Monday, March 16.—In SENATE, Mr. M'Clintock offered a joint resolution, providing for the appointment of two additional members by each House on the Committee of Conference on the liquor bill; which was read.

Mr. Browne remarked that the resolution was introduced without any suggestion on his part. It was the Senator's own motion. At the same time it was proper for him to say that he had not the slightest objection to it. If the Senate saw proper to increase the Committee, he was perfectly satisfied.

The resolution was adopted and Messrs. Buckalew and Flenniken appointed.

Senate Bill No. 345, to incorporate the McKeesport and Versailles Cemetery Company of Allegheny county was negatived.

Senate Bill No. 390, to exempt a certain bequest to the Monongahela presbytery of the Associated Prembyterian Church from the payment of the collateral inheritance tax, passed its several readings.

In the House, the private calender was taken up and the day was occupied in considering one or two local bills. Messrs. Hill and Ridgway were added to the Committee of Conference on the License Bill.

THE DISASTER ON THE DELAWARE.—The excitement caused by the appalling disaster on the Delaware, on Saturday night, continues unabated. The terrible incidents of the accident, and the constant discovery of new victims, keep alive the public interest and make the tragic affair almost the sole theme of conversation.

In Camden, the sensation produced by the disaster is even more intense than in Philadelphia. The majority of the victims belonged in that city, and the condition of the families of those who were thus suddenly snatched away, is melancholy indeed. Camden can be said to be plunged in mourning. Yesterday afternoon the Board of Chosen Freeholders of the place held a meeting, and appropriated $200 for the relief of the families of the victims. A town meeting will also be held this evening, for the purpose of devising means of relief. It has also been proposed to call a meeting for the same purpose in this city.

The crowd at the wharf continues very great, but the police arrangements are better than they were yesterday.—*Phil. Bulletin.*

THE LIQUOR BILL.—The Harrisburg *Telegraph* states that it was the Senate that gave way in the matter of the new license law. It says:

The Committee of Conference on the license bill failed to agree, and Messrs. Buckalew and Flenniken, of the Senate, and Messrs. Ridgway and Hill, of the House, have been added to the Committee. All these gentlemen except Mr. Flenniken were friendly to the House bill, so that we shall probably have a report by the majority embodying the main features of that bill, including low licenses to hotels and eating houses.

Certificate from Delaware.—Smyrna, Delaware, March 20th, 1854—*Messrs. B. A. Fahnestock & Co.*—Gentlemen: I feel it to be my duty to you, as well as to the public, to inform you of the wonderful cure your Irresistible Vermifuge has had on my children. One was by her self, a short time since, and I called in my family physician, Dr. John D. Perkins. After an examination he pronounced the illness arose from worms, and prescribed Fahnestock's Vermifuge. After the child had taken a few doses, he discharged, at the first operation, *Fifty Three of the Largest Worms I ever saw in my life*, and in the course of the day and evening he discharged between a quart and half a gallon of large worms.

He immediately got well, and has enjoyed good health since. It has had a good effect with my other children. You may use this certificate for the benefit of the public.

Nelson's Ambrotypes.

The Ambrotype is decidedly the most pleasing, beautiful and durable style of Portrait ever known to the art. Their tone is left velvety and transparent by a process never obtained by the old process Being taken on glass, they are exceedingly brilliant and yet unlike the Daguerreotype, they are perfectly distinct in any angle. Little children are pictured not only more beautifully but in almost inappreciable point of time by the Ambrotype. By no other process can pictures be made so perfectly natural. We respectfully request our friends and the public generally to call and examine specimens and judge for themselves. Remember the place.

Friends of Humanity!—To you (always disposed to aid the sufferings) it may appear incredible, after in vain trying all the "wonder-ful" medicines of the day, that one application externally, and three drops taken internally, of my (as will soon be) world famous Oil, will so very suddenly relieve the sufferer from the most violent pains; yet it is a fact, as testified by good men and good women, whose names are at my office.

Call and be convinced of prepossessing and ever changeable Rheumatic pain, is imperfectly understood by mankind; whether its cause is sitz disease, or some disordering of the nerves, occasioned by chronic derangement, (like the rocking of an inflamed stomach,) or some disturbance of the electric fluid itself; certain it is that my "Electric Oil," so readily absorbed into, if it does not actually supply a needed deficiency in the blood, and unlike the stimulating and greasy petroleum of living organization.

Let the skeptical and the humane look into this matter for if these things are so, all are alike interested. I will take any case from the hospitals to test it for all. No change in diet is pleasant and inconvenience or danger of cold or reaction, as all will bear me witness. Come and see for yourselves, this assertion is true. Office 84 Fifth street. 25 cents and $1 per bottle.

☞ None sold by pedlars. On the 15th inst. my bottles will have my name blown in and the new wrappers will bear my written signature, to prevent imposition on the public.

For sale by Dr. GEO. H. KEYSER, General Agent, 140 Wood st., Pittsburgh, and for sale by all the principal Druggists and Merchants in the United States.

ENGLISH MUTTON—EASTER HOLIDAYS.—The subscriber will have at his Stalls, in the new Market House, on FRIDAY AFTERNOON and SATURDAY, the finest quality of Mutton ever sold in the BOROUGH ever seen in this city. They are of the Leicester and Cotswold cross breed, well known to be the best in the world for mutton. They were imported and raised by Mr. Jackson, of Ohio, and not by Messrs. Reed and Company, of Washington county, who are two of the best feeders in the country, as this lot of sheep will prove—The weight of the three heaviest, is, respectively, two hundred and eighty-two, two hundred and eighty and two hundred and twenty six lbs. Call at the Stall and see what can be done in the way of raising fine stock in this country.

He will also have some famous LAMB, raised by Mr. Boyd, seven months old, and crossed with South Down and Cotswolds. Some excellent BEEF will also be on hand, and all epicureans are invited to the Stall of
