For the Pittsburgh Daily Gazette.

Republican Meeting in East Liberty.

In answer to a public notice, a number of the citizens of Collins and Peebles township, convened on Tuesday evening the 18th inst., at the Peebles township school house, in East Liberty, for the purpose of organizing a "Republican Association" for the above named townships. The meeting was organized by calling Wm. A. Burchfield to the Chair, and appointing P. E. Bayard, Secretary.

A Committee, consisting of three persons from each township was selected to draft a Constitution for the Association to be submitted for adoption at an early subsequent meeting.

The following resolutions were then offered and adopted unanimously and ordered to be published in papers friendly to the cause:

Whereas, The Constitution of the United States was established and ordained by our fathers, "in order to form a more perfect Union, establish justice, ensure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to themselves and their posterity;" and whereas, the present administration party in power have wholly ignored the principles of the framers of this government, and have shown their entire subserviency to the slave-power, and are using their whole power, not to extend the "blessings of liberty," but to spread and perpetuate the blighting curse of slavery over the virgin soil of territories consecrated to freedom *forever* by solemn compact. Therefore, Resolved, That we we feel it our imperative and solemn duty not only to protest against this dangerous and arrogant assumption of power and perversion of the spirit and intention of our Constitutional framers, but resist to the utmost of our power these high handed acts of injustice, tyranny and oppression of our rulers, who, under the lies of "popular sovereignty" are endeavoring to crush out the spirit of liberty in the Free State settlers in Kansas and elsewhere, by imposing fetters on the press, prohibiting the rights of speech and petition, abolishing trial by jury, and using the writ of "Habeas Corpus" the "chief watcher" of our liberties to promote their own despotic purposes. Nor do they stop here, but even now are endeavoring to legalize a code of laws barbarous in their nature and without a parallel in the history of our country, forced upon the free people of Kansas by an armed horde of Missourian invaders. Believing with Cassius M. Clay "that it is no longer a question whether the blacks shall be slaves, but really whether we, ourselves shall be free," it behooves us each and all as free intelligent citizens to wave all petty jealousies and minor differences and unite in one common cause and brotherhood to resist the traitorous designs of nullifiers and slavery extensionists, and restore the government of the nation into pure, faithful and worthy hands, who will be influenced by no selfish or sectional motives, but so administer the government that the rights of all portions of this great confederacy shall be respected and protected.

Resolved, That it is our primary object in this formal organization of the Republican party in Peebles and Collins townships to endeavor to do our part to effect the complete overthrow and defeat the present reckless party in power, who have so wantonly betrayed the trust confided to their hands, and for the accomplishment of this great object we cordially extend the right hand of fellowship to every citizen who is opposed to "the further extension" of Slavery, and invite the co-operation of every true patriot in this laudable design. Let each enroll his name under the flag of freedom, on whose maple folds are inscribed in letters of light, "No more Slave States, no more Slave Territory." Placing Slavery where it was placed by the Constitution we shall then say to its proud waves "thus far hast thou come, but no further shalt thou go." With these talismanic words as our rallying cry, victory must be ours. Truth and Justice are on our side and these are mighty and must prevail. Freedom shall be declared to be national, and Slavery only tolerated until it shall die a natural death.

Resolved, That we respectfully recommend to the friends of freedom, the formation of similar "Republican Associations" in each township throughout the county.

WM. N. BURCHFIELD, Pres't. D. E. BAYARD, Sec'y.

KANSAS & STATE.—Senator Douglas has just reported to the Senate from the Committee on Territories, of which, he is the leading member, a bill to authorize the citizens of Kansas to form a State Constitution preparatory to admission into the Federal Union.

It provides that in the election of delegates to the Constitutional Convention, voters must have resided six months in the territory, and three months in the district where they offer to vote, and that no others shall be allowed to vote. This provision, if enforced, would cut off the whole of the illegal vote through which has been regularly polled in the territory at every election, and would render the organization of the territory as a free State unavoidable, because an overwhelming majority of the present actual residents are of that inclination. As the bill has assumed to declare what shall be the qualifications of voters at this election. It would follow, of course, that the territorial laws respecting the same subject are virtually ignored. This is somewhat remarkable, in view of the Senator's frequent declarations of Governor Reader, the Emigrant Aid Societies, and the Free State party generally. In fact it gives a free a grave suspicion that the Senator has been talking for effect on one side, in order to carry through more safely a bill which looks decidedly the other way. This bill will probably pass the Senate, but its fate in the House is dubious.

SAFETY OF FERRY BOATS.—The late accident on the Delaware has drawn the attention of the press and the public to the condition of the boats which are used at the various ferries of the principal cities. The New York papers say the numerous ferry boats of that city are almost as destitute of means for the preservation of life as the steamboat New Jersey, and they call upon the public to act at once and procure the proper legislation which will give security to the passengers. The proper way to correct an evil is to take such measures as will prevent it ever occurring again, and this, may be done by the press suggesting safeguards which are really practical, and using all their influence in having them immediately adopted. This is of far more service to the public than all the invective that can be poured upon any delinquency, however much it may be merited. According to the Steamboat Inspectors' report, there are seven hundred and thirty-five boats impelled by steam in the United States which are not subjected to the provisions of the steamboat law.—*Philadelphia Ledger.*

FROM WISCONSIN.—We have private information from Madison, indicating that Barstow is determined to try what virtue there is in muskets, in the event of the decision of the Supreme Court proving adverse to his fraudulent claim to the Governorship. It is said that he is furnishing all the men State arms about the Capitol, and that his bands are receiving rifles from other parts of the State. This information is confirmed by the Wisconsin papers; but no authority supposes that anything more than the game of "bluff" is intended, though it is on all sides admitted that the desperation may drive him to the shedding of blood. Among the people, outside of the field of desperadoes who sustain him, there is but one opinion, and that is, that the Court must and shall be sustained—at whatever cost, be its decision what it may. The sentiment is so unanimous that resistance to it would be madness. If the Court so decree Barstow will surely go out.—*Chicago Trib.*

BIRTHS IN BOSTON.—Of 5616 births in Boston in the year 1855, 3019 of the fathers and 2281 of the mothers were born in Ireland. While fifty per cent. or more than half the births were the children of Ir
