A Register's Court was then opened, when the Register of the County made returns.

The Grand Jury having taken their places and the oath, the Court proceeded to charge them briefly upon their duties, and the manner of performing them. His Honor, Judge M'Clure, said that the number of cases on the list was small, embracing none of more than ordinary importance.

The Court, having no further business, adjourned until Tuesday morning.

CAPTURED.—A report reached the city yesterday, that Daniel O'Brien, the late turnkey of the jail, who escaped from custody with Bell and Kounsler, last week, was captured at Alliance, Ohio, while waiting for the Western cars. Jailor Phillips took the morning train.

O'Brien, it appears, was arrested first on suspicion of being the murderer of a man named Baldwin, while attempting to rob his premises. Circumstances did not confirm this suspicion, and he was then detained as a refugee from justice, his person answering the description published.

Since writing the above the Jailor has arrived with the refugee in custody. As Mr. Phillips entered the room where O'Brien was asserting in the most positive terms that he was not the person; but perceiving the Jailor, he assumed an air of great boldness. A rescue was feared, and the Sheriff sent a posse of men to the cars, who prevented any attempt of the kind.

RAILROAD ACCIDENT.—The mail train of the Central Railroad, due here on Sunday morning at one o'clock, ran off the track at George's station, three miles east of Greensburg, smashing a baggage car, and slightly injuring the locomotive. The express train, due at Sunday noon, was detained by the accident some four or five hours, a track having to be laid around the mail train to enable the express to come on. The express train arrived on Sunday evening, and was composed of twelve cars, having the passengers of the night express train, which had also been delayed and the mail train in addition to its own through passengers. No person was injured by the accident.

DR. CALVIN M. FYCE.—This gentleman, it will be seen by reference to our advertising columns, is to make a professional visit to this city, commencing on Thursday the 3d proximo. He has been in Europe during the past winter for the purpose of gaining any information that might prove beneficial to his system of treating Lung Diseases. He is an exceedingly successful practitioner and although his stay here will be short we presume he will be called upon by great numbers. He is to be at the St. Clair Hotel.

THE GRAND JURY.—Yesterday, the Grand Jury of the U. S. District Court found a true bill against James Danforth, for magufacturing and passing false coin. Bail in $2000 is demanded. We may notice here the extreme liberality of the Court. Officers Hamilton and Wray spent two weeks in ferreting out the information necessary to accomplish this important arrest, besides paying some twenty dollars out of their own pocket. The United States yesterday made return in the sum of one dollar and a half to each, the amount of fee they were entitled to as witnesses.

DISTRICT COURT.—Judge Williams on the Bench.

The case, Hillary Brunot vs. Patersons, taken up last week, occupied the entire day, yesterday.

THE STEUBENVILLE RAILROAD.—The Chronicle states as a matter of news, which they have every reason to believe authentic, "that the Judiciary Committee of the Senate, to whom was referred the Act authorizing a guarantee of the mortgages of the Pittsburgh and Steubenville Railroad Company, have determined to report adversely to that measure, as well as all others of like tendency."

ELEGANTLY BOUND.—We saw on Saturday several copies of the new volume of poetry by the Hermit of St. Elrine, intended for Mrs. E. Oakes Smith, John G. Saxe, and other distinguished Individuals, which were bound in a very elegant manner, reflecting much credit upon the workmen. Each volume was stamped with the name of the person for whom it was intended.

BROKE JAIL.—Harper, one of Rutter's horse-thief gang, broke the Indiana Jail several days ago.

CONGRESSIONAL.

WASHINGTON CITY, March 24.

HOUSE.—The Speaker announced the Kansas Investigating Committee to consist of Messrs Campbell of Ohio, Howard of Michigan, and Oliver of Missouri.

Mr. Willson addressed the House at some length a condemnatory of the action of the late Naval Board.

A joint resolution was passed, after debate, giving the new members of Congress books, equal in value with those received by former Congress, being about $2000 worth, each.

The House adjourned.

SENATE.—Mr. Seward offered a resolution requesting the President to communicate to the Senate all the information in his possession relative to the revolutionary proceedings in Nicaragua, and especially the seizure of the Transit Company's property.

On motion of Mr. Seward the Committee on Library were instructed to consider the expediency of some legislative recognition of the eminent services of the expedition under Dr. E. K. Kane, of the Arctic regions.

The Senate then resumed the consideration of the Deficiency Bill.

On motion of Mr. Weller the Pacific Railroad Bill was made the special order for April 14th.

The bill creating a public printing, book binding and engraving establishment, was made the special order for April 21st.

The Senate adjourned.

NEW YORK, March 24.—The Ship John Rutledge from Liverpool for New York on the 16th January, ran into an iceberg on the 18th February and being badly damaged was abandoned. Her passengers and crew took to boats. One of these boats which had contained 13 souls was picked up by the ship Germania, which arrived at New York on Sunday. One sailor was alive on board with the bodies. The rest had died of starvation. The four other boats had pulled for the Gulf Stream. The John Rutledge had 120 passengers and 25 of a crew.—She was insured for $70,000 partly in Philadelphia, and had a cargo of merchandize probably insured in Europe, amounting to 800 tons.—SECOND DESPATCH.

NEW YORK, March 24.—Capt. Wood, of the ship Germania arrived at this port yesterday from Havre, and furnishes the following account of the sinking of the ship John Rutledge by running into an iceberg, and the rescue of one only of the ship's company:—On the 28th ult., we observed a ship's boat ahead and despatched a boat in quest of it. In approaching the strange boat it was found to contain alive Thomas W. Nye, of New Bedford, the only survivor of 18 persons, the remainder having perished of starvation and cold. They had been in the boat nine days. Nye's hands and feet were very much frozen. The boat also contained the bodies of a Mate, Johnson and three others, whose names are unknown, all belonging to the ship Jno. Rutledge, and Capt. Kelley, of New York. The ship John Rutledge left Liverpool for this port on the 16th January and fell in with ice on Feb. 18th in lat. 40.34 South, long. 46.56 West. She got into a field of ice next day, but succeeded in working clear. She subsequently, however, ran into an iceberg; stove a hole in her bows and was abandoned at 6 o'clock P. M. Five boats with the passengers and crew left the ship. It was the intention of Mr. Atkinson the Mate, to have left the vessel in this boat, but she broke adrift, and he and several others went down with the wreck. It was conjectured that the other boats, which were well manned and furnished with compasses would pull for the Gulf Stream, as the weather was severely cold. They may possibly be picked up. The compass of the rescued boat was accidently broken, and it being cloudy, her crew could not shape their course.

After picking up the boat, the Germania stood to the northward until dark, and then lay-to during the night, in hopes of discovering some of the missing boats, but as nothing could be seen of them, she bore away to the south-west, keeping a lookout all the time. During the forenoon a very thick snow storm prevailed, but the weather cleared towards noon.

A bark came out of the ice at the same time as the Germania stood to the westward, and probably fell in with the boats of the John Rutledge.

The John Rutledge belonged to Howland & Ridgeway, of this city, and had about 150 passengers. She left Liberpool with a crew of 26. As yet only one is known to have been saved.—Twenty-five persons were on board when the last boat broke loose, and just before the ship went down.

WASHINGTON CITY, March 24.—The prominent topic of discussion is the composition of the Kansas commission, who are Western men. Mr. Campbell, of Ohio, was selected because he was the leader of the Anti-Nebraska party in the last Congress, and leader of the House in this, as Chairman of the Committee of Ways and Means. Mr. Howard who is regarded as an able lawyer, was the general choice of the Republicans, who objected to Mr. Dunn, because of the latter's course concerning the Speakership; Mr. Oliver, of Missouri, was recommended to the Speaker by prominent Nebraska Representatives as their choice for the minority member of the committee. The vacancies thus created in the Committees of Ways and Means and Elections will probably be temporarily filled. The investigation will commence at least two months, as the Committee are for thorough scrutiny. They will take a Clerk and Stenographer with them and two or three Marshalls to subpoena witnesses.

NEW YORK, March 24.—There was no meeting of the Stock Board this afternoon, in consequence of the death of Nelson Robinson.

The Police Commissioners in the case of the Chief of Police, Mr. Matsell, have unanimously decided that he was born in England, but as his father was naturalized during the sons minority, the Chief is an American citizen. The cause was then dismissed.

A stable belonging to the Brooklyn City Railroad Co. was destroyed by fire yesterday morning—together with 15 houses. An adjoining stable occupied by the Knickerbocker Ice Company was also destroyed, but the horses were got out safely. The Brooklyn City Mills sustained some damages.

NEW YORK, March 24.—Flour continues firm for Western and State, with a moderate demand for Eastern and local trade, and a trifling export enquiry. The supply of common and medium grades of State is quite limited and the tendency of the market for this description of Flour is strongly upward; Inferior Michigan is about the only Flour that does not meet with ready sales. There is only a very light stock offering; sales 5000 bbls. at $8,87@$7,50 for Inferior Prime, $9,25@$11 for Mess and $11 @$18,25 for repacked Western Mess. Beef Hams continue firm; sales 200 bbls. at $16@ $16,50 for prime Mess. Beef quiet and nominal at $16@$22. Dressed Hogs remain as last noticed. Cut Meats firm with fair inquiry; sales 180 packages at 7½@7¾ for Shoulders and 9½@9¾ for Hams. Lard steady, sales 300 bbls. at 9½@10½ for common to prime. Bacon is in moderate supply and is firmly held. Butter plenty and dull at 17@20 for Ohio and 20@23 for State. Cheese is selling slowly at 8@10½.

PHILADELPHIA, March 24.—Flour dull; there is but little or no demand; standard brands are freely offered at $7, without buyers; there is only a business for the supply of the city trade at $7@7,12 for common to good brands, and $7,50@8,50 for extra and choice family. Rye Flour steady; small sales at $5. Corn Meal; a small supply; held at $5, firm. There is a better demand for Wheat; for middling with only a fair amount offering sales, 1100 bush. fair to good and Tennessee red on Saturday at $1,67 @1,70, and 2500 bush. Penns. and Delaware red to-day at $1,70@1,75. We hear of no sales of white but quote at $1,70@1,90 for fair to prime. Rye dull at $1. Corn is quite active, with heavy receipts, and steady supplies by water began to come forward to-day; sales 10,000 bush. yellow in store at 59 and a lot of damaged at 55. Oats steady at 33. Cloverseed is in demand at $8,50 per 64 lbs., but holders ask more. Whiskey steady at 29@30 in bbls. and in hhds. at 27.

CINCINNATI, March 24.—Flour firm; sales 100 bbls. at $5,65; 60 bbls. extra at $6; 700 bush. Oats sold at 25. Whiskey less firm; sales 1175 bbls. at 19½@19¾. Provisions steady; sales 100,000 lbs. bulk Sides at 9¾; sales 20,000 lbs. bulk Shoulders at 8½; sales 250 bbls. mess Pork at $14; sales 40 hhds. Bacon Sides at 7¾, packed. Groceries steady.

The river is 12 feet 6 inches and rising.

BALTIMORE, March 24.—Flour firm at $6,75 for Howard and City Mills; red Wheat at $1,48 @$1,52; white $1,58@$1,78. Corn active; sales 40,000 bush. at 62@68 for white by weight and 54@56 for yellow by measure.

PITTSBURGH MARKETS.

PITTSBURGH GAZETTE OFFICE,
Tuesday Morning, March 25, 1856.

Business begins to revive. The Monongahela and Ohio being open, boats are arriving from both quarters. The receipts yesterday were mostly confined to flour and Molasses; supplies of produce are expected to begin to come in to-day. The market for Sugar and Molasses did not open, yesterday, however, as the boats did not unload early enough; to-day we expect to hear of considerable sales.

FLOUR—the receipts are still light; from wagon the ruling rates yesterday were for superfine $5,25@$5,50 extra, $6,00. From store, sales of 40 bbls. superfine at $5,75, extra, 40 bbls at $6, and 20 at $6,25, now held at $6,50.

SUGAR—a sale of 18 hhds prime new, from store, to city trade, at 9 cash.

MOLASSES—a few small sales of new ware made, but not large enough to mention, at 45; some holders ask 48, but the opening rate can hardly be determined, yet.

GRAIN—sales of oats on arrival at 24@25, with a moderate demand; Rye is growing duller; the receipts are making no impression on town.

APPLES—the market being rather poorly supplied, there is for the present a pretty good inquiry; sales of 12 bbls. Green at $1,75, and 10 and 15 do at $2,00.

CHEESE—the receipts have been from 300 and 400 lbs. of Cloverseed on the Caledonia, sunk at Marietta, intended for this market, and presume it was insured; sales of 40 lbs. Ohio Cloverseed from first hands at $7,50, and 60 box. prime Illinois and Michigan in small lots, at $8,50

EGGS—a good demand, but supply ample; sales of 10 bbls in lots, at 14@15, with a downward tendency.

BACON—we note a fair inquiry, and light stock; sales of 200 pcs Shoulders and Hams at 9½ and 10¾, cash, and 10,000 lbs. Shoulders, Sides and Hams at 8¾, 9 and 11, cash.

SODA—a sale of 30 bgs. Nitrate Soda at 4¾, four mos. and 5 cks. imported Soda Ash at 3¾, time.

HAY—sales at scales of 15 loads at $12@$18 ₱ ton.

MONETARY AND COMMERCIAL.

CHICAGO, March 14.—WHEAT.—There is about 125,000 bus of wheat here, and about 20,000 bbls flour. This is less of wheat by half than we had last year. There is no wheat in store at the stations on the Illinois Central Railroad or Illinois river of any account. The price now paid at the mills in the interior and for sale at the depot is considerably above the prices here. Letters from the country generally indicate that the spring crop will be equal to that of 1854. The indications are that the consumption will be considerably greater. Mills are generally in operation. The impression of the current week was buoyant. Receipts here and rails are in good demand; Rails are more active. The receipts of wheat for the week ending this evening, 1600 bushels; wheat and 56,000 bbls flour. This Lake has now upon it about twenty-five vessels, about half the amount of wheat and flour it had last year at the same time. The Illinois and Michigan Canal has not yet been called out this crop to such an extent there is or will be very little surplus for the spring trade. The large towns and cities in this section of the country are filled up, and will consume probably about what we have left. Flour is selling on the Mississippi, for some time at high rates and higher here and there than the same articles is in Philadelphia.

NEW YORK.—There is not to exceed 25,000 bus of oats in store in this city, nor above 40,000 on the lake coast. There is very little corn in store. Reliable statistics put there are some fifty to sixty thousand bushels on Canal and River for shipment, and the receipts of the past week have been quite large, and have ranged for some time higher on the average than they will range when the Erie Railroad and the Hudson River Railroad are finished. The price has ranged from 57 to 60 cents here, and there ranged for some time higher on the Mississippi; but the receipts will remain small for limited canal and river trade and the Piscatua.

BOSTON.—We have had a very large crop of corn of the growth of 1855, nearly the whole of which is yet in hand and Occasional Shipping. It is estimated that no less in store here now, and some 1,000,000 bus in store on the canal and Illinois river, and a small quantity in Chicago; however, so it is not certain to be in market at scarcely navigation many accidentally evident. It is held here at 60c per bushel, and what arrives brings about 58 cents. Oats are scarce and in demand at 40c per bushel.

DISEASES OF THE LUNGS.

DR. ROBERT HUNTER desires to announce that for the information and guidance of those who are afflicted with Diseases of the Throat or Lungs, he has established a family medical periodical entitled the "Specialist and Journal of Diseases of the Chest;" in which will be found a full exposition of his views on every subject connected with pulmonary diseases.

The February number contains in addition to much information which should be read by every one predisposed to or suffering from either Bronchitis, Asthma or Consumption, an extended explanation of the method of treatment by INHALATION.

Dr. Hunter would also announce that he has opened branch establishments for the treatment of these diseases at Philadelphia, Baltimore and Washington, and they are placed under the professional charge of skillful and accomplished resident physicians, who have experience in association with him long and great experience in the treatment of pulmonary diseases. Patients, residing in these cities, will therefore in future enjoy all the advantages of Dr. Hunter's advice and treatment under the most favorable auspices.

These arrangements are rendered necessary by the extensive practice under the name of Jackson & Co., by wandering quacks, who, in many instances, use Dr. Hunter's name for their own purposes, and by the sale of certain nostrums in the Drugstores throughout the country. Such influences tend to bring discredit on this practice and to endanger persons unfortunately themselves of this, the only scientific and successful mode of treating pulmonary complaints.

In chronic affections of the Throat and Lungs there is no difficulty in treating the disease by correspondence, and for the convenience of those wishing to avail themselves of this treatment Dr. Hunter has prepared a list of questions which will enable them to give a more full and explicit statement of their case. This list, together with a number of the Specialist, will be forwarded on application to [illegible] Address:

MONETARY AND COMMERCIAL.

CHICAGO, March 14.—WHEAT.—There is about 125,000 bus of wheat here, and about 20,000 bbls flour. This is less of wheat by half than we had last year. There is no wheat in store at the stations on the Illinois Central Railroad or Illinois river of any account. The price now paid at the mills in the interior and for sale at the depot is considerably above the prices here. Letters from the country generally indicate that the spring crop will be equal to that of 1854. The indications are that the consumption will be considerably greater. Mills are generally in operation. The impression of the current week was buoyant. Receipts here and rails are in good demand; Rails are more active. The receipts of wheat for the week ending this evening, 1600 bushels; wheat and 56,000 bbls flour. This Lake has now upon it about twenty-five vessels, about half the amount of wheat and flour it had last year at the same time. The Illinois and Michigan Canal has not yet been called out this crop to such an extent there is or will be very little surplus for the spring trade. The large towns and cities in this section of the country are filled up, and will consume probably about what we have left. Flour is selling on the Mississippi, for some time at high rates and higher here and there than the same articles is in Philadelphia.

NEW YORK.—There is not to exceed 25,000 bus of oats in store in this city, nor above 40,000 on the lake coast. There is very little corn in store. Reliable statistics put there are some fifty to sixty thousand bushels on Canal and River for shipment, and the receipts of the past week have been quite large, and have ranged for some time higher on the average than they will range when the Erie Railroad and the Hudson River Railroad are finished. The price has ranged from 57 to 60 cents here, and there ranged for some time higher on the Mississippi; but the receipts will remain small for limited canal and river trade and the Piscatua.

BOSTON.—We have had a very large crop of corn of the growth of 1855, nearly the whole of which is yet in hand and Occasional Shipping. It is estimated that no less in store here now, and some 1,000,000 bus in store on the canal and Illinois river, and a small quantity in Chicago; however, so it is not certain to be in market at scarcely navigation many accidentally evident. It is held here at 60c per bushel, and what arrives brings about 58 cents. Oats are scarce and in demand at 40c per bushel.
