TO CURE A COLD, WITH HEADACHE AND SORENESS OF THE BODY—Take the Cherry Pectoral on going to bed, and wrap up warm, to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon and night, according to the violence of the disease, and keep gently warm so as to avoid exposure. None will long suffer from this remedy, when they find it to be, as it is, the most certain means ever discovered for the prompt removal of colds, coughs and consumption.

Persons afflicted with a settled cough, which yields them no rest by night, but which they hope to cure by "letting it wear away," will find by so doing that they are in the vicinity of Bronchitis, or it will be said in lots to any particular who will improve them. Many do so.
