DISTRICT COURT.—Judges Hampton and Williams on the Bench.

In the case of Thomas Williams vs Samuel Baird, reported yesterday, the jury returned a verdict for plaintiff for $254.

In the case of Miller vs the city of Pittsburgh, reported yesterday, the jury found for the defendant, without leaving their box.

John Conry, Administrator of Julia Conry dec'd. vs the Pennsylvania Railroad Company. No. 219 July, 1854. Penry and Sterrett for plaintiff; Wm. A. Stokes and John H. Hampton, Esq., for defendant. Action to recover damages for the death of Julia Conry by an accident on the road at Altoona, in April 1854. She was a passenger by the emigrant train, and was standing by the cars, when the Hollidaysburg train ran over her.

TO THE STREET COMMISSIONERS.—Now that the pleasant days have come, the Street Commissioners should proceed vigorously with the work of cleaning the streets. Fifth street, for instance, is strewed with piles of snow and dirt and offal, which cannot but be detrimental to the health, when we have had a few warm days. Diamond Alley is covered with ice to the depth of two or three feet, which will go off partially in water, settling in the cellars of the houses that line that contracted but important thoroughfare. No more favorable opportunity will occur this year to develop whatever portion of "Mayor Wood's" qualities the Street Commissioners may have, than at present, and we echo the wishes of all our readers in recommending them to proceed forthwith to improve the opportunity.

AMONG the various condiments offered to the public as a zest for soups, fish, meats, game, &c., helping digestion and promoting the general health, LEA & PERRINS' WORCESTERSHIRE SAUCE stands unequalled.

The testimony of medical men in Europe and America attest its virtues.

Since the introduction of this SAUCE into the United States by Messrs. John Duncan & Sons, of New York, some fifteen years since, the demand has become so large and its use so general, that it is now considered as indispensable on the breakfast, luncheon, dinner and supper tables.

FATAL ACCIDENT.—On Saturday night last, between 8 and 9 o'clock, Mr. Jas. Irwin, of East Finley township, Washington Co., was found by some boys, lying under his wagon, with the hind wheel on his neck. When discovered by the boys he was dead. He had been to Wheeling that day with a load of grain, and was on his way home. The Coroner's Jury came to the conclusion, that he had fallen from his wagon in the darkness, and was killed by the wheels passing over him and resting on his neck.

MOVING DAY TROUBLES.—Yesterday an old man named John Downs appeared before Alderman McMaster, and made oath against Mathew Keep, one of the, Mayor's police, for assault and battery. Downs was a tenant whom his landlord wished to dispossess without giving him notice. Keep laid his hands on his furniture for the purpose of removing it, when Downs interfered and Keep pulled out a "billy" and struck him with it. A warrant for Keep's arrest was issued.

NEW SPURIOUS NOTE.—5's on the *Merchants' Bank*, Newbern, North Carolina, are in circulation in this community. The vignette is an Indian, and a female likeness on the right end. The genuine are different, and as but few notes of this bank are ever seen so far North, it would be advisable to reject all bills of the denomination of $5 on the Merchants' Bank, of North Carolina.

CHURCH ON FIRE DURING SERVICE.—The Montour Presbyterian Church, situated on the Steubenville road, about twelve miles from this city, took fire on the roof last Sabbath during service, from a spark from the chimney. The congregation were notified of the fact by a traveler who was passing by, and they turned out in force, and soon extinguished the flames. The damage was slight.

THE SEDUCTION CASE.—The case of the Commonwealth vs. William A. Greatrake, indicted for the seduction of Mary S. Murray, occupied the whole day yesterday. The prosecutrix kept the stand until the afternoon, making an examination of about eight hours in duration. Much interest is manifested in the case. The prosecution will close this morning.

PANORAMA OF PITTSBURGH.—MR ANDRINI, an artist of much merit, has during his residence here got up an excellent panoramic painting of this city and its neighborhood, which he opens for exhibition to-night at Franklin Hall. It is the first artistic effort to put the city upon canvass, and deserves encouragement.

MOVED.—We call attention to the advertisement in another column of the Mercantile Agency;—after the 14th instant they intend to remove from Masonic Hall to the corner of Wood and Fifth streets, over Fatzicker & Co.'s Broker Office. The entrance will be from Wood street.

HOSPITAL FOR THE INSANE.—Our readers will see in another column an advertisement for the purchase of a farm by the managers of the Western Pennsylvania Hospital for the purpose of erecting buildings thereon, for the accommodation of the insane of Western Pennsylvania.

A BEAUTIFUL DAY.—Yesterday was one of the finest days of the season. Those who were not engaged in moving, were on the streets. The ladies too, for the first time, made their appearance in the variegated colors of the spring fashions.

FOR KANSAS.—The second party for Kansas got off yesterday on one of the St. Louis boats, numbering 36 in all. A third party will leave during the week, and swell the number sent from this place to Kitty.

HORTICULTURAL SOCIETY.—The regular monthly meeting will be held this morning in the rooms of the Christian Young Mens' Association, Fifth street, nearly opposite the Custom House.

REMOVED.—The Mayor's Office was moved yesterday to Wilkins Hall, Fourth street, near Smithfield street. No police business was of course transacted.

GOV. ROBINSON and Col. LANE, of KANSAS, passed through this city on their way to Washington on Monday night.

COMMITTEE OF REGISTRATION, FOR MARCH.—GEO W. CASS, V. P.—ISAIAH DICKEY, SAMUEL DILWORTH, T. B. UPDEGR, J. B. CAMPBELL.

REVIEW OF THE PITTSBURGH MARKET.

For the Week ending April 2, 1856.

The week past has been a busy one throughout the city. The streets have been thronged with people and vehicles, the wharf covered with freight, and all departments of trade actively employed. The great bulk of merchandise accumulated here during the winter from the east has been shipped, together with an immense amount of Pittsburgh manufactured articles. The shipments go into on in still heavy, however. The Ohio has been in good order for navigation; but the weather for some days has been so cold that the water is receding to a point too low for heavy transportation. A recurrence of weather warm enough to melt the snow in the region drained by the Allegheny would bring us a high river again.

The Monongahela continues open, but the Allegheny has not yet broken up above Freeport. The pig metal and lumber season has yet to commence.

The receipts of produce for sale in this market have, so far, been quite small, and there has been a demand active enough to take it all up as soon as offered. The flour dealers have not been able to get their wants supplied, and the tardiness with which flour comes forward is a little remarkable. Butter, Eggs, Cheese, Bacon, and nearly every article of domestic consumption, have found a ready market at good prices, with a continued and steady demand. Notwithstanding some shippers in the West seem to think differently, our market is just now a better one for such articles than they can find in the East. Corn, Rye, and low grades of Wheat have not been in much demand, but Oats and Barley have met ready sales at quotations.

The receipts of Sugar and Molasses have been a little over 1000 hhds. Sugar and about 5850 bbls. Molasses.—This supply coming upon a market entirely bare, is very small, and must either be enlarged or leave dealers empty-handed again at an early day. The local demand is already active, and must increase as the Spring opens.—The Stock is not more than half as large as at this season last year.

The jobbing trade is moderately brisk. The Allegheny being still closed, the trade lacks the share of activity which that region gives it; but there is a very excellent business doing in the way of jobbing orders.

The manufactories are all busily employed and that department of business seems never to have enjoyed a more lively season than the present.

Money is in improved demand, and there is a good deal more paper making; but the banks are discounting freely and there is no pressure of first class paper upon the street. Outside of the banks, rates rule from 1½@2 ⅌ cent a month. Eastern Exchange is 4¼ sellers at par@¼ ⅌ cent. Western Exchange runs at 1c.@¼ per cent discount, interest off. Currency is in moderate supply.

The receipts of produce for shipment East during the week ending on Saturday have been large, as compared with previous work, 2495 do lard, 1656 bbls. Oil, 1555 do whiskey, 4117 bbls. flour, 1735 bxs. candles, and a large amount of other articles. The Railroad east has been taxed to its utmost capacity.

The Canal is not yet open. The cold weather has retarded the opening; but we may expect to see it open during the present week.

The Eastern papers express feelings of concern and surprise at the enormous imports from Europe, with the reckless spirit manifested by importers. With no present or prospective increase in our shipments of produce to Europe, with nothing to fall back upon but our coin, and not much of that to spare with a view to regard to our own safety, the imports go on doubling over those of last year, week after week. For the past week, the total value of imports at New York compares with the same week last year as follows:

For the Week.	1855	1856
Dry Goods,	$765,894	$2,107,071
General Merchandize,	1,436,260	2,536,319
Total,	$2,202,754	$4,701,637
Previously reported,	32,653,659	44,282,637
Total since January 1st,	$34,847,513	$48,774,390

The export of merchandize from New York for the week amounted to in value to $1,097,963, against $1,457,376 in the corresponding week last year. The specie exported during the week was $158,705 all of which, with the exception of $5,000, American gold to Para, was in Mexican dollars, destined for Hong Kong. The exports since the first of Jan. compare with the four previous years as follows:

Total since January 1st,	$3,804,573
Same time 1855,	4,889,437
Same time 1854,	3,241,253
Same time 1853,	2,474,630
Same time 1852,	7,060,415

As a specimen of what wheat is selling for in some parts of the country, we clip the following from the Detroit Advertiser:

WHEAT.—A purchase of 800 bush Canadian wheat, grown near Amherstburg, was purchased at 62½c ⅌ bush. and 400 bush. for example at 57½. This wheat was about on a par with Michigan wheat.

Mr. David White, of Madison, Ind., one of the most enterprising men of the West, and largely interested in the Pork trade, whose failure was announced and then contradicted, has at last been forced to succumb, and make an assignment. He was deeply in the Pork trade the present season, but it is stated he would have been able to weather the storm could it but have been for the large liabilities connected with the failure of Mr. Baker, of New York.

Money is quoted easy in New York and other Eastern cities at 7@10 ⅌ cent on time paper, and 6 ⅌ cent on call. In Cincinnati, the money market continues easy, with a moderate demand and abundant supply, at 10 to 12 ⅌ cent in the discount houses, but most of the good paper offered is taken at 6 ⅌ cent by the regular banking houses. The following are the inspections of flour for the month of March:

Superfine, bbls	5327
Extra,	262
Middlings,	10
Condemned	33
	6032

ASHES—a very light supply of Pearls on hand and but few arriving, sales at 6, 9, and 10c, nothing to make a remedy for the present. Prices are altogether dominal and no sale; Soda Ash is in regular demand, in small lots, at 3¾ for domestic and 5¾ for imported, on time.

BACON—the supply has improved a little during the week, but the demand from the trade to supply orders for consumption has been quite active. Prices have ruled steady, with no change. In retail at such a season, with the varied qualities and trim of the meat offering, the sales as reported during the week embrace about 100,000 lbs. in lots, as follows, viz: 2000 lbs. Shoulders and Sides and Hams, at 5,6 and 10¼@10¾; 2200 lbs. Shoulders and Hams at 8¾ and 11; 5000 lbs. Sides at 8¾; 3000 lbs Ham at 10@10¾; 5030 lbs Shoulders and Hams at 7¾ and 10; 5000 lbs. shoulders at 6@6¾; 3000 lbs. Shoulders and Sides in 4 and 9¼; 3000 lbs do, at 5 and 9; 5000 lbs Hams at 10@ 10¾; 7000 lbs Shoulders at 8; 13,700 lbs Shoulders and Hams at 8¼ and 10¾; 4,000 lbs. assorted at 6¾ 9¾, and 10¾, and 10 lcs Sugar Cured Hams at 12¾. In addition, 2000 lbs Shoulders and Hams at 6, 9 and 10¾ and 1800 lbs Shoulders and Hams at 8¾ and 10¾. The ruling rates to-day are 8 for Shoulders, 9 for Sides, and 10¾ @10¾ for plain Hams, with occasional sales at a fraction more.

BUTTER & EGGS—the inquiry for Butter has been more active than the supply, and some lots have been brought here from Cincinnati to meet the demand; prices tended to. No change of diet to ever necessary—eat the best you can get. Sales in bxs. at 12, in kegs, which, the rest commenced in sweet oil, dissolves scrofulous swelling of the neck and under the ears. Price 50 cents. Price of the Discovery, $1 per bottle.

DISEASES OF THE EAR—Adult, one tube expectorant per day. Children over and 74 at 14, about the supply of Eggs is somewhat increased, but, with a steady demand, these figures will give way; but at present the feeling is pretty steady.

BUCKETS & TUBS—there is a slight difference in the quotations of different manufacturers; we quote as factory prices at New Brighton and Fallston, Buckets, common 1,65@$1,75; extra do $1,85; extra large tubs, 3 and 3 hoops, $7,25@$8,50; common sizes from $6,50 down to $4,25. Keelers $2,75@$3,00; half bushels $4,50.
