GAZETTE OFFICE DEPARTMENT.

PITTSBURGH:

THURSDAY MORNING, APRIL 3, 1856.

Kansas Aid Association.

President—JAMES W. JACKSON.
Rec. Secretary—H. IRISH.
Cor. Secretary—EDWARD F. ALLEN.

Those having business with the Society, or desiring information concerning it, apply to either of the above named persons, either personally or by mail. Office of the Recording Secretary, Fourth street, near Smithfield.

We called at the establishment of J. S. Hall & Speer to examine their stock of Plows and Plow Castings, and were agreeably surprised to find this new firm making such headway against so much opposition, which, upon inquiry, we found attributable to their many new and important improvements in the Plow line.

The Patent Iron Centre Plows deserve our especial attention. They are a new and entirely different Plow from the old Iron Centre Plow; much lighter draught, easier running, and better calculated to suit our farming community than any now in use—and judging from the many premiums awarded by the different Agricultural Societies, and high testimonials received from their numerous customers, they will be the only Plow hereafter used.

Farmers and others wishing to purchase would do well to examine their stock before purchasing elsewhere, as they have the largest assortment in the city. Observe their advertisement in another column.

DISTRICT COURT.—Judges Hampton on the Bench.

The railroad case, CONEY vs. Pa. R. R. Company, occupied the entire day yesterday. The jury will go to-day to Altoona, to view the scene of the accident.

Marshall vs. Carnahan; No. 544, July, 1854. On motion of Mr. Knox plaintiff has leave to enter a cautionary judgment on the verdict will leave to take out execution for the security of the debt.

H. B. Wilkins for use of John G. Curtis vs Susanna Parker; No. 838, January, 1856. The Court direct judgment to be entered against the Exchange Bank of Pittsburgh, Garnishee, for the sum of $78, the amount admitted to be in their hands, to be applied to the payment of the balance of the debt and interest of the original action with costs on the same and on this suit.

COURT OF OYER AND TERMINER, SESSIONS, &c. —Judge M'Clure and Associates on the Bench.

The trial of Greatrake for the seduction of Miss Mary S. Murrry, occupied the entire day yesterday. The case for the Commonwealth closed at noon. The defence was conducted with ability, as indeed was the prosecution, and several times the counsel were at swords point. A number of Miss Murray's letters to the defendant, in which she alluded to her *husband* treating her badly, were read, and offered in evidence. It is proper to say that the prosecutrix declares these letrrs to have been written at the instance of the defendant. If the letters are believed to be true, the charge of seduction will fall to the ground.

ROBBERY.—Two boys named Patrick Carrol and Patrick McManus, were lodged in jail by Officer Dougherty. It appears that a boy named James McAleese, while intoxicated and asleep in a board yard, was robbed of a silver watch worth nine dollars. The watch was offered for sale at a pawnbrokers by McManus, and while he went out for references, the pawnbroker sent for the Officer. Carrol came with McManus and stated that he knew MoM to have had the watch for four or or five years. Dougherty took both into custody. Carrol broke loose on the way to jail but was recaptured.

GREENSBURG STATION.—The number of passengers carried on the Penna. R. R. for the year 1855 from this Station, West, was 10,548, and to it 6,969. The number carried from it, East, 7,270, and to it 10,569. The total amount of receipts for passengers was $14,555.72. The total amount of freight sent from the station was 9,832,063 pounds, and the amount received was 6,047,824 pounds. Of the amount of freight sent from it 2,630,867 pounds went to Phila. 205,197 to Baltimore, and 696,228 to Pittsburgh.

ANOTHER SUICIDE.—Mrs. Smeltzer wife of Jacob Smeltzer who resides a short distance from Adamsburg, Westmoreland county, committed suicide on Tuesday night last by drowning herself in a spring. She had retired with her husband as usual, at bed time, but arose about 12 o'clock, and was shortly afterwards found, on search being made, lying in the water, a corpse.

STORE BURNED.—The store of Mr. George Dixon, of New Alexandria, Westmoreland co., was entirely destroyed by fire on Tuesday night last. The amount of property destroyed will exceed one thousand dollars, part of which was insured. The fire is supposed to have been the work of an incendiary.

LARCENY.—Esquire McKee, of Birmingham, committed a man named John Straub to jail yesterday, for the alleged larceny of two iron bars and a patent bucket, the property of A. & D. H. Chambers. The information was made by James Chambers.

A Cross Suit.—Officer Keep, of the Mayor's police, yesterday brought suit against John and Mary Downs for assault and battery. John Downs, one of the defendants, brought a similar suit against Keep on Tuesday, reported yesterday.

A LIST of valuable Stocks will be sold this evening, at 7½ o'clock, at the Merchant's Exchange, by Mr. Davis, Auctioneer.

[From the Boston Saturday Evening Gazette.]

"The work can scarcely fail of interesting deeply the American reader. Lady Mary lived and wrote in the first half of the eighteenth century, when our land was a component portion of the British empire, and consequently her graphic and large pictures are ours by inheritance. Her letters will be found valuable as well as amusing, aiding the students of history to catch the manners and opinions of English society in high life—then the dominant power of the realm. At the time Britain was building up its dependencies in this western world were working out the problem of American independence and popular sovereignty."

THE subscribers take great pleasure in stating that the Pianos of NUNNS & CLARK, New York have superior fine tone, and the touch is elastic. We do for upwards of thirty-five years, during which period now a SIMILAR EXPERIENCE has been brought out by the manufacturer, and, hence, quite others, who stand in good neither of a SPECIAL SCIENCE nor a labored caution.

Their superiority is so generally admitted, that they may safely be considered as AMONG ALL KINDS of TONE. They have been fully tested in the severest Southern climate of this continent, and have proved beyond all comparison durable and lasting. Purchasers who desire to obtain a piano forte of the most outstanding and elegant description and of whose capacity to WEAR WELL and stand in tune THEY HAVE EVERY NOT A DOUBT, are respectfully invited to call at our establishment and examine for the spring stock of NUNNS & CLARK Pianos provided with their improved new scale.

The steamer Atlantic with Liverpool dates to the 19th ult., has passed here. The following is a summary of her intelligence:

LIVERPOOL, March 18.—Sales of Cotton for the last three days have been 19,000 bales. The market closed dull, with prices easier, but not quotably lower. The depression is confined to the lower qualities. The sales to exporters have been 2,000 bales; to speculators 2,500.

The Manchester market is quiet and firm.—Breadstuffs generally unchanged, but market dull. Nominally the markets are wholly unaltered. The Sugar market closed with an active demand; Coffee dull; the money market closed steady; Consols rather weak at 91¼@92¼.

Peace is considered as virtually concluded.—The arrival at Paris of the Russian Plenipotentiary is only waited for to sign the protocol.

The Empress Eugenie has given birth to a son.

No news has been received of the missing steamer Pacific.

There is nothing in relation to American affairs.

The Atlantic left on the morning of the 10th at 10½. She has 28 passengers.

Passed on the 22nd inst., in lat. 50° 50' 20' long. 22° a steamer supposed to be the America for Liverpool. The Asia arrived out on the morning of the 18th.

LATEST.

Advices from Africa to Feb. 25th, state that the Coast is healthy. Business dull. There had been a disturbance on the Cape Coast in which thirty natives were killed and one hundred wounded.

LONDON, Tuesday Evening.— English funds were again flat to-day in consequence of a continued realisation of stock. Money continues in good supply. Discount easier, though nothing done low er than six per cent.

A proclamation had been issued on the 7th February, announcing the annexation of Oude, and the deposition of the King.

The Sandal rebellion had been renewed.

Trade in India is inactive and prices declining, excepting Indigo.

Baron Manteuffel at latest dates had arrived at Paris, and it was expected the protocol would be signed in a few days. Secrecy as to proceedings of the conference was still observed.

The King of Belgium arrived at London to attend the confirmation of his god-daughter the Princess Royal of England. The young Prince of Prussia is about to visit England to be betrothed to the Princess Royal.

A deputation of the friends of Poland waited on Palmerston, begging him to give instructions to the British Plenipotentiary at Paris to insist on the restoration of Poland. Palmerston replied that the subject should have the consideration of the government.

At Paris during Sunday night a throng of people waited outside the Palace to learn the result of the Empress' travial, and before morning they were apprised of the birth of a Prince, by two lights being placed in a window. Had the infant been a Princess only one light would have made its appearance. At six o'clock this morning a salute of 101 guns announced the birth of the King of Algeria to the whole population. The excitement was great and the congratulations general among all classes. The imperial Prince was privately christened at noon to-day, in the presence of the Emperor, after Mass, in the Chapel of the Fulleries. The ceremony was performed by Bishop Nancy, the Emperor's first Almoner, his Holiness, the Pope being Godfather to the Imperial Prince, and Her Majesty, the Queen of Sweden, Godmother. CONGRESSIONAL.

WASHINGTON CITY, April 2.

SENATE.—Mr. Seward reported the House resolution enlarging the Custom House, Post Office and the Federal Court buildings in Buffalo, which was passed.

Mr. Mason, from the Committee on Foreign Relations, reported a joint resolution permitting Dr. Kane and the Officers associated with him in their expedition to the Arctic Seas in search of Franklin to accept such tokens of acknowledgment therefor as the Government of Great Britain may please to present, in accordance with its wishes on the subject.

Mr. Cass hoped the resolution would be immediately passed.

Mr. Crittenden was quite willing that all proper acknowledgment be given to Dr. Kane by this Government, but he thought it a bad precedent to depart from the ancient usage.

Mr. Seward inquired whether, under the resolution, a little nobility could not be conferred on Dr. Kane.

Mr. Mason had no idea that the British Government would think of offering an acknowledgment of that kind, which it might well be sacrificed. Such a present, he presumed, would be unwelcome to a citizen of the United States.

Mr. Seward desired to express in behalf of Henry Grinnell, of New York, who furnished the funds with which the expedition was prosecuted with so much energy by so many sacrifices and such great results attained, his hope was that the resolution would be adopted.

Mr. Bayard opposed the resolution.

Mr. Mason admitted the wisdom of the provision of the constitution relative to the reception of presents from Foreign Governments, but as that instrument has reserved to Congress discretionary power in matters, they could determine whether this was not a proper occasion to make an exception to a general rule. Mr. Mason cited the instance of Lieut. Maury, who had been permitted to receive a gold medal from the King of Sweden.

Mr. Fuller could not vote for the resolution unless he knew what the British Government intended giving Dr. Kane.

The further consideration of the subject was postponed.

The three million armament bill pending, Mr. Fessenden in allusion to the enlistment question, expressed that Mr. Crampton ought to be dismissed, for after the recent publication of the correspondence it was impossible he could receive that respect which should be entertained for the representative of a foreign power. Speaking of the Clayton Bulwer treaty, he censured Senators for taking so much pains to prove that Great Britain has no good title in Central America, for if our construction of that treaty is correct, it made not the least difference whether her title be good or bad; or whether she had any at all, since she had abandoned it all, be it more or less. A refusal to carry out a treaty stipulation, although involving bad faith, does not necessarily justify a war with Great Britain. She does not pretend to interfere with our rights, nor do anything conflicting with our interests, and we should wait until she gives occasion before we interfere in the Central American affairs. If we expel her in that quarter not one foot of territory will he open. We have no claim to it. As to giving a year's notice to Great Britain to vacate and in the meantime to prepare for war, he was opposed to it.

Mr. Cass said he had watched the manifestations of public sentiment in England and could see no use in continually protesting. Unless some more definite action be taken he did not suppose that England would retract at all. It was not probable she would declare war against the United States; why should she when she has got all that she wants? The true question is, what ought we to do? Shall we continue to submit, or shall we take a decided stand? We will enforce and maintain our rights! Great Britain has changed her grounds three times in regard to the Clayton Bulwer treaty. As fast as she was driven from one untenable position she took refuge in another.

Mr. Butler gave notice that he should discuss the pending bill in the light of a war measure. The subject was then postponed.

Mr. Bell of Tenn. alluded to the rupture between himself and Mr. Clayton yesterday. He regretted the occurrence, as it resulted from misapprehension on his part. If the Senator from Delaware shall say that he did not mean to be personally offensive in his remarks relative to Lieut Maury he was prepared to make the *amende honorable.*

A voice—That's right! General good humor prevailing.

Mr. Bell concluded by saying that he wished it to be understood, that without such disclaimer it was no bargain.

Voice—That's fair.

Mr. Clayton replied that he had no doubt the Senator with himself regretted the disagreeable occurrence, especially as it had its origin in misapprehension. He (Clayton) confessed that he felt warm on that occasion and was sorry for the exhibition. He could not be at malice after the frank and manly explanation of the Senator from Tennessee. He was glad to renew the friendship which for more than twenty years had existed between them. He tendered him his hand with all his heart.

All present were pleased with this adjustment of the personal differences between them.

The Senate then adjourned.

HOUSE.—The House spent its time considering the amendments to the West Point, the Pension and Deficiency Appropriation Bills. Without coming to a conclusion thereon, it adjourned.

NEW YORK, April 2.—Col. J. Watson Webb, the editor of the Courier & Enquirer, telegraphed the following despatch from Washington last night:

"A treaty of peace between England, France, Sardinia and Russia, was formally agreed to at Paris on the 12th March. It awaits the ratification of the different governments before being proclaimed."

NEW YORK, April 2.—The steamer Star of the West from San Juan, arrived this morning with 200 passengers and $40,000 in specie.

The British war steamer Surydice was at San Juan when the steamer sailed. The American brig G. W. Russel was also at San Juan. The schooner Hester A. Jones, of Baltimore, bound for New York, sprung a leak March 12th off Corn Island, and was run ashore. Crew saved but vessel and cargo a total loss.

WASHINGTON CITY, April 2.—The object of the visit of Robinson the Free State Governor of Kansas, to Washington is to ascertain facts and the state of feeling here prevalent relative to that territory. The information transmited thither is contradictory, and therefore unreliable. He will return this week.

While on his way from Kansas to St. Louis, a passenger on the steamboat organised a meeting and heard his statement of affairs with respectful attention.

NEW YORK, April 2.—Flour, heavy and common and medium grades quoted at from 6d to 1s lower, the demand being chiefly for home consumption, with some trifling export inquiry. Holders generally seem more inclined to realise sales, 5000 bbls at $6,81½@$7 for inferior to good State, and $8,25@$10,50 for extra Genesee, the market closing dull with a downward tendency. Canadian Flour, but little doing and prices without important change, sales 800 bbls at $7,62½@$9,81½ for common, superfine to choice extra. The market for Southern Flour is less buoyant, sales 2500 bbls at $7,50@$8, for mixed to choice, $8,12½@$9,12½ for fancy and extra. A large portion of the sales were for export. In Rye Flour there was only a limited business, sales reported of 200 bbls good to fine at $6. Corn Meal in very moderate request without change in prices, sales 500 bbls at $3,-81½ for January, and $3,75 for Brandywine. The transactions in wheat are only to a very limited extent; prices without important change; sales 8000 bush. white Canadian at $1,80, and common red Southern at $1,65. For Rye the inquiry is not very brisk and the market rules in favor of buyers; sales 1600 bush. at the railroad at $1,07. Barley scarce and wanted.

Corn market dull and unsettled, and rather easier; sales 10,890 bush. at 60@67 for inferior to prime new mixed; white and yellow, Southern, Jersey and Long Island. Oats quiet with a moderate business doing at 34@37 for Southern, 37@41 for Jersey and 42@43 for State and Ohio, and 43@46 for Chicago. For Pork the demand is moderate and the market continues very firm; sales 500 bbls at $16,75 for Mess and $15.50 for prime.

There is no change in the price of Beef and the firm feeling in Hams is reported; sales 200 bbls at $8,-25 and $8,75 for country prime; $9,25@$10,75 for country mess, and $11@$18 for re-packed western mess. In prime Mess Beef and Beef Hams, nothing of importance doing, prices remaining the same; small sales Cut Meats reported at 7@8 for Shoulders and 9½@9¾ for Hams Bacon scarce, and market dull; sales 50 boxes short ribbed middles at 9½, 130 boxes long clear middles at 9½ per on board; and 1000 boxes short re-trimmed middles deliverable at Baltimore in May, on private terms. Lard has slightly advanced; sales 400 bbls at 9¾@10. Butter selling at 17@20 for Ohio and 20@25 for state.—Cheese dull at 8@10¼. Whiskey held higher, sales 250 bbls Ohio at 29½; most holders refuse to accept less than 30.

CINCINNATI, April 2.—Flour dull at $6,90@$6. Whiskey firmer, sales 500 bbls at 19½. Provisions firm, Bacon sides held at 8¼. Groceries unchanged. The river is 12 feet scant and falling slowly. Weather cloudy and mild.
