Republican Declaration of Principles.

ADOPTED BY THE PITTSBURGH CONVENTION.

1. We demand and shall attempt to secure the repeal of all laws which allow the introduction of slavery into territories once consecrated to freedom, and will resist by every constitutional means the existence of slavery in any of the territories of the United States.

2. We will support by every lawful means our brethren in Kansas in their constitutional and manly endeavors to the usurped authority of their lawless invaders, and will give the full weight of our political power in favor of the immediate admission of Kansas to the Union as a free, sovereign, independent State.

3. Believing that the present national administration has shown itself to be vent and faithless, and that its continuance in power is identified with the progress of the slave power to national supremacy, with the extinction of freedom, with the tyranny, and with increasing civil discord, it is a leading purpose of our organization to oppose and overthrow it.

The prospect then is that thousands of the old line Whigs of the North, and nearly all of them in the South, will act with the Democratic party *to save the Union.—Pittsburgh Union.*

"TO SAVE THE UNION!" *Yes*, that is the word. How often has the Union been saved?—Who can can tell? Union saving was just as vigorous and important thirty years ago as it is now, and it will probably continue as long as there are men base enough to use it insincerely, or silly enough to fancy it is in any danger and who may thus be gulled into submitting to terms dictated by their slave masters. The only time Union saving was at a discount was when Jackson issued his famous Proclamation. Nullification slunk away before the indomitable will of the Old Hero, and the vocation of Union savers was gone. The disease broke out in a new place in a few years, for the tribe of Doughfaces was never extinct, and it became so contagious and virulent in the time of Castle-Garden-Union-saving notoriety, that even that truly great man Daniel Webster was deceived by it to his own political undoing, and left a shadow upon his fame that time will only deepen. We are to have two Union-saving candidates in the field at the coming election, and the Union will always be in danger, and somebody will always be saving it, until the party that despises Union-saving, and spurns the cant that the Union is in any danger, shall have swept the whole race of Doughfaces from power.

Thousands of old line Whigs, says the *Union*, are going to help the Democrats to save the Union! It must be in danger, then. Somebody must desire to destroy it, and these old line Whigs and Democrats are going to save it. Who are these persons who wish to destroy the Union? They certainly cannot be found in the Free States. We know of no class of men of any influence or political weight who desire to destroy the Union. There is no political party, small or great, which holds such a sentiment, in the Free States. A few men who are denominated Garrisonian abolitionists, we believe hold to some such doctrine, but they refuse to vote, or to take any part in politics whatever. The Union is certainly not in danger from that quarter.

We must look to the South to find the Union destroyers, who give such vitality to the work of Union-saving. They consist of some forty or fifty thousand brawling slaveholding politicians, who having ascertained by experience the great advantages the South has derived from the three-fifth compact, and having tried the efficacy of the threat of dissolving the Union upon the nerves of northern Doughfaces, raise the cry of disunion whenever they have a scheme of villainy to consummate. It proved a sure remedy in the case of Texas Annexation and of the Compromise measures, and they were thus emboldened to try its power to secure the abrogation and the nullification of the letter and spirit of the Missouri compact, and because the patient spirit of the people of the Free States is aroused to the point of resistance to a measure so iniquitous, they resort to the old and stale threat of dissolving the Union, and the whole tribe of Doughfaces are earnestly engaged in saving it.

How do they proceed in their work? Do they say to these disturbers of our peace and quiet, "no, you shall not commit this great outrage; you shall not pollute with your unhappy institution the fair plains of Kansas, devoted by a solemn compact as a heritage for freemen and free labor; you have already been favored beyond all reasonable expectations, and far beyond the designs of the Fathers of the Republic; you shall remain contented with what you have already unjustly acquired; we treat your puerile threats of dissolving the Union as empty boastings, which can deceive no one, and deserve only execration and contempt!" Instead of such manly bearing, they come, cap in hand, to these arrogant slave masters, and say, "oh, no —you must not dissolve the Union; this would be a terrible calamity, and although we do not like slavery—*we are as much opposed to it as anybody*"—yet rather than you shall leave us, *we will submit to everything you require.* You have ruled us ever since we had a government, and although if we yield now we shall be hereafter powerless, and it is very hard to give up a territory we had calculated on for the free laboring population of the Free States, yet we agree to yield everything, if you will vote the Democratic ticket, and give us part of the offices. We will be content with the shadow of power, while you enjoy the substance, and our children must do without their inheritance as best they can, or they must consent to become "poor white trash under the shadow of the lordly slave master."

This is in substance what is meant by saving the Union. This language is not used, but the consciousness is present to every intelligent man that it truthfully depicts his position, and betrays his thoughts while he sacrifices manliness, honor and liberty, on the unhallowed altar of partisan parties.

The success of the Republican party, it is asserted, will endanger the Union. Why? Are the Republicans in favor of dissolving the Union? Oh, no; nobody believes this. What then? Why the slaveholders will dissolve the Union. What for? The Republicans do not propose to interfere with slavery in the States. They bound their opposition to a resistance to its further extension, especially with reference to Kansas. But, say the Union savers, the slaveholders will dissolve the Union if they cannot extend the institution to Kansas by fair means or foul. This is the real significance of the whole story. We do not believe they will dissolve the Union for any such purpose. The threat of dissolution is a bugbear to frighten old women and Doughfaces. No man with manly instincts can be gulled by such absurdity. But if they will dissolve the Union for such a reason, let them go, and take the consequences. The Union was established to secure justice and tranquility, and if we can have neither, and if the price of the Union is base submission, and the slavery of the people of the Free States, we for one are not willing to pay it.

Permit Kansas to come in as a slave State, and the rule of the slave oligarchy will be perpetuated. Its power will be so great that it can always purchase enough of Northern men to secure its sway. If it is not successfully resisted now, there will be but little hope for Freedom for the next generation; but retribution will finally come, although we may not live to see it. Successful resistance now will avert a terrible and awful reaction hereafter, and we do not despair, even this year, to see the men who have done so much to disgrace and destroy the country, buried from power, and their places supplied by those who will bring back the government to the principles of the earlier and better days of the Republic.

THE PRINTING BILL.—The Harrisburg correspondent of the Philadelphia *Ledger*, writing under date of Monday, says:

"The House to-day passed a bill relative to public printing, which will settle that agitating question in the best practicable manner. It takes the rates of the vetoed bill, which were prepared with fullness and care, makes them the maximum and provides for the allotment of the printing to the person or persons offering the highest rate per centum below the prices fixed in that bill. The new section of the bill, embodying the lowest bidder system, was not sufficiently clear, and was amended so as to be made conformable to the purpose indicated. The bill then passed without opposition. It will pass the Senate with like unanimity, and will prove a satisfactory arrangement to all parties. Whatever style exist in the present system will be corrected, and the extravagance and corruption pastural to the elective system will be avoided."

NEW BRIGHTON SCHOOLS.—New Brighton is well supplied with institutions of learning. The Kenwood private Boarding School for boys, under the charge of Rev. Joseph P. Taylor, Rector of the Episcopal Church of that place, offers rare inducements to parents and guardians. The buildings are new and supplied with all modern improvements, and the grounds are extensive and attractive.

The Greenwood Institute for young Ladies, Miss H. Townsend, Principal, has earned a high reputation as a first-class school for girls, and we are glad to learn is in a prosperous condition.

See advertisements for these schools in another column.

New Brighton is a healthy and attractive place, is surrounded with bold scenery, and enlivened with intelligent and pleasant society. It is easily accessible by Railroad, and the schools there, we think, must grow up into extensive and permanent institutions.

ST. LOUIS ELECTION.—To show the manner in which the successful ticket in St. Louis was assailed, we extract the following from the *Intelligencer* of that city, issued on the morning of the election. Is the *Intelligencer* willing, *now*, to be taken at its word?

"If the How ticket is victorious, the result (to use the language of Judge Douglas' organ, the Springfield *Register*,) "will be hailed as a *Black Republican victory* by all *Abolitiondom* in the country. St. Louis will be regarded as a BLACK REPUBLICAN CITY!" For it was not until the eleventh hour that How spoke out—not until he was *forced* to show his hand. And, notwithstanding Mr. How's declarations that he will support the nominee of the Cincinnati Convention, if he stands on a Democratic platform, it is *privately* understood by the *Anzeiger* and by all the Black Republicans of St. Louis, that John How will *not* support *Pierce* or *Douglas* in any event, nor any section a platform which declares in favor of the *Nebraska Bill*. His election will be a Black Republican triumph, and the Abolitionists and Freesoilers will exult over the defeat of Nebraska Democracy here. MARSHALL BROTHERTON stands out in bold relief from such paltry dodging. Marshall Brotherton is a Southern man—a Missourian—proud of the honor of his State—and his great Metropolis—he is Anti-Black Republican to his heart's core. His election will be a withering rebuke to the Greeleys, Blairs, Garrisons and Redpaths, and will gladden and rejoice the hearts of the true patriots of the country."

SOUTHERN AID TO KANSAS.—As an instance of the extent of Southern movements in the way of peopling Kansas, we take the following from the N. O. *Picayune*:

"The Southern expedition to Kansas, under the command of Gen. Jefferson Buford, of Alabama, is expected to start about the 5th of this month. Its force is estimated at from five hundred to eight hundred men, who go out to make Kansas a *bona fide* home, and with the additional design of carrying with them the institutions under which they were born and reared."

OUR BOOK TABLE

THE ISLAND OF CUBA, *By Alexander Humboldt.* Translated from the Spanish, with notes and a preliminary Essay. By J. T. Thrasher, New York, Derby & Jackson.

This is an opportune book, and a valuable acquisition to our sources of knowledge, concerning an interesting portion of the American Hemisphere, which is intimately connected with this country in trade and commerce, and which promises to be in a great measure involved in our future destiny. Baron Humboldt needs no introduction to our readers. J. T. Thrasher is well known from events of recent date, which intimately connected his name with Cuba, in the minds of the American people. The book as a whole affords the very best means of information to the general reader concerning the history, climate, production and soil, geographical, typographical, commercial, social and political characteristics of Cuba, within reach. It is illustrated by a large and good map.

AMERICA A CENTURY SINCE!—In 1765 the following statistical account of English subjects in the Colonies of North America, was taken from militia rolls, poll taxes, bills of mortality, governors' returns, and other authentic sources.—These numbers were exclusive of the military in the pay of the Crown, and the negroes:

Halifax and Lunenburg, in Nova Scotia..	5,000
New Hampshire	80,000
Massachusetts Bay	220,000
Rhode Island and Providence	85,000
Connecticut	100,000
New York	100,000
The Jerseys	80,000
Pennsylvania	250,000
Maryland	85,000
Virginia	85,000
North Carolina	45,000
South Carolina	80,000
Georgia	6,000
Total	1,051,000

The French inhabitants in North America, exclusive of the military and the negroes, were—
Canada 45,000
Louisiana 7,000
Forming a total of 52,000. The English on the continent being more than twenty to one of the French.

SPECIAL NOTICES.

Medical Testimony Cannot be Controverted—On of the most startling cases is narrated of Dr. McLane's Vermifuge by Dr John Butler, of Lowell, Trumbull Co., O. The case was that of a young lady who had been very sick for *eight years*; and had consulted a number of physicians, who had treated her at a great deal of expense. Dr Butler was then called in, and for a time believed with his predecessors that it was a case of Prolapsus. He was however, soon forced to the conviction that his patient was suffering from worms, and after much persuasion prevailed upon her to take two doses of Dr. M'Lane's Vermifuge, prepared by Fleming Bros., of Pittsburgh. This medicine had the effect of removing from her a countless number of the largest size. After she passed them, her health immediately returned. She is since married, and continues to enjoy excellent health.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, and take none else. All other Vermifuges, in comparison, are worthless. DR M'LANE'S Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States, and Canada.

The Medical Faculty and "Kennedy's Medical Discovery."—Physicians are very guarded in their remarks respecting any medicine that may be introduced to the public, especially if the discovery has not received a medical sanction, and we honor them for their precaution and good judgment. But the cures of humors that have been made by Kennedy's Medical Discovery' have astonished even the learned doctors, and as they have stood by the bedside of a patient and seen the favorable results arising from the use of this medicine in cases of Scrofula, Erysipelas, &c., &c., they have been led to exclaim as did one of the most distinguished physicians of State, (Dr. Whitney of Dedham) "*Whatever the medicine is, it is doubtless the best of its kind; keep on with it by all means.*"

Christadoro's Excelsior Fluid Hair Dye, No 6 Astor House.—The claims of this extraordinary article to public estimation, are not based upon the fact that it has been before the world. It is comparatively a new preparation, founded on new discoveries in Chemistry, and it has inaugurated a new era in Hair Dyeing. What are its recommendations?

1st—It changes the Hair of any obnoxious color to nature's black or brown in five minutes.

2d—It assimilates with the Hair, and nourishes instead of burning it.

3d—It is pronounced by eminent Chemists the only safe Hair Dye known.

4th—It is impossible to name an instance of its failure, and it has the widest popularity ever yet accorded to a similar preparation.

For the establishment o these assertions by proofs, see the testimony at CHRISTADORO'S, No. 6 Astor House, where it is manufactured, sold, and applied privately; Price per small box, $1; large box, $1.50.

Sold Wholesale and Retail at the Druggists of Dr. GEO. H. KEYSER, 140 Wood st., sign of the Golden Mortar.

NEW SCALE.

H. KLEBER & BRO.,
Have Received a small lot of
NUNNS & CLARK'S PIANOS:
PROVIDED WITH THEIR NEW SCALE.

THIS IS THEIR LATEST and undoubtedly the most important improvement as yet made to the PIANO FORTE. The POWER of this instrument is almost DOUBLED thereby, and in point of volume, sweetness and brilliancy of tone, they surpass anything as yet produced in the shape of a Piano. They possess all the advantages of the GRAND PIANOS without any of its drawbacks. We now challenge competition with the instruments of any other maker in this country, confident that every unbiased judge of the subject will readily admit their superior ty. The public is respectfully invited to call and examine them before purchasing elsewhere.

WORCESTERSHIRE SAUCE.

whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman, who writes to LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce to a tear I have just committed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and I think medicinal. I can with truth say there is nothing in a traveler's baggage so essential to his comfort, at least in these countries, as your Sauce.

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms: "Tell Lea & Perrins that their sauce is highly approved in India, and that it is, in my opinion, the most palatable as well as the most wholesome sauce made."

This sauce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine can be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

A CARD.

☞ The public are respectfully requested not to confound DR. CALVIN M. FITCH with myself. DR. S. S. FITCH, 714 Broadway, N. Y., the author of "SIX LECTURES ON THE PREVENTION AND CURE OF CONSUMPTION; AND THE LAWS OF LIFE," and long and widely known for treatment of Lung Diseases, Heart Affections, and other Chronic Maladies. I have never lectured or practised medicine in any part of the Western country, and since the year 1846 I have not been absent from the City of New York for the purpose of lecturing or practising medicine any where and I am not now and do not propose to be at any time so absent from this city. I have not had, nor have I now, any professional associate lecturing or practising medicine elsewhere. I do not, and will not, hold myself responsible for the practice or transactions of any person practising medicine absent from my own office.

Those who desire my advice or treatment can obtain it only by application personally, or by letter, to myself at my residence 714 Broadway, N. Y., and my medicines and mechanical remedies can be had only by applying to me or to my regularly authorized agents.

Prescriptions, with full directions, will be sent gratuitously on application as above, and a statement of the symptoms of the case and the remedies prescribed may be obtained at my agencies. Advice given at all times to such patients without charge. I always prepare all the medicines I use, and never send my patients to the apothecary, or subject them to the inconvenience and hazard of preparing them themselves.

Dr. S. S. FITCH'S "SIX Lectures," above mentioned, a new edition of which is now in press, and will be issued in a few days, together with pamphlets, containing essential portraits of the Author, will be sent by mail, or may be had of my agents. Price in cloth—all but sixteen cents.

Read, Read, Read. Ye Afflicted!

H. T. HELMBOLD, Chemist, of No. 293 Chestnut st., Philadelphia, sole manufacturer of the genuine Field Extract Buchu for Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weaknesses, &c., has accomplished the most extraordinary cures of other similar remedies ever offered to the public. The Fluid Extract Sarsaparilla for purifying the Blood: and the cure of Scrofula, Tetter, Scald Head, Salt Rheum, Pimples on the Face, and all Eruptions of the Skin, Never fails to effect a cure in a single instance.

The above preparations are not quack nostrums, poisoning little or no virtue, and doing more injury than other good. The Compound Sarsaparilla is an extract of the Sarsaparilla Root, in a highly concentrated form, one bottle of which equals in strength one gallon Syrup Sarsaparilla; and the Compound Buchu is an extract of the Buchu Leaves, both of which are the most active which can be made. They have invariably given the most perfect satisfaction to practitioner, whether in town, country, hospital or private practice, the most decided and unequivocal testimonials, and produced the most salutary and beneficial effects

The Satisfactory Remedy.—From all parts of the country, north and south, the proprietors are almost daily in receipt of such flattering testimonials as the following, relative to R. A. Fahnestock's unequaled Vermifuge:

GREENSBOROUGH, Ala., April 18th, 1854.

Messrs. R. A. Fahnestock & Co.—I have been selling your Vermifuge in this place for 4 years, and take pleasure in stating, for the information of the trade and of the public, that it has been, so far as I know, one of the most satisfactory remedies in the market, and one of the most saleable medicines we have. I have also personal knowledge of its good effects in many cases under the treatment of our physicians, all of whom use it regularly, and have found it to be mild and reliable as a worm remedy. I can recommend it as one of the most and best in the market.
