Republican Declaration of Principles.

ADOPTED BY THE PITTSBURGH CONVENTION.

1. We demand and shall attempt to secure the repeal of all laws which allow the introduction of slavery into territory once consecrated to freedom, and will resist by every constitutional means the existence of slavery in any of the territories of the United States.

2. We will support by every lawful means our brethren in Kansas in their constitutional and manly resistance to the unprovoked authority of their lawless invaders, and will give the full weight of our political influence in favor of the immediate admission of Kansas to the Union as a free, sovereign, independent State.

3. Believing that the present national administration has shown itself to be weak and faithless, and that its continuance in power is identified with the progress of the slave power to national supremacy, with the extinction of freedom, the territory, and with increasing civil discord, it is a leading purpose of our organization to oppose and overthrow it.

NEW JERSEY.—A Republican State meeting was held at Newark on the 9th. The immediate object was to effect a permanent State organization of the Republican party. The attendance was large, comprising men from all parts of the State, and great enthusiasm was manifested. An address, and a series of strong resolutions were adopted. They declare that the people of New Jersey will insist upon the admission of Kansas as a Free State, and Free State only, and take ground earnestly in favor of discarding old party issues, in order that the strength of the State may be centered upon the question of the predominance of Slavery or the triumph of Freedom. A State Convention, for the election of Delegates to the Philadelphia Convention, is called to meet at Trenton on the 22d of May.—An evening session was held, at which Senator Wade, of Ohio, spoke with great effect for nearly two hours. The demonstration throughout was harmonious and significant.

A LETTER from Kansas to the New York *Times*, states that the widow of Thos. W. Barber, who was so inhumanly murdered near Lawrence last December, continues in a state of mind bordering upon despair. She is seldom induced to take any food whatever, is lonely, unsocial, and walks the room, mourning her great loss almost without cessation. The widow of Brown, who was *chopped* to death at Easton the middle of January, is a *raving maniac*, and will probably continue in that deplorable state till her death. Such are some of the living evidences of that social and civil injustice they have suffered, which will forever cry to heaven for revenge. The brothers of Barber have gone to Kansas to settle. They will probably be on hand if the Missourians invade the State again.

NEW YORK AND NEW ENGLAND GIVEN UP!—The *Pennsylvanian* deplores, in most piteous terms, the steady advance of the Republican sentiment, and admits that New England and New York are gone. It says:

"So general is this sentiment [the Republican] in the States north of us, that many professing the Democratic name are infected, and the masses generally, even those not organized in the Black Republican party, are borne away by the popular current. It is a melancholy confession to make, but the Democracy—or what ought to be the Democracy—in those States, is at this time generally defeated by Black Republicanism; or is disorganized by the Freesoilism within its own ranks. There are thousands, of course, who have not bowed the knee to the Black Republican Baal, but the mass has been deluded and temporarily misled. For illustration, what New England State would sustain by its vote a sound platform like ours of the 4th of March? Would New York even? New Jersey, we think might, for she seems orthodox; but what other?"

The *Pennsylvanian* seems to think that Pennsylvania even is in danger, if Mr. Buchanan is not nominated. In enforcing the propriety of Buchanan's nomination, it says:

"But we do not wish to run any risk. We think that it is very unwise in our fellow Democrats of other States to ask us to run the risk; especially as their own interests—the interests of the Democracy of the whole Union—nay, the very Union itself—are so deeply involved; for if Black Republicanism carries Pennsylvania, in the next campaign, the Union will assuredly be in peril."

Recollect that the "Black Republican" party, which so alarms the *Pennsylvanian* has not been one year in organized existence in Pennsylvania.

MAKING A FREE STATE.—We used to be told by the Black Democratic prints that the object of the repeal of the Missouri Compromise was to help make Kansas a Free State. Here is the way one of those "democrats" writes to the St. Louis Republican, aboard the steamer Lucas, on his way to Kansas:

"There are a party of Southerners on the Lucas, some of whom have negroes, and all 'sound on the goose,' going to Kansas. I have got acquainted with five gentlemen from Newnan, Georgia, who are an exploring committee from their section of the State. They tell me if they report favorably, which they doubtless will do, several thousand good citizens will come on their recommendation, so as to be in the November election in time to vote at the October election.

Let Kansas become a Free State, and then farewell to Southern rights, peace, and the Union. The South cannot do without Kansas; it must be a Slave State, and let the other Southern States help Missouri to make it so. If, however, this trip of the James H. Lucas is a type of the emigration to Kansas, it is all a one-sided business—in favor of the South and Slavery."

A JUST REBUKE.—Mr. GEO. W. BIDDLE was a candidate before the Democratic Convention in Philadelphia, for Solicitor, and while the question was pending he arose and stated:

"That he was the identical school Director in the First School District who first came to the conclusion that the Bible was an improper book to be taught in the Public Schools. He did think, he said, without wishing to offer a "bid" for their votes. Mr. Biddle said he was a Protestant, but went for the exclusion of the Bible because there were pupils in the schools who did not believe in the version in use."

This disgraceful statement was received by the Convention with ominous silence, and when the vote was counted, Mr. Biddle had 47 votes out of 179 cast.

THE New York Herald's Washington correspondent gives the following, which, if carried out, will leave the Northern members of the Convention but little to do in nominating a President:

"A secret circular has been sent to the leading Democrats of each of the Southern States, proposing a union of all the Southern delegates to the National Convention, before leaving for Cincinnati, upon one man as their candidate for the Presidency. It is urged that such a step is rendered necessary under the present state of things, for Southern security against Northern fanaticism, and that the safety of the South consists in the choice of some person for the Presidency on whom they can with certainty rely."

TEMPORARY SLAVERY IN PENNSYLVANIA.—The *Pennsylvanian*, Mr. Buchanan's organ, urges the re-establishment of temporary slavery in our old Commonwealth:

"While affected with spasmodic Abolition sentiment, our Legislature, in 1847, repealed our good old law of 1780, allowing citizens of other States to *reside six months with their slaves* in our State, and providing for a regular rendition of fugitives; provisions which were dictated by ordinary courtesy and good feeling towards our sister States, and ought to be re-enacted."

Mr. Buchanan long ago said that Northern Democracy was the only ally of slavery which could be depended on, and facts prove that his judgment of his political friends was correct. Such base truckling to the fell and inexorable spirit of slavery was never seen before.

The Steubenville Herald states that it understands that the Steubenville and Indiana Railroad Company are entertaining a proposition from the Cleveland and Pittsburgh Railroad Company, to change their track to the Ohio gauge. The latter road, it is said, is to be in running order from Steubenville to Rochester where it will connect with the Ohio and Pennsylvania road, by the first of August next.

PHILADELPHIA.—The Republicans of Philadelphia have nominated a full ticket for the approaching Municipal Election: Mayor, Wm. B. Thomas; Solicitor, Wm. A. Pierce; Controller, Lewis S. Heins; Receiver of Taxes, Geo. Simpson; Commissioner, J. F. Heckman.

Hame Manufactures.

That Pittsburgh is one of the best locations (if not the very best) in the United States for a large manufacturing city, has long been a favorite subject with me, and the steady uniform progress it has made the last twenty years goes far to establish it as a fact. It would indeed be difficult to find a position any where commanding so many advantages, surrounded on all sides with an almost inexhaustible supply of the principle staple products for manufacture, command ing a high, dry and healthy location where a large population can live well and cheaply, and connected as it is by Rail Road and river navigation, with the most extensive and richest portion of our *Union*, what may *we* not predict for the future prosperity of Pittsburgh. It is true that we do not make such rapid progress as some of our western cities which spring up like magic, and fill the most sanguine with astonishment, but like the tortoise in the fable, though slow, we hope to be sure in arriving at a permanent state of prosperity. Various causes perhaps may be assigned for this difference in our advancement I shall notice only one—the want of faith in a large portion of our population in our advantages and embracing them with that energy which invariably insures success. We have also those amongst us, who are ever fond of novelty, who think that an article bought in Philadelphia or New York under the semblance of foreign manufacture must be better than any thing made at home. I have heard of instances of some of our fine glass ware being purchased in Philadelphia, and brought out here for use, and shown as articles of great merit in the beauty of design and workmanship. Now that this may be the case in many other departments I have no doubt, for although I have watched with great satisfaction the progress of the manufacture of the more ponderous and useful articles of life, and their advancement towards perfection in design, I was not prepared to hope that the more refined articles of luxury would so soon be made here. In connection with this I would state that I have lately seen some specimens of jewelry executed at the establishment of Messrs. J. B. McFadden & Son, destined for Canada, the donation of Queen Victoria. These articles in chastness of design and beauty of workmanship are very superior to any I have seen of their boasted Eastern workmanship or even that imported from Paris where they claim to be *par excellence* in this department. To one who remembers when there were but two watch cobblers in Pittsburgh, this steady progress towards refinement and wealth may be viewed with satisfaction; and may all remember that the true principles of political economy, will apply to localities and individuals as well as nations, and before purchasing elsewhere examine well our home manufactores. GOV. SEWARD'S SPEECH.

WASHINGTON, Wednesday, April 9, 1856.—Gov. Seward's speech to-day appeared to be generally regarded as the great argument for the admission of Free Kansas. Less complete history of the Kansas controversy than Judge Collamer's, less effective as an appeal to popular sympathies than Gen. Wilson's, it stands unsurpassed in its political philosophy and, unequaled as an exposition of the true genius of our institutions and of the essential character of the contest whereof Kansas is the arena. Its delivery was more animated, deliberate, and impressive than that of any speech ever before made by Gov. Seward, and the attention of the Senate was fixed and unabated throughout. The galleries were filled, and so many Congressmen were present in the Chamber as to leave the House without a quorum, necessitating a call; that concluded, the House adjourned, and the Members were flocking back into the Senate again. The concluding portion was given with a felicity and subdued force which I have rarely seen equaled.

The Pro-Slavery leaders were especially attentive from first to last; Messrs. Toombs, Butler, Douglas and Mason, emphatically so. Gen. Cass, whose position with respect to Kansas has not yet been openly taken, also regarded the speech with observing interest; so did Senator Badger likewise. It seemed universally conceded that no nobler effort had for many years been made in either House.

At the close, Mr. Douglas gave notice that he should press his Enabling Act. H. G.

THE SLAVE MOTHER MARGARET—THE GAME OF HIDE AND SEEK—It will be recollected that Mr. Gaines announced some time ago in a statement which was republished in the Gazette, that he had sent Marshal Butts after Margaret, and would surrender her to the requisition of Gov. Chase, as soon as she could be brought back.

Butts returned with her a week ago yesterday, having traveled the last part of the route with Gov. Morehead, who said he would telegraph her arrival to Gov. Chase as soon as he reached Frankfort.

Margaret was placed by Gaines in Covington jail to await a requisition. On Wednesday, Mr. Cox the prosecuting attorney, received the necessary papers from Gov. Chase and the next day (Thursday,) two of the Sheriff's deputies went over to Covington for Margaret, but did not find her, as she had been taken away from the jail the night before. The Judge who had given her up on Wednesday night, to a man who came there with a written order from her master Gaines, but could not tell where she had been taken. The officers came back and made a return "not found."—*Cin. Gaz.*

GOOD OMENS.—The election in Connecticut which has just terminated in the defeat of the Locofoco Democracy, may be taken as a warning to that traitor, Senator Toucey, to set his house in order, is a last of the series in which the most desperate, but fortunately unavailing, efforts have been made to suppress the spirit of Liberty in New England. All that could be done by the most unscrupulous exercise of Executive, article to public estimation, are not been left undone that it has been before the world. It is comparatively a new preparation, founded on new discoveries in Chemistry, and it has inaugurated a new era in Hair Dyeing. The best are its recommendations:

1st—It changes the Hair of any obnoxious color to nature's black or brown in five minutes.

2d—It assimilates with the Hair, and nourishes instead of injuring it.

3d—It is pronounced by eminent Chemists the only safe Hair Dye known.

4th—It is impossible to name an instance of its failure.

5th—It has the widest popularity ever yet accorded to a similar preparation.

Dalley's Genuine Pain Extractor.

Its friends are the Million—and intelligent!

Its enemies, the ignorant—the bigoted—the selfish—and the criminal counterfeiter!

The honest and unsuspecting are imposed on by the latter, who endangers the lives of the credulous, by the mere sale of paltry gain! I leave it to a discerning and impartial public to decide, what punishment the wretch deserves, who could inflict pain and suffering, and hazard the life of a fellow creature, for the mere sake of benefiting his own pocket.

The great and principal characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist:

1st. Of its never failing and unique property, as soon as applied to any external injury, to CEASE INFLAMMATION INSTANTLY, and rapidly to CURE. This latter feature constitutes its great power to relief to the pain of burns and scalds, and of other painful diseases, in an incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every Intelligent Family will be fully aware that, in all cases of external injury, the pain is produced by inflammation of the injured parts; and, therefore if you remove the cause, the effect must cease.

2d. Its pacificative properties neutralize the poison that may lurk in the system, and will when applied to the sores, draw rapidly all impure matter to the surface, and heal from thence the great disease it produces from some occasioned by burns—and when applied to old and inveterate sores, Salt Rheum, or other cutaneous diseases.

Nelson's Ambrotypes.

The Ambrotype is decidedly the most pleasing, beautiful and durable style of Portrait ever known to the art. Their tone is soft, velvety and harmonious in the extreme, never obtained by the old process. Being taken off glass, they are consequently brilliant and yet the tints of the cheek are as perfectly delicate in any like the finest ivory. Unbleached 20% only more transparent. Little children are a specialty. Family groups are exceedingly brilliant and yet the shadows are soft. By no other process can pictures be made so perfectly beautiful. We respectfully invite our friends and the public generally to call and examine specimens and judge for themselves. Remember the place.

MR. SEWARD'S SPEECH, with one or two exceptions, is warmly commended by the press of the Eastern cities, even by those opposed to him, for its masterly ability, purity of diction, elaborate finish, and its majestic eloquence.

We refer those interested to the advertisement of an experienced Book-keeper, wanted. The gentleman referred to is of high character, and first rate acquirements.

MAINE REPEALS THE MAINE LIQUOR LAW.—The lower House of the Maine Legislature, some days ago, passed a new temperance bill, concurring with the Senate by a vote of 78 to 68, after seemingly careful and deliberate examination of the subject. The bill was introduced by Mr. Barnes, and was strongly opposed by the advocates of the prohibitory principle, which it repudiates.

ALTON, (Ill.,) April 9.—A committee of business men of Kansas are here taking steps to establish a line of steamers from this city to Kansas, for the accommodation of Northern emigrants and merchandize. They will proceed to Chicago, Cincinnati and Pittsburgh, to perfect arrangements.

MILWAUKIE, April 10.—The American State Council of Wisconsin have repudiated Fillmore, and nominated Banks.

DIED—In the city of New Orleans, on Wednesday, April 9th, of Pulmonary Consumption, Dr. WILLIAM I. WILLS, of this city, in the 32d year of his age.

SPECIAL NOTICES.

Medical Testimony Cannot be Controverted—On of the most startling cases is narrated of Dr. McLane's Vermifuge by Dr John Butler of Lowell, Trumbull Co., O. The case was that of a young lady who had been very sick for *eight years*; and had consulted a number of physicians, who had treated it as one of Prolapsus Uteri. Dr Butler was then called in, and for a time believed with his predecessors that it was a case of Prolapsus. He was however, soon forced to the conclusion that his patient was suffering from worms, and after much persuasion prevailed upon her to take two doses of Dr M'Lane's Vermifuge, prepared by Fleming Bros, of Pittsburgh. This medicine had the effect of removing from her a countless number of worms, the largest size. After she passed them, her health immediately returned. She is since married, and continues to enjoy excellent health.

☞Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, as others of inferior value are now being palmed off on the unsuspecting public, as the genuine article. All other Vermifuges, in comparison, are found lacking. Dr M'Lane's Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States, and Canada.

Read!--Mrs. Read, a Lady of Morgantown.

I have frequently used Dr. McLane's old Liver Pills, for years past. I find Dr McLane's Improved Liver Pills, prepared by Dr. T. Scott & Co., are superior to the old Pill, and more mild in their operation, one dose having sufficiently relieved me from a severe Headache.

MRS. READ.

Dr M'Lane's Improved Liver Pills and improved Vermifuge, also Dr. I. Scott's Celebrated White Circassian Liniment, prepared solely under the supervision of Dr. I. Scott, a Regular Medical Graduate and Physician of extensive practice.

None genuine only as prepared by Dr. I. Scott & Co., sole Proprietors, Bank Place, Morgantown, Va. Dr. McLane's Improved Liver Pills and Improved Vermifuge accompanied by certificate of G. McLane.

All the above Medicines for sale by

Dr. GEO. H. KEYSER, 140 Wood street, Wholesale agent
JAS. P. FLEMING, Allegheny, near R. R. Depot, whole sale agent.
