GREATEST IMPROVEMENT YET!
NEW SCALE.
H. KLEBER & BRO.,
Have Received a small lot of
NUNNS & CLARKS'
PIANOS,
PROVIDED WITH THEIR NEW SCALE.

THIS IS THEIR LATEST and undoubtedly the MOST IMPORTANT improvement as yet made to the PIANO FORTE. The power of the instrument is almost DOUBLED thereby, and in point of volume, sweetness and brilliancy of tone, they surpass anything as yet produced in the shape of a Piano. They possess all the advantages of the GRAND PIANOS without any of its disadvantages. We now challenge competition with our instruments of any other maker in this country, confident that they, on examination, will stand unrivalled and we will at once solicit their superiory. The public is respectfully invited to call and examine these superb instruments.

TELEGRAPHIC

NEW YORK, April 22.—A dispatch from Providence, Cape Cod, has been received to the following effect:

A bottle drifted ashore here to-day containing a paper with the following words upon it:—"Off Grand Banks, in the steamer Pacific; must go; steamer out of order; send assistance immediately. (Signed) ASA ELDRIDGE."

The above is evidently a heartless hoax.

The gale of yesterday and last night did considerable damage in this vicinity. Many trees were uprooted, buildings unroofed, and two or three Church-spires demolished. One of the spires of the new Congregational Church in Brooklyn, fell upon and stove in the roof of the Church, doing much damage. The immense Cross on St. James' Cathedral in James street, Brooklyn, was also blown down, and considerable injury was done to the shipping in the docks.—A schooner, the name of which is unknown, was driven ashore on Throgs Neck.

The Aspinwall Mail Steamer George Law, did not go out, but anchored in North River. The Sound steamers remained in their docks up to midnight. Towards morning the wind lulled, but it continued to rain at intervals.

WASHINGTON CITY, April 22.—The bill to alter and amend the act establishing a Circuit Court of the United States in California was passed.

An anti-Nebraska caucus was held at the Capitol to-night. Messrs. Pennington, Hale and Harlan were appointed to nominate an Executive Committee; they reported the following names, which were confirmed:—Messrs. Collamer and Wilson of the Senate and Mace and Norton of the House. Mr. Galloway gave a favorable account of the state of public feeling in Ohio, from where he recently returned.

Justice Nelson to-day delivered the opinion of the Supreme Court on the case of the State of Pennsylvania, against the Wheeling and Belmont Bridge and others, dissolving the injunction granted by the Circuit Judge, and overruling the motion for writs of assistance and attachments and granting motions for the taxations on the costs therefor.

CINCINNATI, April 22.—Flour steady $5,60@5,75. Provisions very firm; Bacon, Sides and Shoulders held 8¼ and 7¾; buhs sides 7¾; Mess Pork $15. No. 1 Lard 9¾. Whisky steady, 19½c. Groceries firm.

River 14 feet and stationary. Weather pleasant.

By Last Night's Mails.

WASHINGTON CITY, April 21.

SECRETARY OF WAR.—Secretary of War to transmit copies of all letters not heretofore communicated, which were addressed during the present year by Gov. Stevens of Washington Territory, respecting the difficulties with the Indians, together with all correspondence relative to hostilities in Washington and Oregon Territories.

Mr. Toombs, from the Judiciary Committee reported back a bill to amend the naturalization laws, with recommendation that it do not pass.

On motion, Mr. Adams' bill was made the special order for May 12.

The bounty land bill was discussed for a short time and then laid aside.

Mr. Clay replied to speeches of Messrs. Seward, Sumner, Wilson, and Harlan on the bill for the admission of Kansas. He complemented the Executive for his course regarding Kansas matters, and for the firmnes and consistency he had exhibited in maintaining the rights of the entire country.

The position he said had been abused by Abolitionists and Southern Americans on exactly opposite grounds. He had opposed the extremes of both parties by occupying middle ground, and pursuing a course consistent with the rights of North and South. As to alleged aggression of the slave power, he said so far from there being any truth in the charges, the South had ever since the foundation of the government been gradually yielding to the encroachments and usurpations of the North. He would at some future time vindicate Northern and Southern Democrats from the charge of entertaining enmity against the North or South.

Senate adjourned.

House.—Upon assembling, the House immediately proceeded to vote on the action of the Committee of the Whole on the Senate's amendments to the Appropriation Bill. Amendment to appropriate $300,000 for continuing the work on the Washington aqueduct, was rejected by 27 majority.

The amendments were not all disposed of when the House adjourned.

NEW YORK, April 21.—The storm which commenced here Saturday night, has increased and is now blowing with great fury from the Northeast, with heavy rains at intervals.

The N. Y. Tribune's Washington correspondent says that the Government has received no dispatches from Mr. Dallas by the last steamer, in regard to the difficulties between the two countries; nor any notice from Mr. Crampton that he had received the answer to Mr. Marcy's demand, which has been so long promised. At latest accounts, Mr. Dallas had not been presented to the Queen, probably owing to her absence at Windsor, but he had been formally recognized by Lord Palmerston, and was transacting business at the Foreign office.

The rumor from here of the contents of Minister Wheeler's despatches are entirely fabricated. Nothing has come from him concerning the recent hostilities.

The reported challenge of Senator Douglas by Col. Lane has very little foundation. No challenge has been given, and no correspondence between them exist, except a note from Col. Lane to Douglas to which he believes Col. Lane from imputations which were implied in the latter's comments on the Kansas Memorial. To that note, it is expected a satisfactory reply will be made.

CAIRO, April, 21—Weather clear and cool.—Rivers rising slowly. Steamer Fanny Bullet S. M. Kennett for N. O. passed to day. Steamer America for St. Louis with a number of Southern emigrants for Kansas, calling themselves the "Southern Kansas Guards," passed to day.

They all wear a dress uniform and their become bearing initials S. K. G. They can accurately be called a promising set.

NEW YORK, April, 21.—Robert L. Stevens, of Hoboken, widely known by his connection with steamboat enterprises and by his floating battery in course of construction for this harbor, died yesterday, in the 68th year of his age.

BOSTON, April 21.—Severe N. E. gale. Heavy rains continue. No Marine disasters. It is probable most of the vessels on the coast were warned in time to get offings.

MILWAUKIE, Wis., April 21.—The engine house of the L. S. R. R. was destroyed by fire this morning. Four locomotives were badly damaged. Loss $10,000 to $15,000.

COAL LAND FOR SALE—83 acres best of Coal, and 160 acres surface, immediately back of East Birmingham.

This land is nearer to the city than any other in market, and offers a rare chance for purchasers. The surface is rolling and beautifully situated for country seats, from 20 to 30 minutes' ride from the city, on a road of easy grade. The summers there are cooler than in the city. There are no seams and obstacles to low lands, rendering it one of the most pleasant and healthy locations for residences. Reference is made to Wm. Eichbaum, Jr., who owns and resides on adjacent property. It will be sold in five and ten acre lots, or together, as desired. If not sold by the first day of March, it will be disposed of at public sale.

Warren's Improved Fire and Water Proof Composition Roofing.

HAVING been for the last eleven years exclusively engaged in the manufacture of the above roofing, now much used in all the principal parts of the Union, during which time it has been tested under every variety of circumstances, and, improved in every particular wherever experience showed that it could be done and has been called upon by the *Pennsylvania Railroad Company* to do a job in that city in 1853, and again in 1854, over the *Duquesne Depot* in 1854, (for both of which jobs they imported our materials from Philadelphia at their own risk of charge,) we have been induced to open a branch of our business in this city, and being prepared to do it on as large an extent, we confidently offer our roofing to the patronage of the citizens of Pittsburgh and vicinity. Its cheapness, durability and perfect freedom from repair, render it the most desirable roofing in use.

The best proof that the roofing is from one-half to one inch to the foot—but we can under favorable circumstances apply it to a much greater pitch, even five or six inches to the foot. Those having leaky roofs of any kind can have them recovered in this method with the speed and certainty of having good tight roofs. We allow the application of some of our roofs, which may be examined. For further information, address, or personal application can be made at our office. All work warranted.

BELTING
Patent Riveted and Stretched
LEATHER BELTING,
From the Manufactory of Holt & Brothers,
NEW YORK.

TO the Belting of this manufacture has been awarded the Gold Medal and Diplomas from almost every Fair and Institute throughout the United States for the most rounded by the American Institute, New York, at their last meeting in the Fall of 1853. It is of superior quality, every branch of the business being conducted by themselves at their own receiving house, (having from one to two years' stock, framed at their own tannery, after the hides and shoulders have been trimmed and returned to New York thoroughly tanned, fresh from the vats, curried immediately, wet and dry stretched on machines of every modern improvement, cemented and riveted with their patent copper rivets, and burrs which make a perfectly even surface on both sides of the band, causing them to run truly on the pulleys and giving a power of more than 20 per cent. over those made in the ordinary manner. To mechanics of all kinds, to cotton and woolen manufacturers, rolling mills, paper mills, saw mills, grist mills, planing establishments, owners of grist mills, cotton gins, bleach works, dye houses, in short to every consumer, this Belting is especially recommended as the best and most reliable article of the quality of this Belting.
