WINDERSON MORNIO, April 2, 1660.

France Alf. Association.

France Alf would be disingenuous to deny that the question has become an element in our political circles seem to have a tendency to ultraism, and to be lasting or permanent it appears to be esential that their measures should be character-terized by moderation and wisdom. Experience District Court.—Judge Williams on the Bench.

The case of Covode & Graham vs M. & J. Broidenthal was concluded yesterday, by with drawing a juror and referring it to John G. Martin, B. D. Thompson and J. E. Brady, Esq's.

Francis McKee et. al. vs Sanuel Gordon; No. 222 January 1864; Séhlen for plaintiff; action on a scaled note. Verdict for plaintiff for \$368,51. sential that their measures should be characterterized by moderation and vision. Experience
proves that reforms to be successful and permanent ought to be gradual, and that spasmodical
innovations in the attempt to gain too much often loses all. Is not the repeal of the late act
some evidence of that state of feeling, and will
the existing law commend itself to the approval
of the people? So far as we have any agency in
the matter we intend to give it a fair trial.

The document was approved of by the Board.

Mr. Albree moved that in all the action of the Board, said action shall be deemed unanimous, no matter what may be the difference of opinion entertained by the minority. Adopted.

APTERNOON PESSION.

The Board met again at two o'clock. Their solion was preparatory only, the work of apportionment to commence to day.

Mr. Bruce appeared for the Commonwealth, and replied briefly to the positions of Judge S. Mr. Howard, on the part of Coursed Schaad, contended that it had been proved that at the time the money was got from Ammon, his client was worth all he represented—\$5,000 in houses, the rent of which was \$500 per annum. Since that time multortune, overtook him, and the defendant was to be crushed therefor. He alluded briefly to the motives which induced the prosecution.

The decision of the Court was reserved. The decision of the Court was reserved.

WESTMESTER COLLEGE.—We find in the Law rence Journal a communication in relation to the difficulty between the faculty of Westminster College, New Wilmington, Na, and the students, resulting in the susponsion of seventeen ladics, and as there are many of our city readers interested in the Institution, we give below a condensation thereof:

The College has been in existence several years, and is supported by the members of the Associate (Secoder) Church in this vicinity. The endowment was eccured by the scholarship system. Shortly after the organization, the ladies of the College formed two Literary Societies. The Indies yielded, bit when the First wards and the proposed of the Society be held in the forencent, they after the organization, the ladies of the College formed two Literary Societies. resolution of the Faculty to compolitate these societies. The Indies yielded, but when the Faculty announced their determination to further interfere they resolved to resist. The Faculty first ordered that the contest of the Society beheld in the forencom; they afterwinds allowed them the afternoon. The ladies engaged a brass band, and were proceeding to adorn the Hall must be unadorned, accompanied with expressions of contempt and ridcule in regard to the stabilition. The ladies then passed resolutions giving up the contest, which they read to the Faculty and the Students, by permission of the Faculty and the Students, by permission of the President. As soon as the reading was conducted, seventeen ladies were asspended.

HOW IT CAME TO BE KNOWN

HOW IT CAME TO BE KNOWN.

When I first commenced practice in New York come 20 years ago, my attention was almost immediatory called to the many and increasing cases of Ecrofolous (complaints, and for which no certain or successful mode of treatment could be adopted. I began to make myself familiar with most unremitting islow. I prepared and began to analy the 'Ecrofulous Antitote' in my practice, with the MONT REMEMAN ABLE SUCCESS. It has now been known in the practice over eight years, and so great has the demand of ports of its unreactions correctly the suffering throughout the country, the benefit of its wonderful curative properties.
