Three Days L

ARRIVAL OF

The Cunard steamer Ara
morning with Liverpool dates to the 12th inst.
Her papers furnish little political news of importance apart from that received at New York by the Arago. The Cunard steamer Persia had arrived at Liverpool in 9½ days passage from New York.
The large arrivals of Breadstuffs and the expected from the foreign ports so long blockaded had affected the market and transactions were made with a considerable decline in prices. In Cotton there had been an active speculative demand and prices are 1-16 higher; the sales for the week were 70,000 bales. Provisions are a shade higher.
The Money Market is unchanged; Consols for Money are quoted at 93¾.
The Arabia arrived at Halifax at 7 o'clock in the morning.
The British steam frigates Tartar and Desperate returned after an unsuccessful cruise in search of the Pacific, the two steamers searching separately, the Tartar having proceeded as far West as Long. 25, on parallel latitude 55. Guns were fired every two hours during the night and a vigilant look-out kept during the day. Capt. Dunlop is confident the Pacific cannot be South of latitude 55.
On the conference in Paris, the correspondent of the Post says the telegraph is constantly employed on the Italian question between Rome, Naples, Vienna and Paris, Count Cavour's proposition having been referred to those courts, and France and England will make a decision. A journal of the proceedings of the Congress is to be published
The commission of Austrian and Russian officers for the ratification of the Moldavian frontier is in Paris awaiting orders.
It is now said that Austria has yielded to the importunities of Congress and agreed to evacuate the Principalities.
Turkey shows great anxiety to be relieved of the presence of the Allies.
Omer Pacha has been restored to favor.
FRANCE.—Expeditions against Madagascar and Cabyles have been decided on. Permission is to be sought to send troops through Egypt, and it is said that the Emperor will visit Algeria.
The question of the settlement of the sound dues makes no progress and will probably stand over until it is known what action the United States will take.
The energies of the Russian government, it is said will now be devoted to three objects, namely, an alliance with France, the completion of the great railways, and the diffusion of a Russian feeling on the subject of nationality. Germany.
The following are the quotations of Cotton: fair Orleans, 6¾; middlings 6 1-16; Uplands fair 6¾; middlings 5 15-16.
BREADSTUFFS.—Western Canal Flour 25s@ 31s; good Ohio 35s@36s. Corn is lower; white 30s; mixed 28s@29s. Wheat has declined 2d.
PROVISIONS.—Bacon active at 52s@53s. Lard moderate at 52s@54s.
Iron unchanged.

CONGRESSIONAL.

SENATE.—Mr. Mallory communicated to the Senate an invitation from the Secretary of the Navy for the members of the Senate to visit the steamer Merrimac at Annapolis.
The Senate then resumed the consideration of the three million amendment bill.
Mr. Bell of Tenn., expressed doubts whether this large amount could be properly expended within the present year. He thought it would be better to make only a small appropriation now.
Mr. Weller showed that the whole sum ought to be appropriated forthwith, in order that it might be used most advantageously.
Mr. Hale opposed the bill, thinking that the guns and also that Maynard's primer would not be comparable with the breech-loading rifles. He was of opinion that they would not be serviceable in war weather, and condemned such a large appropriation in time of peace, he advocated economy.
Mr. Cass said the Administration should not be held responsible, for large appropriations had been made by committees by Congress in opposition to the recommendation of the Executive.
Mr. Houston spoke at length in condemnation of the action of the Navy Board, after which the Senate adjourned.
HOUSE.—Mr. Thurston moved a reconsideration of the vote by which the House adopted the Senate's amendment to the Deficiency Bill, preventing a former law from being construed so as to allow the Public Printer 20 per cent for compensation. The motion, after a lengthy debate was laid upon the table.
Mr. Stanton addressed the House in opposition to the Slavery extension, after which the House adjourned.

NEW ORLEANS, April 22.—The Charles Morgan arrived with San Juan dates on the 16th. The Oregon had arrived on the 16th and landed 525 passengers. Walker is reported all right. Schlessinger's defeat is confirmed; 50 men were killed. The cause was total negligence on the part of Schlessinger. The remnants of his party had arrived. Hiran men cursed the cowardly Colonel Loudly. Col. Thrope fired him with a pistol on the field and threatened to shoot him the coward whose cowardice had created a panic. He had not taken a single usual precaution against surprise although within the heart of the enemy's country.
Col. Thrope came a passenger by the Charles Morgan, and reports Walker in a good position and prospering in recruiting. There have been large accessions since Schlessinger's defeat.
Another battle had taken place at Artigoli between 14 Americans under Capt. Baldwin, and 200 Costa Ricans; the latter were defeated with a loss of thirty killed. Baldwin had two killed.

NEW YORK, April 22.—*Cattle Market.*—The offerings of Beef Cattle to-day were 2250 head; the market was active and prices 25c higher; sales at $8@13. Milton lower, sales 2250 head —Swine firm, sales 2000 head at $6,50 gross and $6,25 nett.
