The Board of Licensers after a careful examination of the act under which they are organised are of the opinion that in apportioning the number of Licenses to be granted under the provisions of said act, they must make it in reference to the aggregate of Taxables in the cities, boroughs and townships respectively, and they have accordingly done so, but it will be *another*, and a distinct question whether the public need as many houses as the law prescribes, which question will be settled, when the applications for License come up.

SALE OF LARIMER'S PROPERTY.—This valuable property, situated at East Liberty, was sold by the Assignees of Gen. Larimer on Thursday:

The land was appraised at $500 per acre by the appraisers appointed by the Court, and is said to be worth that sum on an average.

PETITION REFUSED.—Our readers will recollect the Market House Act of Allegheny, which prohibited the use the Market for public meetings unless upon consent of the Market Committee, and the excitement consequent thereupon. A number of meetings were held in the Market House by the enemies of the Ordinance, without complying with the requisitions of the law and the speakers were arrested and fined therefor. They petitioned Councils to be released therefrom; but the Committee to whom the petition was referred, reported adversely thereto, at the last meeting. The petitioners are named below, and the fine and costs by each incurred set opposite: W. Alexander, $20,64; H. J. Lemon, $20,64; J. C. Baldwin $18,82; Jacob Whitesell, $18,82; Joseph Barker, $7,25 and D. L. Smith $7,25; total—$112,42.

ACCIDENTAL DEATH.—We learned yesterday that Mr. Frank Hepburn, a young gentleman, son of Judge Hepburn of this city, was killed on Thursday, in Philadelphia, by being thrown violently from a carriage, the horses attached which having run off.

Since writing the above we learn that the animal started on Robinson's hill, near the Wissahickon, in the 21st Ward, and Mr. H., and Mr. Kauffman, who was sitting in the vehicle with him at the time, jumping out, both were injured —Mr. Hepburn fatally, and Mr. Kauffman seriously.

Mr. H. had been engaged in business in Philadelphia for some time. He was possessed of fine abilities, and this sudden affliction is a terrible blow to his family.

SCHOOL AT EVERGREEN.—The proprietors of Evergreen Hamlet some three years since established a school in their midst for the instruction of their children, and now they have resolved to extend its benefits to a limited number of boarding pupils.

A new and elegant second house has been erected, and will be formally opened to-day, at 2½ o'clock, P. M. An address will be delivered on a subject entitled "Home and Home education."

The location of this institution is very fine and retired, and the Principal, Mr. C. Gregg, is well qualified for the position. The course of study is comprehensive and thorough, embracing all the branches usually taught in first class seminaries and academies.

ARRESTED.—Mr. Thomas Blackmore, Sequestrator of the Pittsburgh & Washington Turnpike Company, was arrested yesterday and held to bail by Alderman Steele, upon oath of William H. Sutton, charged with allowing the road between Saw Mill Run and the Monongahela Bridge to become almost impassible. This portion of the road has been for a long time in a horrible condition—in the full signification of that rather forcible adjective.

DIGGING SOD.—For several days past, people have been taking sod off Seminary Hill, Allegheny, by the cart loads, and the hill begins to resemble an extensive brick-yard. We believe there is an ordinance relative to this matter, and we commend it to the attention of the Mayor.

THE Lightning Train of the Central Road, which was taken off during the winter, will, we understand, be put on again on the 15th inst.

MERCHANTS' ASSOCIATION.—The regular monthly meeting of the members of the Merchants' Association was held last evening.

The minutes of the Board were read, and Mr. Smith moved they be approved.

Mr. G. E. Arnold offered the following:

Resolved, That this Association disapprove of the memorial to Governor Pollock as addressed by the Board of Directors, and that the passage of the bill applying the general Banking Law to Savings Banks and Trust Companies is expedient and calculated to carry out the principle to restrain a sound currency as adopted by the Commonwealth of Penns.

Mr. Dawson moved to lay on the table.

Mr. Smith moved as a substitute that this Association request the Governor to veto the bill in question.

Mr. Shriver moved as an amendment that a committee of five be appointed to report on this question on Friday next.

The subject was discussed at length.

By this time, the state of the question was very mixed. Mr. Smith declared that the question was his first motion,—that the minutes be approved.

The motion of Mr. Arnold and the substitute were withdrawn.

The vote was then taken on the motion to approve, and carried.

On motion adjourned.

TWO MEN KILLED.—Two men, one of them a conductor named Thompson and the other a despatcher named Benshoof, were killed on Thursday at Conemaugh, on the Pennsylvania Railroad. The train on which they were engaged stopped at the above point, and they sat down on the track before the engine, to compare their manifests. Another train approaching at the time, the engineer of Thompson's train blew the whistle and put on steam; but the parties were so intent on watching the other train that they did not mind the approach of their own, and actually sat on the track until the locomotive ran over them. They were crushed to death.

THE PREMIUM LIST.—The Premium List of the Horticultural Society for the June exhibition, has been published, and our readers who intend to compete can procure copies of it at Wardrop's Seed store, or at Collins & Holme's Agricultural warehouse, Wood street.

The Premiums are offered for many more articles than at the last June exhibition, but the amounts have been reduced.

TAX COLLECTORS OF ALLEGHENY.—At the last meeting of the Allegheny Councils, the following persons were selected TAX Collectors of the city:

First Ward—John Dyer.
Second Ward—John Ramsey.
Third Ward—A. C. Alexander.
Fourth Ward—James Graham.

A CHOICE COUNTRY SEAT.—Those desirous of a suburban residence would do well to examine the merits of the one advertised in our columns to-day. To those who appreciate a fine view, beautiful scenery and a healthful location, this place cannot fail to please.

GEORGE BEALE, JR., DEC'D.—We learn that the Duquesne Greys have sent for the body of Mr. George Beale, Jr., formerly of this city, who died this week in Portsmouth, Va. The body will be here next week, and will be interred with military honors.

FIRED.—A man named Reed, better known as *Professor* Reed, was arrested yesterday and fined by Mayor Bingham for disturbing the peace in crying off his "Electric Oil," in the Market Square.

FOR KANSAS.—The *fifth* party for Kansas, numbering 35, left here yesterday, under the auspices of the Kansas Aid Association. This makes 120 sent forward from here so far.

THE UNITED STATES Circuit Court will hold its May session, next week, commencing on Monday.

(From the Boston Saturday Evening Gazette.)

MONETARY AND COMMERCIAL.

Since the opening of Railway communication between Ohio and New York, a well organized, and we must say, very effectual effort has been made by certain commission merchants in that city to obtain the cheese trade of the interior of this State, and how well they have succeeded in their object may be seen by the following comparative import of the article at this place for four years:

1851-2	boxes	247,162
1852-3	"	212,227
1853-4	"	216,572
1854-5	"	163,379

Previous to 1852, this city was the chief depot for Western cheese; but since then, notwithstanding the production of the article has been gradually increasing, the imports at this place have been on the decrease; but during the last year or two, prices in this city have ruled relatively higher than in New York, because the supply has fallen short of the demand, and several parcels which have been packed expressly for the New York market, have been shipped to this. Our market now is, and has been for some time almost bare of good cheese and orders have been received here for prime cheese, during the present week, quoting as the aggregate of 100 to 7,000 boxes, which could not be filled. Some of the knowing ones on the "Make," seeing the turn trade was taking, proceeded to New York and purchased some twenty tons of choice old cheese which was lying in the warehouses there waiting for customers, and shipped it to this market where it found a ready sale at 11¾@12¼ ⅌ lb. The parties who shipped their cheese to this market by way of New York, have, no doubt, by this time discovered that there is a more direct and cheaper route.

Cheese is now and has been for some weeks dull in New York at 9c to 10c ⅌ lb., whilst it has been firm and in active demand in this market for two months at 10c to 12½c. In New York it is sold at net weight; here the tare is two cents, which does not cover the weight of the box, making a difference of half a cent ⅌ lb., so that it will be seen that cheese is worth two cents ⅌ pound more in this market now, than it is in New York.—*Cin. Price Current.*

Since 1851 a large cheese business has been built up in this city, and the increase in it has been quite regular. Last year the receipts were 30,457 boxes, against 24,000 boxes the year before. Up to the present date, the receipts since Sept. 1st are about 30,000 boxes, against 20,000 to same date last year, and if the supplies were now gauged by the demand, the total would soon swell to 50,000 boxes. There are selling on the same scale as the receipts, at 10½ of at Cincinnati. The market here is utterly bare; dealers are crowded with orders; prices range from 10¾ for good Western Reserve, to 12½ for choice English Dairy; and yet the eastern markets, with lower rates, seem to be paralyzed to receive. This is one of those sets of commercial blindness so common, now-a-days, and so inexplicable. The common theory is, that articles of commerce, like water, flow to their level, and always seek the best market; and commercial men are generally holding to this old and threadbare saw, who always buy and sell where they can do best; but this fanciful theory is challenged by facts, and the history of the cheese trade is especially in point against it.

BALTIMORE COFFEE CIRCULAR.—At the close of our last review the Coffee market was very active, but soon relapsed into calmness, which has been the prevailing feature of the month. The business done has disappointed the expectations of holders, and many traders have been considerably curtailed by the long protracted winter—during this month, 11,000 bags below the sales during the corresponding months last year. Under ordinary circumstances a purchase would have been made, but as consequence of the existing apathy, ware it not for the growing scarcity of the supplies from this mart by gradual withdrawals for the balance of the year, Rio and Java and prime grades are in good request, and prices of these descriptions twenty per cent maintained, whilst low grades are dull and much neglected. By recent statistics from authentic sources we find,

The estimated exports from Rio for the cur. year.....7,000,000 bags.
Of this amount there have been shipped up to 1st March.....1,425,000 "
Leaving yet to be shipped.....575,000 "
Of this, one-half will probably come to the United States, say.....287,500 "
Which with stock on hand in this country 1st April, say.....137,000 "
Would give us a supply for the next five months.....424,500 "
Or say in round numbers, a monthly supply of.....85,000 "
The monthly sales for the last half year have averaged.....87,000 "

We quote Prime Rio, 10½@12c; good fair, 11½c; low and medium grades, 10@11c. Laguayra, 12¼.; Cuba, 12c.; Java 14½@15c.

Baltimore, April 30, 1856. WHITE & ELDER, Brokers.

The annexed statement accompany each box, which must be strictly followed, and all diseases peculiar to females can be speedily cured.

Since the opening of Railway communication between Ohio and New York, a well organized, and we must say, very effectual effort has been made by certain commission merchants in that city to obtain the cheese trade of the interior of this State, and how well they have succeeded in their object may be seen by the following comparative import of the article at this place for four years:

1851-2	boxes	247,162
1852-3	"	212,227
1853-4	"	216,572
1854-5	"	163,379

Previous to 1852, this city was the chief depot for Western cheese; but since then, notwithstanding the production of the article has been gradually increasing, the imports at this place have been on the decrease; but during the last year or two, prices in this city have ruled relatively higher than in New York, because the supply has fallen short of the demand, and several parcels which have been packed expressly for the New York market, have been shipped to this. Our market now is, and has been for some time almost bare of good cheese and orders have been received here for prime cheese, during the present week, quoting as the aggregate of 100 to 7,000 boxes, which could not be filled. Some of the knowing ones on the "Make," seeing the turn trade was taking, proceeded to New York and purchased some twenty tons of choice old cheese which was lying in the warehouses there waiting for customers, and shipped it to this market where it found a ready sale at 11¾@12¼ ⅌ lb. The parties who shipped their cheese to this market by way of New York, have, no doubt, by this time discovered that there is a more direct and cheaper route.

Cheese is now and has been for some weeks dull in New York at 9c to 10c ⅌ lb., whilst it has been firm and in active demand in this market for two months at 10c to 12½c. In New York it is sold at net weight; here the tare is two cents, which does not cover the weight of the box, making a difference of half a cent ⅌ lb., so that it will be seen that cheese is worth two cents ⅌ pound more in this market now, than it is in New York.—*Cin. Price Current.*

Since 1851 a large cheese business has been built up in this city, and the increase in it has been quite regular. Last year the receipts were 30,457 boxes, against 24,000 boxes the year before. Up to the present date, the receipts since Sept. 1st are about 30,000 boxes, against 20,000 to same date last year, and if the supplies were now gauged by the demand, the total would soon swell to 50,000 boxes. There are selling on the same scale as the receipts, at 10½ of at Cincinnati. The market here is utterly bare; dealers are crowded with orders; prices range from 10¾ for good Western Reserve, to 12½ for choice English Dairy; and yet the eastern markets, with lower rates, seem to be paralyzed to receive. This is one of those sets of commercial blindness so common, now-a-days, and so inexplicable. The common theory is, that articles of commerce, like water, flow to their level, and always seek the best market; and commercial men are generally holding to this old and threadbare saw, who always buy and sell where they can do best; but this fanciful theory is challenged by facts, and the history of the cheese trade is especially in point against it.

BALTIMORE COFFEE CIRCULAR.—At the close of our last review the Coffee market was very active, but soon relapsed into calmness, which has been the prevailing feature of the month. The business done has disappointed the expectations of holders, and many traders have been considerably curtailed by the long protracted winter—during this month, 11,000 bags below the sales during the corresponding months last year. Under ordinary circumstances a purchase would have been made, but as consequence of the existing apathy, ware it not for the growing scarcity of the supplies from this mart by gradual withdrawals for the balance of the year, Rio and Java and prime grades are in good request, and prices of these descriptions twenty per cent maintained, whilst low grades are dull and much neglected. By recent statistics from authentic sources we find,

The estimated exports from Rio for the cur. year.....7,000,000 bags.
Of this amount there have been shipped up to 1st March.....1,425,000 "
Leaving yet to be shipped.....575,000 "
Of this, one-half will probably come to the United States, say.....287,500 "
Which with stock on hand in this country 1st April, say.....137,000 "
Would give us a supply for the next five months.....424,500 "
Or say in round numbers, a monthly supply of.....85,000 "
The monthly sales for the last half year have averaged.....87,000 "

We quote Prime Rio, 10½@12c; good fair, 11½c; low and medium grades, 10@11c. Laguayra, 12¼.; Cuba, 12c.; Java 14½@15c.
