Thus one after another of the true patriots of the Free States, who have hitherto belonged to different parties; are coming on the platform of different parties; are coming on the platform of resistance to the forther extension of slavery.—The outrage and insult of the Repeal of the Missouri Compromise must and will be rebuked and avenued, somer or later. Such fisgrant wrong cannot prosper.

Preserivanta Raiksoad.—The Directors of this road have declared a semi-annual dividend of four per cent—the first dividend yet made on the road. It is now doing a most excellent business, and the probability is that this rate of profit will be more than kept up.—The ocunty of Allegheny will derive \$10,000 from this dividend, over and above the interest on its subscription of a million. If the same rate be kept up, the annual gain to the county will be \$20,000; and if, as is probable, the per annum; the county will gain \$40,000.

Thus Hornicouroures.—The number for May is made up of quite a variety of articles of a practical character, all designed and calculated its interest to impert valuable information. No amateur Horticulturist should be without this valuable periodical. We are pleased to learn that it is in a prosperous state. Philadelphia; published by Robt. P. Smith, at \$2 per annum.

Inflammation and Pain are as inseparable as fire and liest. Inflammation produces pain, and pain produces inflammation. Wherever there is unnatural best, throbbing or reduces, no matier whether it is caused by a fever, a burt, a soce, poison, rheumation, plar, could, burn or sling, there is inflammation. A hundred books or a thousand sermons cannot aften or change the conclusion. To relieve pain, and restore nature, inflammation must be subdued. To accomplish this, the efforts of the physician are always directed. Thousands of the mation must be subdused. To accomplish this, the efforts of the physicians are always directed.
