ACCORDING to the most reliable estimates that portion of the West comprising Illinois, Iowa and Wisconsin and the Territories of Minnesots and Kanara, is receiving from the East, over the northern roads, about two thousand amigrants a day. And if to this be added the arrivals from Indiana and Ohio, and by the Ohio and Mississippi rivers from Virginia, Pennsylvania, Kentucky and Tennessee, we shall have a total of about 4,000 as the per diem increase of the population of the west by immigration.
