Pork and beans are a la-ter luxury, and sure to follow, wherever the Yankee's are has girdled the trees. Johnny cake is cotemporary: and fispiachs are not left far in the rear. Then comes boiled dumplins, pandowdy, succotash, pumpkin-pies and dough-nuts. Gingerbread and plum-cake mark the gradual rise of the tide, joilies and blanc man-age to show high water mark; then "floating islands" are borne on the waves of gastronomic science.

MEDALS OF GEN. PLERGE'S ADMINISTRATION.

—The burning of Lawrence and the burning of Greytown, will doubtless stand upon the pages of history as the two great events in the executive career of Gen. Pierce—the one painfing in unmistakable colors the benignity of his civil, while the other portrayers with equal vividness the glories of his military administration. That these two splendid actorements—the former illustrating the grandeur of his domestic, the latter the energy of his foreign policy—argustermined to transmit his fame to posterily as one of the most \*remarkable\* of American Presidents, there is little room to doubt.—For the first time in the history of this nation has its proud navy, under the orders of the Commander-in-Chlef, been employed in the trade of burning negro cobins over the heads of their defenceless inhabitants, and for the first time, under the name of enforcing the laws, have the murderers and vagabonds of one community been employed by the government to do justice by fire and sword upon another.

We have progressed fast—very fast—fellow citizens, within the three years past. The medals of the present administration are so different from those of any former one, that there is no room to doubt that the march has been at once, rapid and direct. It is supposed to be our manifest deniny to countrip all the other nations of the world in power and magnimity; and we have the right to congratulate ourselves upon the probability that no other government cut of heathendom would have disgraced its navy by the destruction of Greytown, or delivered itself over to perpetual infamy, by embodying meen diaries to put the torch to Lawrence.

These choice hits of soounderlism are reserved for representatives of the sovereignty of the people. Not or they accidents. They are dignificant facts. They are the sign manuals of the government. They speak in stronger terms than can be translated into words, the spirit and charmeter of the administration—even as a decadered of first the consideration.

Hall or related there which can be tor-decaded of the consideration of the stronger terms.

The PIRST Cando From JAFAL—We have, at least a tangible evidence of Japan being opened to use for the objects of trade and commerce.—An enterprising countryman of ours purchased to a vessel in San Francisco, went to Simods, in Japan, and by dint of perseverance and good management encoeeded in prevailing upon the Japaness to sell him a cargo, or at least a part of one, of their curious manufactures. For the present, they evince a decided repugnance to isliker buying or selling with outsiders. But our enterprising countryman has succeeded in prevailing upon the taining a considerable quantity of their precious knick nackery, and has resolved to put them up at auction next week. The collection of goods comprises some very beautiful specimens of Japan ware, ourlous in construction, and most elaborate in finish and ornamentation. If the demand for such articles should ever induced are with which every article is finished, and the amount of time bestowed upon their elaborate is given of the demand is large.—N. Y. Times.

The Personal Lideary Acr.—The House has reversed its action on the Personal Libeary Act. In place of the ropeal bill, which, under the lead of Whigs and Democrats, it passed to a third reading, yesterday the House oved to substitute the bill reported by the majority of the committee; and then passed it to be engrossed by a vote of 156 to 123.—Houten Post.

The first action of the House wirtually repealed the act which secured the writ of habeas corpust to a person claimed as a fugitive. This substitute modifies the existing law; but does not abridge its efficiency. The first vote was taken before Senator Sumner was assaulted. The street of 156 to 123.—House Alb. Eve. Jour.

A remarkable and signified morement has just taken place in the Connecticut Legislature.—Last week that body unanimously passed a resolution inviting Edward Everett to deliver his oration on Washington in New Haven. After the Boston meeting of indignation, it was found that Mr. Everett, who had himself been a member of the Senate, was not present upon that occasion, though invited to be there. Mr. Ferry, therefore, of the Senate, arose on Monday, and after stating the facts, the resolution of injitation was re-considered; and on motion of Mr. Ferry ind upon the table. Some half a dogin Pierce men voted against the re-consideration.

Hard TO PLEASE THEM!—Senator Seward, in debate, eschews all language which can be tortured, even by the most fastidious, into discourtesy. For this the Silver-Gray, Hunker and Pro-slavery press ridiouse him as a "patrioon" Senator Summer spoke out in language of bold yet courteous severity, and he is denounced as a "blackgoard!" Southern builtes and Northern dough-faces are hard to please,—Alb. Eve. Jour.
